Foreword of the Executive Director

The Single Programming Document (SPD) 2022 spans a three-year period, from 2022 to 2024. The document has been finalised in accordance with the revised guidelines for the programming document issued by the Commission in 2019 and is compliant with the provisions of the new framework financial regulation in force as of 31 January 2020.

The CEPOL strategy, which has been revised as of 2021, drives the identification of priority activities and setting targets for the aforementioned period. CEPOL has streamlined its multiannual strategic goals and condensed them into three overarching pillars: (1) training needs analysis, design and quality control, (2) training implementation and delivery within and beyond the EU, and (3) efficient corporate services, governance and digitalisation of the Agency. In addition, a major strategy update is planned to be carried out on the basis of a new mandate or the availability of results of the Commission's independent evaluation.

The SPD 2022 includes also a detailed description of the resources that need to be allocated for each area in order for CEPOL to fulfil its programme of work. In this respect, the Agency continues to pursue the resources it deems necessary to achieve its objectives as they stem from the provisions of its legal mandate¹, and from its effort to respond effectively to emerging challenges in the Justice and Home Affairs policy area - with an obvious emphasis on those policies, which influence European law enforcement training.

The EU Security Union Strategy 2020-2024² embeds law enforcement training in the European Union security architecture as a key supporting action crucial to protecting Union citizens. In line with its mandate, CEPOL will support all key priority areas included in the Strategy³ and related EU documents⁴. On the other hand, the European Law Enforcement Training Scheme (LETS)⁵ places great emphasis on structuring training in line with the principle of subsidiarity, while at the same time maintaining a strong degree of integration and interdependency between the Member States, CEPOL, and the wider JHA family.

While training of law enforcement officers is a shared responsibility of the EU Member States and the Union institutions, CEPOL strives to provide Law Enforcement Officials from the EU and Third countries with the necessary skills, knowledge and competencies to successfully tackle the European security threats.

With the EU Strategic Training Needs Assessment (EU-STNA) CEPOL is supporting the decision-making process in the law enforcement training at Union level, while the Operational Training Needs Analysis (OTNA) seeks to assist the realisation of strategic goals through the implementation of specific training activities.

CEPOL's legal basis also entrusts the Agency, as part of its core business, with an enhanced external action portfolio to ensure consistency of the EU internal and external action in the sphere of law enforcement training. This area represents a key element of support, by the Agency, to the political priorities of the European Union with regard to the Union's external policies. This will continue to be crucial as of 2022 onwards as European security is more interdependent than ever from regional and global developments.

The whole package of measures supporting the enhanced use of large-scale IT systems (including training on the Entry/Exit and Travel Information Systems) – as well as an update of the currently available ones – require additional efforts from the side of the Agency to ensure law enforcement officials are aware and able

to use those instruments enabling them to better tackle the challenges of terrorism, organised crime, and irregular migration.

The COVID-19 crisis in 2020 had a massive impact on CEPOL operations – not only in 2020 but extending well over into 2021, including an inability to implement on-site activities for a significant part of the year, and a consequent shift to e-learning (online). CEPOL has addressed the implications of COVID-19 by a major amendment of its SPD and Work Programme 2020, and it has finalised SPD 2021 to enable the best possible responses to the COVID-19. In 2022 CEPOL aims to put further emphasis on delivery of cybercrime related services, especially on Child Sexual Exploitation Online in response to the current developments.

Mission statement

Mission

Making Europe a safer place through law enforcement training and learning

Vision

To be the centre of European law enforcement training and learning, focusing on innovation and quality

Values

- Human rights and fundamental freedoms
- European Law Enforcement cooperation
- Quality
- Innovation
- Reliability

Mandate

CEPOL contributes to a safer Europe by facilitating cooperation and knowledge sharing among law enforcement officials of the EU Member States and to some extent, from third countries, on issues stemming from EU priorities in the field of security; in particular, from the EU Policy Cycle on serious and organised crime.

Law enforcement officials⁷ means staff of police, customs and other relevant services, as defined by individual Member States, that are responsible for, and staff of Union bodies that have tasks relating to, the following:

- (a) The prevention of and fight against serious crime affecting two or more Member States, terrorism and forms of crime that affect a common interest covered by a Union policy; or
- (b) Crisis management and public order, in particular international policing of major events.

⁷ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 2.

Objectives⁸

- 1) CEPOL shall support, develop, implement and coordinate training for law enforcement officials, while putting particular emphasis on the protection of human rights and fundamental freedoms in the context of law enforcement, in particular in the areas of prevention of and fight against serious crime affecting two or more Member States and terrorism, maintenance of public order, in particular international policing of major events, and planning and command of Union missions, which may also include training on law enforcement leadership and language skills. More specifically, CEPOL shall:
 - a) support Member States in providing training in order to raise awareness and knowledge of:
 - i) the implementation and use of international and Union instruments on law enforcement cooperation;
 - ii) Union bodies, in particular Europol, Eurojust and Frontex, their functioning and role;
 - iii) police and judicial aspects of law enforcement cooperation and practical knowledge about access to information exchange channels;
 - b) support Member States, at their request, in the development of regional and bilateral cooperation through law enforcement training between Member States, Union bodies and third countries;
 - c) develop, implement and coordinate training addressing specific criminal or policing thematic areas;
 - d) develop, implement and coordinate training which aims to support Member States and Union bodies in training law enforcement officials for participation in Union missions and law enforcement capacity-building activities in third countries;
 - e) train trainers and assist in improving and exchanging best learning practices.
- 2) CEPOL shall develop and upgrade learning tools and methodologies and shall apply them in a lifelong learning perspective to strengthen the skills of law enforcement officials. It shall evaluate the results of such actions with a view to enhancing the quality, coherence and effectiveness of future actions at Union level.
- 3) CEPOL shall bring together a network of Member State training institutes for law enforcement officials and shall liaise with a single national unit in each Member State functioning within the network.
- 4) The learning activities referred to in paragraph 1 shall be carried out by CEPOL in cooperation with the network of Member State training institutes in accordance with the financial rules applicable to CEPOL.

Tasks⁹

- 1) CEPOL shall prepare multi-annual strategic training needs analyses and multi-annual learning programmes.
- 2) CEPOL shall support, develop, implement and coordinate training activities and learning products, which include:
 - a) courses, seminars, conferences, as well as web-based, e-learning and other innovative and advanced training activities;
 - b) common curricula for law enforcement training on specific subjects with a Union dimension;

⁸ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 3.

⁹ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 4.

