CEPOL | CT INFLOW

Enhanced Mechanism for Information Sharing and Analysis – EMISA Network

OVERALL OBJECTIVE

To bring together specialists from EU and CT INFLOW partner countries, acting in the area of counter-terrorism and violent extremism, in order to exchange expertise, good practices and first-hand experiences on particular subjects

Activities and products

- development of common frameworks and methodologies
- standardisation and harmonisation of good practices
- support the development of targeted capacity-building
- development of recommendations

Working group 1
Prisons and probation

- enhancing rehabilitation of violent extremist and terrorist offenders (VETOs),
- developing effective risk assessment,
- reviewing prison regimes and exit programmes

Working group 2
Foreign terrorist fighters and returnees

- increasing information sharing between LE agencies on modus operandi of FTF and border control,
- developing and implementing rehabilitation and reintegration programs for returnees and their families

Working group 3
Strategic communications

- countering extremists and terrorist propaganda
- promoting alternative narrative campaigns with the highlight on positive messages
- enhancing cooperation with civil society

Working group 4
Prevention/countering violent extremism

- promoting community policing and multiagency cooperation
- developing capacity building to reduce risks of radicalisation
- supporting conflict prevention mechanisms

Working group 5
Countering terrorism financing

- countering underground banking
- endorsing money tracing and asset recovery actions
- countering misuse of non-profit sector

Working group 6
Nexus terrorism organised crime

- disrupting relationship between terrorism and organised crime
- identifying links of action fields from terrorism and organised crime groups

Working group 7
Cyber threats

- countering online recruitment/propaganda