- c) training modules graduated according to progressive stages or levels of complexity of skills needed by the relevant target group, and focussed either on a specific geographical region, a specific thematic area of criminal activity or on a specific set of professional skills;
 - d) exchange and secondment programmes as well as study visits in the context of law enforcement training.
- 3) CEPOL's training activities and learning products may be supported, enhanced and completed by the operation of an electronic network.
- 4) CEPOL shall support Union missions and capacity-building in third countries by one or more of the following:
- a) assessing, in coordination with other relevant Union bodies, the impact of existing Union-related law enforcement training policies and initiatives;
 - b) developing and providing training to prepare law enforcement officials for participation in Union missions, including to enable them to acquire relevant language skills, in coordination with the European Security and Defence College and existing initiatives in the Member States;
 - c) developing and providing training for law enforcement officials from third countries, in particular from countries that are candidates for accession to the Union and the countries under the European Neighbourhood Policy;
 - d) managing dedicated Union External Assistance funds to assist third countries in building their capacity in relevant law enforcement policy areas, in line with the established priorities of the Union.
- 5) CEPOL shall promote the mutual recognition of law enforcement training in Member States and the recognition by Member States of training provided at Union level with due regard to the principle of subsidiarity.
- 6) CEPOL may engage in communication activities on its own initiative in the fields within its mandate. Such communication activities shall not be detrimental to the tasks referred to in paragraph 1 and shall be carried out in accordance with relevant communication and dissemination plans adopted by the Management Board.

Research relevant for training¹⁰

- 1) CEPOL shall contribute to and encourage the development of research relevant for training activities within the scope of its objectives as set out in Article 3(1) and shall disseminate research findings. For that purpose, CEPOL may carry out relevant surveys and may develop repositories of available research as well as law enforcement training needs
- 2) CEPOL shall promote and establish a partnership with Union bodies as well as with public and private academic institutions and may encourage the creation of stronger partnerships between universities and law enforcement training institutes in Member States.

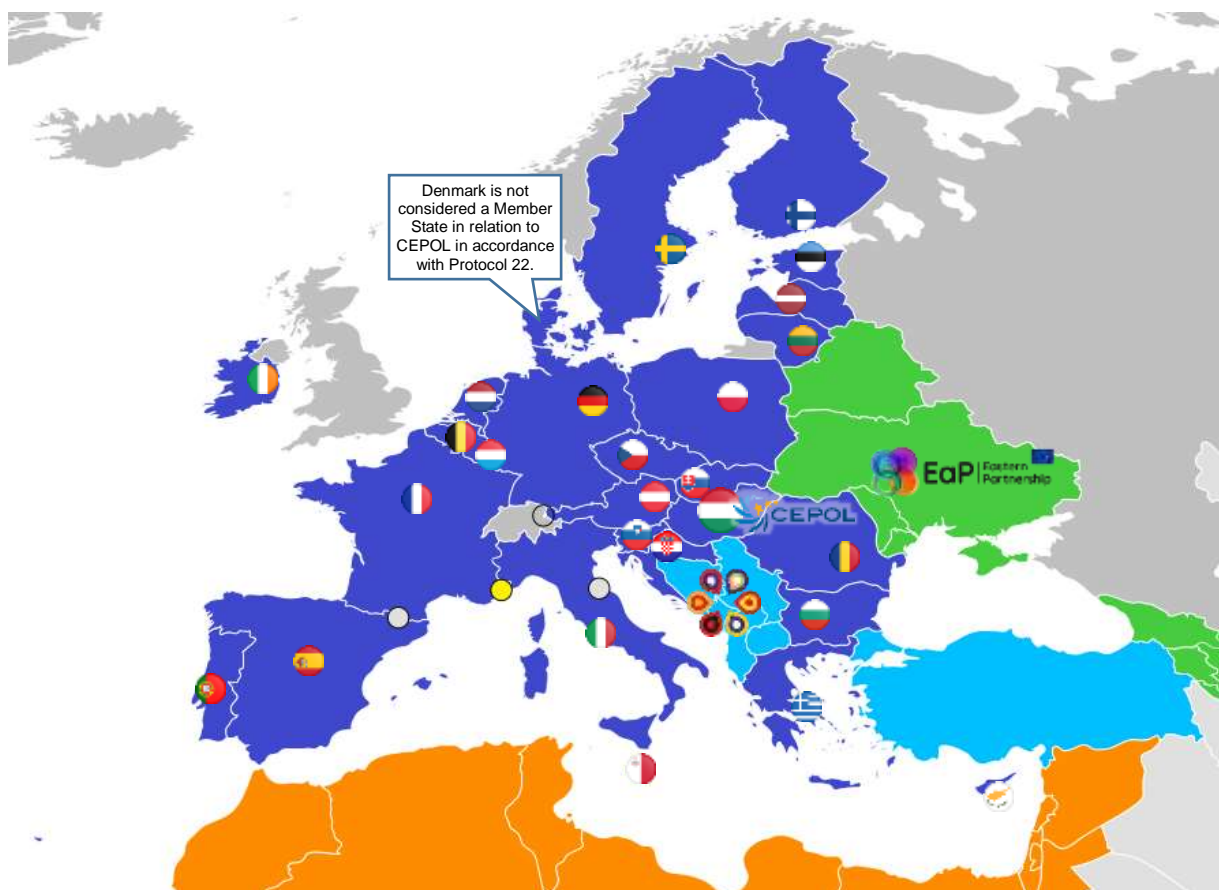

¹⁰ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 5.

Section I – General Context

Five years after the entry into force of its new legal mandate¹¹ and fifteen years since the inception of CEPOL as an EU Agency, CEPOL will be entering 2022 as a matured organisation and a recognised world-class partner in the development and provision of training for the law enforcement community.

Regarding its governance, CEPOL is headed by the [Executive Director](#), who is accountable to a [Management Board](#). The Management Board is made up of representatives from 26 EU Member States¹² and the EU Commission, and meets at least two times per year. The chair of the Management Board is a representative of one of the three Member States that have jointly prepared the Council of the European Union's 18-month programme. CEPOL has dedicated National Units (CNU) in every Member State to provide information and assistance to law enforcement officials who wish to participate in CEPOL's activities, and CNU also support CEPOL's operations.

CEPOL serves 26 EU Member States, and – in accordance with the legal mandate¹³ – engages in capacity building projects with Third Countries covered by EU neighbourhood policies.

14

CEPOL continues to strive to offer its target audience relevant training opportunities with the use of state-of-the-art tools, incorporating in its training & learning portfolio the latest methodologies and practices. When designing its SPD, CEPOL took into account its wider policy area's most important EU strategies, policies, and key documents identifying the training needs & gaps related to the law enforcement community, namely:

- EU Security Union Strategy 2020-2024¹⁵,

¹¹ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL)

¹² Denmark is not considered a Member State in relation to CEPOL in accordance with Protocol 22 on the position of Denmark in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU.

Additionally, CEPOL will be following all other developments in the JHA policy area²⁴, such as law enforcement and judicial cooperation with the aim to coordinate activities with other agencies, develop and implement new training activities. In particular, the introduction of the EU cyber security agency and the European Public Prosecutor's office will require the support of training measures requiring CEPOL's active role.

CEPOL also plays an important role in the family of JHA and other EU agencies and among international organizations, as demonstrated by its comprehensive external partnerships in place (see in Annex XII: Strategy for cooperation with third countries and/or international organisations (CEPOL External and Stakeholder Relations Sub-strategy) in details):

The level of cooperation with the JHA agencies and other international organisations active in the policy area is expected to deepen even further, which will also imply an increasing number of joint activities. In addition, CEPOL is committed to follow the wider work done at EU level in JHA policy area and disseminate information about these activities, especially in specialised law enforcement networks.²⁹ CEPOL will also chair the JHA Agencies Network in 2022. According to established practice, this will entail 3 regular network meetings, the meeting of the Training Contact Group, and the Directors' meeting (which is usually attended by the Commissioner).

It is anticipated that one of the key themes of the CEPOL regulation – notably, CEPOL's role in assessing strategic and operational training needs and translating them into concrete training activities reflecting Europe's strategic security priorities and law enforcement's operational needs – will have paved the way to a more qualitative delivery based on evidence and a thorough participative and consultative process that maintains the Member States front and centre of CEPOL's supportive mandate.

The Commission is carrying out an evaluation of CEPOL to be completed by 1st July 2021, in accordance with the founding regulation. The final report including possible recommendations will be submitted to the MB in the course of 2021..

The current headquarters building that was made available to the agency by the Hungarian authorities in 2014 does no longer fit the needs of the organisation. The seat agreement with the Hungarian authorities indicate that at least 2 years before the end of the 10-year rent-free period (30 September 2024) negotiations are started on future cooperation. Due to the following developments in the last years, the current building is no longer fit for purpose:

- CEPOL Cybercrime Academy needed to be opened at the premises of the International Training Centre of the Hungarian police (NOK/ITC)
- There are significant extra budgetary resources made available for capacity building projects in non-EU countries through delegation or grant agreements, that requires office space for the project staff
- Agency has repetitively requested additional resources to enable to full implementation of its mandate

CEPOL is in need of a building with more, flexible functional rooms as well as office space. Discussion with the Hungarian authorities have started, but up to October 2020 have not lead to an identified new building (project) where CEPOL would be able to have all its activities in one building. As an interim solution, CEPOL management decided in mid-2020 to rent new office space to host its grown capacity building project staff in an office building in Aradi utca (close to CEPOL HQ).

In line with the resource forecast for CEPOL, the Agency is aiming in the next years to operate in a "hybrid business model" that will be based on three pillars:

- Activities to be implemented by Framework Partner via Grants;

²⁹ Such as the ATLAS network of European special intervention units, ENLETS (European Network for Law Enforcement Technology Services) and Radicalisation Awareness Network (RAN)

- Specific Areas to be covered by selected CKCs in the format of the new business model (design by CKC, implementation by CEPOL and hosting MS institutions);
- Activities implemented by CEPOL (the CEPOL Cybercrime Academy, online activities, exchange programme and research and analysis).

Section II Multiannual Programming 2022-2024³⁰

1. Multiannual work programme

This part of the Single Programming Document describes the medium-term strategic objectives of the Agency and explains how the progress in their achievement is monitored. The main tenets of CEPOL's multiannual programming are that the Agency must be able to respond to the training needs of the European law enforcement community, and that CEPOL training activities should stem from a structured process built upon strategic and specific Training Needs Analysis, taking into due account the requirements deriving from EU policy documents. Challenges that arose due to the COVID-19 crisis will also be addressed to enable (1) to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension, (2) becoming the EU's law enforcement e-learning support hub, (3) enhancing further digitalisation of CEPOL.

CEPOL's multiannual programming sets strategic goals and objectives for 2024 and it aims to serve as a blueprint for the development of the Agency's annual work programmes. It is complemented by corresponding Key Performance Indicators 2022-2024 – which also corresponds to the Work Programme 2022 Activities.

The structure and terminology have been aligned with the revised SPD guidelines developed by the European Commission³¹, which, in turn, also reflects Article 32 of the CEPOL Financial Regulation³² that sets out programming requirements for the Agency.

Delivery of relevant further volume of cybercrime related services, especially on Child Sexual Exploitation Online proposed from 2022 onwards

CEPOL strongly recommends to further enlarge its services and products to more adequately address a significant training demand in the area of cybercrime. This will help close the already identified gap of 3500 general criminal investigators in the EU MS³³ as well as gaps in training with regard to the other profiles of law enforcement officials as identified by the Competence Framework and recognised by Member States and the European Commission. In line with the latest EU Strategy for a More Effective Fight against Child Sexual Abuse³⁴ CEPOL will provide from its perspective the framework for developing a comprehensive response to these crimes, especially in online form, to strengthen law enforcement response on EU level. The agency will focus on the relevant training aspects of this response with the aim to increase the number of police officers trained on the topics defined by the strategy. CEPOL will hence expand its training services and products to better address needs of the Member States cybercrime community.

This scenario would require – on top of the planned 2021 resources - an additional budget of 899 618 Euros and plus 5 FTEs.

Perspective towards relevant further services proposed from 2023 onwards on Artificial Intelligence (AI) and big data analysis

Recognising the importance of the influence of fast technological developments on the law enforcement and also following the stepped up efforts by the EC in this area, CEPOL shall also address how AI tools and big data analysis can be used by law enforcement officers to rapidly acquire, process and analyse massive crime-related data. CEPOL is part of the European Commission Expert Group on Artificial Intelligence in the domain of the Home Affairs and shall follow the Expert Group's recommendations and defined priorities areas and initiatives from the training and research perspective. In this context, the Cybercrime Academy (CCA)

would address the influence of the modern technology on the law enforcement, creating specialised activities focused on the AI, big data analysis, e-evidence, and other emerging training needs resulting from the modern technology's impact on the law enforcement. In this context, CEPOL Cybercrime Academy can become a valuable partner, by providing training on how to use the knowledge and the appropriate tools.

This scenario would require – on top of requested resources for 2022 – additional budget of 768 000 EUR and plus 4 FTEs.

1.2 Ensure high quality training services by further development and upgrading of learning tools and methodologies (Quality Objective) ³⁷
1.3 Integrate research results into education and training

³⁵ Multi-annual objectives under this goal are marked as quality objectives in the context of ISO 9001:2015 certification, as it is directly related to the continuous improvement of CEPOL services

³⁶ Such as extending the current ISO 9001:2015 and ISO 29993:2017 certifications to new processes and training activities

³⁷ Including digitalisation of operations

Goal 2: CEPOL will further coordinate, support and implement training activities for the Law Enforcement Officials from the EU and, where applicable, of Third countries with particular emphasis on fundamental rights and crime prevention³⁸

Between 2018-2020 CEPOL implemented two EU funded projects with 17 posts funded through respective delegation and grant agreements (in addition to the regular Agency budget): concretely Counter-terrorism Project 2 with 10 posts and Western Balkan Financial Investigations project with 7 staff members.

Four new projects started in 2020 (see under Activity 2.11 of Section III – Work Programme 2022), therefore staff was hired for the duration of the projects on the basis of and financed from the respective contribution agreements: 12 staff members for CT INFLOW, 13 for EUROMED Police, 10 for TOPCOP and 6 for WB PaCT (total of 41).

For detailed data on different staff categories, please refer to Table 1 – Staff population and its evolution; Overview of all categories of staff in Annex IV: Human resources quantitative. Other information concerning recruitment policy, appraisal of performance and reclassification/promotions, mobility policy, gender and geographical balance and schooling is provided in Annex V: Human resources qualitative.

2.2. Outlook for 2022-2024

A) New tasks

The agency responds to the latest challenges by focusing on the newly defined priorities, and this trend was additionally reinforced by the pandemic' results: (1) to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension, (2) becoming the EU's law enforcement e-learning hub, (3) enhancing further digitalisation of CEPOL.

The regulation of the European Parliament and of the Council on establishing a framework for interoperability between EU information systems (borders and visa) aims to ensure that centrally coordinated EU level training improves coherent implementation of training courses at national level and as a consequence ensures correct and successful implementation and use of interoperability components will take place. CEPOL – as the EU Agency for Law Enforcement Training – is well-positioned to deliver central EU level training. CEPOL shall coordinate, manage, organise and update the courses and the cost for delivering a number of training sessions per year and prepare the online course(s). The training effort is concentrated on the periods immediately preceding go-live. A continuous effort remains necessary beyond the go-live as the interoperable components are maintained and the trainers do not permanently remain the same persons, based on the experience of delivering existing training on Schengen information system.

The Commission is carrying out an evaluation of CEPOL to be completed by 1st July 2021, in accordance with the founding regulation. The final report including possible recommendations will be submitted to the MB in the course of 2021.

B) Growth of existing tasks

The legal basis (new mandate) that came into force on 1 July 2016⁴⁵ mandated CEPOL to fulfil a significantly wider range of tasks, which cannot be duly implemented with the current staffing, therefore CEPOL seeks the approval of 5 additional posts as of 2022 to focus specifically on the first priority area as defined above (to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension), and 4 additional posts as of 2023 to propose further activities on Artificial Intelligence and big data analysis.

The Regulation on establishing a framework for interoperability between EU information systems⁴⁶ tasked CEPOL to organise training at Union level to enhance cooperation and the exchange of best practices between the staff of Member States authorities and Union agencies who are authorised to process data using the interoperability component, with particular attention to the process of multiple-identity detection, including the manual verification of different identities and the accompanying need to maintain appropriate safeguards of fundamental rights. Towards this end, from the envelope foreseen to cover the costs of implementation of the Regulation (EU) No 515/2014, EUR 144 000 shall be allocated to CEPOL to support in performing the respective tasks.

The legal mandate tasks CEPOL to "support Union missions and capacity-building in third countries by" [...] "managing dedicated Union External Assistance funds" (Art. 4(4)(d)). It also stipulates that "CEPOL may benefit from Union funding in the form of delegation agreements or ad-hoc grants" (Art 17(4)).

⁴⁵ [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...]

⁴⁶ [Regulation \(EU\) 2019/817](#) establishing a framework for interoperability between EU information systems (borders and visa) [Regulation \(EU\) 2019/818](#) establishing a framework for interoperability between EU information systems (police and judicial cooperation, asylum and migration)

In 2021 and consequently in 2022 CEPOL will continue to be the beneficiary of four ongoing capacity building projects in third countries that started in 2020:

1. CT INFLOW (Enhancing Information Exchange and Criminal Justice Responses to Terrorism in the Middle East and North Africa – Euromed follow-up): budget of EUR 7.5 million, duration of 48 months, 12 staff members, starting as of 1 April 2020, EU funded under the Instrument contributing to Stability and Peace (IcSP), covering the European Neighbourhood South.
2. EUROMED Police (Enhancing operational capacities of the South Partner Countries (SPC) to fight serious and organised crime and strengthening strategic cooperation): budget of EUR 7 million, a duration of 48 months, 13 staff members, starting as of 1 April 2020, EU funded under the European Neighbourhood Instrument (ENI), covering the South Partner Countries (SPC).
3. TOPCOP (Training and Operational Partnership against Organised Crime): budget of EUR 6 million, duration of 48 months, 10 staff members, starting as of 1 July 2020, EU funded by the European Neighbourhood Instrument and managed by DG NEAR, covering the Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine).
4. WB PaCT (Western Balkans Project against Crime and Terrorism): budget of EUR 3 million, duration of 36 months, 6 staff members, starting on 16 October 2020, EU funded under the Instrument of Pre-Accession II managed by DG NEAR.

As the chart below demonstrates, the number of trained law enforcement officials has almost tripled since the new mandate came into force in 2016. While the high number of new activities and training participants benefitted the EU member states, at the same time it creates significant extra workload for the current staff.

* Participation includes on-site activities, online activities (webinars, online courses, online modules, Virtual Training Centre, webinar series), the CEPOL Exchange Programme (CEP), capacity building projects

** 2019 figures include 611 participants trained during activities carried forward from 2018; 2020 figures are planned

5 (Projects)	WB PaCT	p.m.	p.m.	p.m.

Detailed financial resources data is provided in Tables in Annex III.

Title 1 – Expenditure related to persons working with CEPOL

To respond to the latest challenges by focusing on the newly defined priorities CEPOL request for 2022 additional posts of 5 FTEs – 2 FTEs training officer in CCA (AD 6/AD7), 1 Analyst (AD6), 1 E-learning officer (AD6), and 1 ICT Officer (AD5).

As of 2023 additional posts of 4 FTEs are requested – 2 FTEs training officer in CCA (AD6/AD7), 1 Analyst (AD 6) and 1 E-leaning officer (AD6).

Title 2 – Buildings, Equipment and Miscellaneous expenditure

In 2018 CEPOL has made a request to the Hungarian authorities to explore the possibilities for a new building for CEPOL that would enable the agency to better fulfil its tasks and obligations as well as better accommodate the additional staff; both for staff requested as for staff engaged in the capacity building projects. The current building has been designed for 53 staff members, current staffing levels (including the two capacity building projects closing in 2020 and the four new starting as of 2020) are close to 100. Taking in consideration the CEPOL request for additional human resources, the staff numbers would increase to approximately 130 (including staff for extra budget activities). The Hungarian authorities are positively considering this request but a decision has not been taken yet. In 2020, CEPOL explored short, medium and long-term solutions to overcome the lack of office space. As an interim solution, a rental agreement has been concluded in Q2 2020 with a nearby office building to rent office space for the capacity building projects (to be financed from extra budget revenues).

Further details are provided in Annex VII: Building policy.

Title 3 – Operational expenditure

While in 2020 and in 2021 the extraordinary situation created by the pandemic highly influence CEPOL's delivery of its core activities, with the Multiannual Programming 2022-2024 the Agency seek a long-term sustainability of the Agency's operations.

- Expand the scope and enhance the availability of EU level training. Training on serious and organised crime (except cyber), counter-terrorism needs to be further sustained. Needs increase substantially, driven by globalisation of crime and the more and more numerous transnationally active organised crime groups. Serious organised crime trainings must be embedded in the framework of EMPACT

and conducted in close cooperation with Member States, EU and International organisations. Volume of officials to be trained shall be expanded to satisfy the demand of law enforcement officials other than police, and can be estimated at 1.5M officials in the EU. It is the aim to train up to 15k officials per year on SOC priorities (except cyber). Establishment of a new CEPOL business model enables the delivery of custom made training to specific law enforcement segments.

- Cybercrime, cyber related crime, electronic evidence and digital investigation and forensics competence: Cyber TNA clearly demonstrates that existing cybercrime training within the EU is not sufficient to meet the ever-growing training needs in the field. Cyber TNA demonstrates that MS's training on cyber is seriously lacking behind. Rotation of staff, lack of access to the expertise and trainers as well as high cost of cyber training is one of the reasons. Cyber, being a distinctly cross-border crime where in one case over 20 jurisdictions can be involved, requires training at EU level and beyond. In the area of digital forensics common training standards are necessary to facilitate the path to evidence admissibility in EU MS. The maintenance, development and improvement of the EU law enforcement cyber-training facility - CEPOL Cybercrime Academy for law enforcement is necessary - it shall operate in close cooperation with Europol / EC3, ENISA, ECTEG, EDA, private sector etc.
- Training on information exchange and special law enforcement techniques, with the updated SIS, travel intelligence, Prüm, operational agencies - tools designed to support cross border cooperation calls for significant increase in raising knowledge on these tools and supporting specialist networks. Here CEPOL needs to be prepared for the training of the Interoperability package.
- Training needs assessment and training coordination at EU level. Identification of needs for skill development (STNA, OTNA, thematic micro-TNAs). These analytical products that are developed on the basis of threats, technological and societal developments provide the necessary evidence where EU level training will add value. Future oriented needs assessments are imperative in all areas, but even more crucial and resource-consuming in those driven by technology such as cyber.
- Development of EU training standards, Certification of training and trainers
- Language training to facilitate cross border cooperation inside the EU and with the Candidate + ENP countries
- Research in the area of Law Enforcement training / education
- External aspects of Internal security, particularly capacity building in ENP countries: 1) provide custom made training activities for ENP countries, 2) providing subsidised learning opportunities organised by CEPOL - joint ENP-EU activities.
- Sustainability of training initiatives funded by EU, aiming to ensure continuity to training initiatives developed using EU funds - take over the project outcomes, ensure their further maintenance, implementation and the development
- Further development of training environment, e.g. technologies, methodologies: enforcing the technological solutions for education and learning such as LEEed platform (to replace e-Net), capacity to build interactive online learning solutions, investing in the accessibility of online publications (e-journals, e-books). Innovation in law enforcement training, including technological aspects, should become an integral part of CEPOL's delivery. Online learning is the most suitable tool to ensure access to education to wider audiences, it works really well where high number of officials needs to raise awareness, but also it offers alternatives for specialist learning such as creating learning opportunities - simulations of hostile environments, simulations of crisis situations

2.3.2. Human resources

As of 2022 CEPOL request an increase of plus 5 FTEs and as of 2023 plus 4 FTEs to deliver the mentioned priorities on cybercrime related services and services proposed on Artificial Intelligence and big data analysis.

Staff Category	Staff population in draft EU budget 2022	Staff population envisaged in 2023	Staff population envisaged in 2024
----------------	--	------------------------------------	------------------------------------

Temporary Agents	33+5	38+4	p.m
Contract Agents	19+1	19	p.m
SNEs	6	6	p.m

Detailed human resources data is provided in Annex IV: Human resources quantitative.

2.4. Strategy for achieving efficiency gains

CEPOL is committed to continuously improve its functioning, streamline its processes, optimise the engagement of its staff, allow for the reallocation of resources to the most efficient and economic actions for the set objectives. To this end, as of 2020, various efficiency measures have already been implemented, some of the most noteworthy being:

- CEPOL has advanced relatively well with its digitalisation initiatives and has already achieved a relatively high level of digitalisation through many of its processes having been converted to paperless/electronic – often in close cooperation with DG DIGIT (refer to Annex VI: Environment management for details):
 - e-Procurement submission system for open procedures and e-Tendering,
 - e-Recruitment,
 - e-HR management (SYSPER was launched in CEPOL in 2019),
 - e-Invoicing,
 - electronic travel booking;
- CEPOL has regular, substantial and close cooperation with national authorities, networks and agencies relevant to increasing efficiency:
 - Host Member State authorities (NOK-ITC): building & facility management,
 - Budapest-based EU bodies (EIT, EC & EP representation): staff matters (e.g. schooling, training), joint procurements, joint recruitments, mutual usage of recruitment reserve lists, mutual usage of functional rooms with, best practice exchange on IT system implementation (e.g. Speedwell), planning towards a mutual establishment of IT backup solution with EIT, planning towards a full scale disaster recovery solution with EIT, joint social events, other corporate and administrative matters
 - JHA Agencies Network (EASO, EIGE, EMCDDA, eu-LISA, Eurojust, Europol, FRA, Frontex & CEPOL): ensuring cooperation on EU security, justice, fundamental rights and gender equality matters, joint strategy on the role of JHA agencies, annual work programme consultation,
 - EU Agencies Network (EUAN): coordination, shared services (incl. joint procurements),
 - EU Commission (DG DIGIT, DG BUDGET): implementation of digital EU tools and software, outsourcing of support services (e.g. accounting);
- While COVID-19 had a serious impact on its on-site, classroom-based activities in 2020, CEPOL has responded duly and reallocated resources to ensure a high level of Work Programme 2020 implementation by:
 - Emergency response via CEPOL COVID 19 task force giving direct support to training institutions in EU Member States via CEPOL electronic tools, approx. 3800 individuals have benefited from these services
 - Going online of LEED– e-learning training portfolio was extended, incl. products covering COVID-19,
 - Reallocating resources – across CEPOL structure staff were qualified and (temporarily) reassigned to support e-learning activities and to support digitalisation projects,
 - Taking over – activities formerly planned to be implemented by framework partners via grants were taken over by CEPOL for in-house implementation.

In 2022-2024, CEPOL will seek to further achieve efficiency gains and budget savings in the following areas:

- Tasks considered for downsizing / discontinuation: as explained under heading 2.5;
- Reprioritisation of actions, redeployment of resources: as explained under heading 2.5. In addition – similarly to COVID-19 response – flexible staff reallocation if there is a need to cover understaffing of an operational (training) or administrative (corporate services) task or duty;
- Tools, resources, provisions and processes that aim to facilitate the efficiency and the productivity of staff: CEPOL will further digitalise the Agency through the substitution of paper-based processes with

electronic workflows and implementation of tools & software (as described in [Annex VI: Environment management](#)):

- Speedwell: web-based electronic workflow for payments (interface with ABAC),
- Bluebell: budgetary planning and monitoring tool & electronic workflow (interface with ABAC),
- Ares: document management and archiving system,
- New SYSPER module(s): Digital personnel file, MiPs (mission management) and Reporting tool,
- Microsoft Office 365;
- Sharing services and IT development projects among agencies operating in the same Member States or policy areas and between the agencies and the Commission:
 - CEPOL will continue, and – if possible – extend the areas of cooperation with Budapest-based EU bodies (EIT, EC & EP representation) as mentioned above,
 - CEPOL will continue, and – if possible – further extend joint IT projects and shared services with JHA Agencies Network, EU Agencies Network (EUAN) and EU Commission,
- Increasing the automation/streamlining of work processes, moving to e-administration and e-training: CEPOL will revise, automatize & digitalise its work processes and move into e-administration (as explained also under bullet point 3), while e-training tools are already in place due to the nature of the Agency's core business;
- On the principle of sound financial management:
 - CEPOL will continue negotiations with the host Member State authorities with the aim of obtaining a new building that could host all CEPOL staff (incl. staff working on externally financed capacity building projects) and render the rent of additional office unnecessary.

2.5. Negative priorities/decrease of existing tasks

CEPOL's resources for 2021 as indicated in the Draft Budget 2021 by the Commission are insufficient for the Agency to deliver fully on the mandate which entered into force on 1 July 2016. The outreach of CEPOL has almost doubled: number of participants has grown from ca. 18,000 in 2016 to ca. 34,700 in 2019, which represents an increase of 93% already in the last 4 years and reflects exploding demand and necessity for the trainings that the Agency delivers. Due to insufficient resources, this demand could be only followed by increasing the online learning component, which did not entirely satisfied the need of the stakeholders. The number of tasks assigned to the Agency and its stakeholder expectations continue growing, which CEPOL was not/will not be able to satisfy due to the discrepancy between the enhanced mandate and the available limited financial and human resources, just to name a few.

Section III – Work Programme 2022

Executive summary

This section outlines the specific objectives that aim to contribute to the realisation of CEPOL's strategic objectives. These are formalised under activities and they include outputs, results (expected outcomes) and indicators.

In 2022 the following programming principles shall apply:

- 1) CEPOL will continue to address key EU security threats as identified by the EU institutions, and shall continue to cover the spectrum of the EU policy cycle, while striving to cover the whole panoply of thematic competences attributed to the agency by its legal basis;
- 2) CEPOL's programming will be informed by Strategic and Operational Training Needs assessments and analyses based on EU STNA 2022-2025;
- 3) Further efforts will be made to enhance the multi-professional nature of CEPOL activities by encouraging the participation of wider law enforcement professional target groups;
- 4) Additional efforts will be made to go towards enhancing the value of CEPOL's training activities by means of certification.
- 5) The agency responds to the latest challenges by focusing on the newly defined priorities, and this trend was additionally reinforced by the pandemic' results: (1) to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension, (2) becoming the EU's law enforcement e-learning support hub, (3) enhancing further digitalisation of CEPOL.

CEPOL in 2022 shall follow these guidelines:

- (1) Enhanced use of evidence-based training needs assessment for the definition and design of CEPOL's portfolio;
- (2) Further attention to be made to quality management, with a view to offer ever-increasing qualitative learning to the law enforcement community in Europe and beyond, particularly by working on the issues of certification, accreditation, evaluation and blended learning;
- (3) Continued attention to covering the entire spectrum of Serious Organised Crime focussing on EMPACT priorities, with enhanced delivery in the area of Cybercrime;
- (4) Continued high attention to the issue of Counter-terrorism in coordination with Europol's European Counter-terrorism Centre and Member States' Counter-terrorism units and under the auspices of CKC CT
- (5) Enhanced training portfolio in the area of interoperability and information exchange following up developments in the field and under the auspices of CKC Inter (Law Enforcement Cooperation, Information Exchange and Interoperability);
- (6) Expand its operations in the area of the Western Balkans to support EU candidate countries and potential candidates, and continue to support partnerships with third countries by allowing participation to CEPOL activities via external projects;
- (7) Continue to be in line with the standards expected from an EU public administration entity in line with the principle of service orientation, efficiency, modernisation and sound management.
- (8) Commits to the protection of human rights and fundamental freedoms by increasing law enforcement officials' awareness and skills in addressing specific fundamental rights challenges, and also by generally contributing to the development of a fair and human rights-compliant law enforcement culture.

Work programme goals and activities are fully aligned and matched with the multiannual objectives.

Types of learning

CEPOL offers different ways to learn under its training activities (Goal 2)		
On-site activities		<p>On-site activities take form of courses, conferences, workshops and seminars and typically last a week and are held in a training institute in one of the Member States or at CEPOL HQ.</p> <p>On-site activities provide an opportunity to gain a deeper understanding of a subject. Teaching often features case studies and participants are encouraged to share best practices.</p>
Online learning (Online activities)		<p>Online learning is a way of computer based distanced learning via self-paced and instructor-led learning activities.</p> <p>Online learning take form of webinars (short interactive presentations), online modules (self-paced learning material), online courses (expert moderated real-time activity) and other activities (e.g. Cyberbites, E-workshops, E-lessons, access to high quality publications).</p>
CEPOL Exchange Programme (CEP)		<p>The CEP is an Erasmus-style exchange programme that allows law enforcement officials to spend one week with a counterpart in their country, exchanging knowledge and good practices, initiating cooperation projects and fostering deep and long-lasting learning and networking opportunities. In addition, study visits and secondments can be organised to allow participants to familiarise themselves in more detail with the work of other MS law enforcement services/JHA agencies.</p>

Assumptions for 2022

Human resources:

- 38 Temporary Agent posts (including 1 for Interoperability)
- 20 Contract Agent posts (including 1 for Interoperability)
- 6 SNE posts
- Correction coefficient will be 75.3 %

Financial resources:

- 11.5 million, complemented by externally funded projects.

Operational assumptions:

- CEPOL be granted the requested 11.5 million EUR budget and plus 5 FTEs
- 4 CEPOL projects will run in 2022
- EU STNA 2022-2025 in place
- Operational Training Needs Analyses will be conducted in 3 new thematic areas
- Alternative, future looking business model will be implemented

Goal 1: CEPOL will plan and develop high quality training services focused on priority areas

Activity 1.1: Training needs assessment and coordination⁶⁴

Overview

The agency strives to respond effectively to the training needs of the Union in order to provide the law enforcement officials with the knowledge and skills that are necessary for tackling key common security threats faced by the Union. The key objectives of this activity will comprise the following;

- Aligned with the next EU policy cycle, new EU-STNA will be conducted and delivered in 2021 to define strategic-level training needs for law enforcement officials across Europe for the period of 2022-2025. The methodology of the new EU-STNA is based on recommendations stemming from the impact assessment and process evaluation concluded in 2020. On the basis of the STNA 2018-2021 outcomes, Operational Training Needs Analyses will be conducted. The revised OTNA methodology, adopted by CEPOL Management Board in 2020 will be applied.
- The multiannual plan for delivering OTNA will be updated.
- CEPOL's thematic training portfolio will be based on the EU-STNA and OTNA outcomes.
- By aiming to achieve synergies and good coordination, CEPOL will continue to:
- Explore common areas of interest and cooperation with other JHA agencies relating to needs assessment and evaluation, (e.g. EASO – use of Kirkpatrick's methodology in Level 3 and 4).

New developments

- New EU-STNA cycle;
- New OTNA methodology
- Multiannual OTNA plan will be updated

Activity 1.2: Ensure high quality training services by further development and upgrading of learning tools and methods⁶⁷

Overview

In line with the resource forecast for CEPOL, the Agency is aiming to the next years to operate in a “hybrid business model” that will be based on three pillars:

- Activities implemented by CEPOL (the CEPOL Cybercrime Academy, online activities, exchange programme and research and analysis;
- Specific Areas to be covered by selected CKCs in the format of the new business model (design by CKC, implementation by CEPOL and hosting MS institutions);
- Activities to be implemented by Framework Partner via Grants.

In 2020, one CEPOL Knowledge Centre was implemented following the new business model in the domain of Counter-terrorism as a pilot. Besides CEPOL continuing to maintain the CKC on Counter-terrorism (CKC CT), from 2021 a CKC on Law Enforcement Cooperation, Information Exchange and Interoperability (CKC INTer) will also be fully established ensuring the design and supervising the conduct of training activities in this field.

All training activities, where applicable, will provide an opportunity to evaluate the learning achievements gained by the participants, therefore, among other requirements; ensuring basis for a sound quality assurance system in place.

While supporting the already existing trainers and experts, in order to reach out to a broader multiprofessional law enforcement community, implementing the extended mandate of the Agency, CEPOL will further improve its offer in the area of e-learning activities offering new opportunities for online training.

CEPOL will also establish a dedicated expert group to foster inclusion of fundamental rights topics in CEPOL training activities (see under Activity 1.4) in 2021. The Expert Group is expected to be operational also in 2022.

New developments

Integrated quality assurance mechanism ensures that CEPOL training remains operationally relevant and is of high quality.

Where applicable, testing and certification will be integrated into training activities. CEPOL strives to maintain and to incorporate cutting edge training methodologies to be able to deliver quality training that is suitable for the multiprofessional law enforcement community the agency is serving.

In 2022 CEPOL will continue to develop the following areas:

- Further maintenance and development of training and learning, particularly:
 - Further adoption of blended learning in particular in the area of serious organised crime including cybercrime;

⁶⁷ Legal basis: [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 3(2), 4(2), 4(5)

- use of adequate testing in proportion of the length and type of training products;
- Pre-course quality control measures concerning onsite activities are continuously applied
- E-learning, particularly strengthening the capability to deliver online courses, virtual platforms and virtual realities, serious gamification of learning options, use of videos and podcasts;
- Investment in technological developments supporting training landscape;
- CEPOL will continue to support its training community and experts with the following services;
 - Training activities on the design and delivery of on-site and online, self-paced and instruction-led learning activities
 - Maintaining a list of external experts based on the outcome of the unified Call for individual experts ensuring consistent use of expertise across the range of various types of CEPOL training and learning actions
 - LEEd implementation to support CEPOL's training, learning and education activities;
 - Enhanced engagement with H2020 projects where CEPOL will contribute and benefit from participating in advisory and stakeholder boards.

Activity 1.3: Integrate research results into education and training⁶⁸

Overview

CEPOL Research activities will continue to contribute by providing empirical evidence and supporting law enforcement education through the following activities:

- Identification and promulgation of the relevant research among the law enforcement community;
- Providing access to scientific e-journals and e-books;
- Maintaining cooperation with the network of CEPOL Research & Science Correspondents from Member States.

Goal 2: CEPOL will further develop, support and implement training activities for the Law Enforcement Officials of the EU and, where applicable, of third countries with particular emphasis on fundamental rights and crime prevention⁷¹

Overview

Based on the EU-STNA priorities⁷² which is entirely reflected in CEPOL's thematic areas, and while putting particular emphasis on fundamental rights, CEPOL will deliver comprehensive training portfolios responding to the security threats of the Union, in particular in the following areas (corresponding to Activities of Goal 2):

1. Serious and Organised Crime
2. Cyber-related Crime
3. Counterterrorism
4. Fundamental Rights
5. Law Enforcement cooperation, information exchange and interoperability⁷³
6. Leadership and other skills
7. Higher Education and Research
8. Public Order and Prevention
9. LE Technologies, Forensics and Other Specific Areas
10. Union Missions (CSDP)

Training actions will be carried out in close cooperation with partner EU agencies and networks such as Europol, Frontex, Eurojust⁷⁴, EJTN, EMCDDA⁷⁵, EUIPO, eu-LISA⁷⁶, EASO⁷⁷, FRA, EUCTN etc. Cooperation will be particularly strong in the area of serious organised crime and related training and learning actions will be fully embedded into the EMPACT mechanism.

Europol-CEPOL collaboration is particularly noteworthy in the delivery of training activities under Goal 2. Europol provided experts to more than half of CEPOL on-site activities in 2019 and though the scale of cooperation in 2020 was smaller due to the interruption of business by COVID-19 pandemic, it can be stated

⁷¹ Fundamental rights, and where relevant crime prevention will be addressed in all our thematic trainings, and are therefore included horizontally in all the training activities that CEPOL implements.

⁷² Current list refers to the EU-STNA 2018-2021 priorities which are available on the moment when this document is being drafted. ⁷³ Formerly EU Information Systems & Interoperability

⁷⁴ Eurojust expressed a willingness to continue to facilitate the involvement of experts from judicial networks, such as European Judicial Cybercrime Network (EJCN), the European Judicial Network (EJN), the Genocide Network and the Network of experts on Joint Investigation Teams

⁷⁵ EMCDDA expressed its willingness to continue supporting CEPOL online and on-site training activities related to the drug priorities of the Policy Cycle – as resources allow

⁷⁶ Support and cooperation on IT based information exchange instruments and training of SIRENE Officers

⁷⁷ EASO expressed its interest in disseminating experience through training on access to asylum procedure, providing support in promoting the EASO-Frontex Practical Guide on Access to Procedure, and to collaborate under Activity 2.7 Training activities in the area of Higher Education and Research

that Europol was and remains a key contributor to the successful delivery of CEPOL work programmes. The annually updated and renewed Addendum to the CEPOL-Europol Agreement is the formalised vehicle of official cooperation, which includes the concluded list of the joint courses other dimensions of the excellent Europol-CEPOL cooperation.

While serious organised crime and terrorism remains prioritised, CEPOL, based on OTNA outcomes, will address the law enforcement community with the increase or maintenance of training portfolio in the following aspects:

- Increase joint activities among law enforcement sectors including customs, as well as prosecutors and judiciary. In the latter case in close cooperation with EJTN and Eurojust, and a possible future cooperation with the recently established EPPO
- European leadership development comprising of future Leaders development programme
- Law enforcement specific language skills development - English

CEPOL will address training needs of law enforcement official via:

- On-site training activities;
- Online training activities and resources;
- CEPOL exchange programme

In addition to training and engaging LE officials, CEPOL – given resource availability – is open to best practice sharing about its services, especially about exchange programme with other JHA agencies envisaging a specialised exchange program (e.g. EASO's pilot mobility programme for asylum officials).

CEPOL will also continue capacity building projects in Third countries with four projects that have been started in 2020.

Activity 2.1 Training activities in the area of Serious and Organised Crime⁷⁸

Overview

CEPOL in in close partnership with EU bodies and EU law enforcement authorities will provide actual, knowledge based and practically oriented training portfolio on serious organised crime address the challenges stemming from contemporary criminal threats. Having in mind the permanently evolving nature of organised crime CEPOL shall remain active participant in the EMPACT mechanism identifying actual training needs and closing law enforcement performance gaps via the provision if international training. Sharing knowledge on criminal patterns, modern intelligence and investigative methods, effective application of EU cooperation tools and contributing to the build-up of law enforcement networks shall be essential elements of all serious organised crime related learning actions. International trainings carried out on the fields of facilitated illegal immigration⁷⁹, trafficking in human beings, criminal finances and drugs trafficking shall be based on the outcome of multiannual Operational Trainings Needs Analysis (OTNA).

Activity 2.2 Training activities in the area of Cyber-related Crime⁸²

Overview

CEPOL will continue to address cybercrime challenges in the areas of cyber-attacks, child sexual exploitation and non-cash payment fraud in strong collaboration with specialised cybercrime knowledge hubs and centres, such as EC3, ECTEG, ENISA and Interpol. The CEPOL Cybercrime Academy infrastructure, knowledge base and operational training capacity will be enhanced via innovative solutions. More numerous and varied blended learning solutions will be provided to prepare the EU law enforcement community for digital challenges. Fundamental Rights will be addressed as a horizontal topic where it concerns this field.

CEPOL completed a dedicated Cybercrime Training Needs Analysis on Cyber-attacks against information systems in 2019. The results are multiannual, forward looking for a 3 year cycle (2020-2022). The next TNA is due to be completed in 2022, to be launched in 2021 together with CCA experts and members of the Training Governance Model.

New developments

Delivery of relevant further volume of cybercrime related services, especially on Child Sexual Exploitation Online proposed from 2022 onwards

CEPOL strongly recommends to further enlarge its services and products to more adequately address a significant training demand in the area of cybercrime. This will help close the already identified gap of 3500 general criminal investigators in the EU MS⁸³ as well as gaps in training with regard to the other profiles of law enforcement officials as identified by the Competence Framework and recognised by Member States and the European Commission. In line with the latest EU Strategy for a More Effective Fight against Child Sexual Abuse⁸⁴ CEPOL will provide from its perspective the framework for developing a comprehensive response to these crimes, especially in online form, to strengthen law enforcement response on EU level. The agency will focus on the relevant training aspects of this response with the aim to increase the number of police officers trained on the topics defined by the strategy. CEPOL will hence expand its training services and products to better address needs of the Member States cybercrime community.

Expected growth in number of participants in 2022 would be +270 onsite, and +1500 online in addition to participants planned for 2021.

Activity 2.4 Training activities in the area of Fundamental Rights⁸⁸

Overview

The full respect of fundamental rights will be embraced across the entire training portfolio of CEPOL. Additionally, dedicated training activities will focus on ensuring a high level of integrity and police ethics in daily law enforcement practice, strengthening ethical leadership in LE authorities, addressing issues concerning policing in diverse societies and paying particular attention to different forms of discrimination and racism among LE. Fighting hate crime⁸⁹ and hate speech, protection of victims' rights and vulnerable groups, with a particular focus on victims of hate crime, terrorist attacks and domestic violence, shall also remain priority subjects. In addition, reporting and recording of Hate Crime are issues to be addressed as a horizontal topics in the context of Public Order (see chapter 2.9) and in Hate Crime training activities. It shall be noted that FRA and EIGE serve as CEPOL' key partner agencies when delivering this Activity.⁹⁰

Expert Group on Fundamental Rights

Fundamental Rights are one of the core values of the European Union. CEPOL has always ensured that training on Fundamental Rights for law enforcement receives proper attention and features high on the CEPOL agenda. The European Commission recently has issued several EU Strategies and Action Plans on Fundamental Rights, including Hate Crime, Racism, Victims' Rights and Child Protection. Noting this as well as recognising the need to step up efforts in the area of Fundamental Rights, CEPOL will establish an Expert Group on Fundamental Rights to address this topic.

Activity 2.5 Training activities in the area of Law enforcement cooperation, information exchange and interoperability^{92 93}

Overview

International law enforcement cooperation and EU information exchange will remain in the focus of the CEPOL training portfolio in order to strengthen the fight against cross-border crime. In cooperation with the European Commission and eu-LISA, specialised activities concerning SIS, SIRENE and Schengen evaluation will be provided. CEPOL, in partnership with eu-LISA and Frontex, will deepen key EU police personnel knowledge on interoperability tools and instruments via on-site and online learning solutions. Other resources of the JHA policy area will also be used when delivering the training portfolio of this area.⁹⁴

Activity 2.6 Training activities in the area of Leadership and other skills⁹⁵

Overview

CEPOL leadership training activities will concentrate on selected talents of the EU police community to develop further their personal skills and competencies to manage law enforcement structures in a global environment. The dedicated programme for future leaders shall strengthen their network in order to facilitate the fight against crime on EU level, and language training will support law enforcement officials to enhance cross-border cooperation in this context. Furthermore, a focus is put on training design and implementation following Bloom's Taxonomy and the principles of adult education, both for international training as well as specifically for CEPOL training. Among other products, CEPOL will provide Moodle training package on the design of online courses for internal and external stakeholders (activity managers), as well Certification on e-learning management for law enforcement experts (stakeholders responsible for design and development of online training activities in LMS and implementation of those).

Activity 2.11 Prepare, design, implement and follow-up capacity building projects in Third Countries¹⁰¹

CEPOL will further operationalise the working arrangement with the countries covered by EU neighbourhood policies.

Complying with the relevant policies¹⁰² of the European Union, CEPOL will continue to pursue the goal of contributing to law enforcement capacity building efforts in third countries by training means, applying its tested-and-tried methodologies. It shall serve to transfer EU know-how in the target countries and bring back first-hand experience in return, support building networks of law enforcement specialist and foster development of training partnerships. In respect to the already targeted regions, such as the Western Balkan and the Middle East and North Africa, CEPOL shall support sustainability of previous achievement and deepen partnership moving towards institutionalised cooperation where it applicable.

CEPOL will pursue its efforts in third countries of particular EU policy importance with the continuous support of other JHA agencies, such as Europol and Eurojust¹⁰³. Possible future collaboration with other JHA agencies – like EASO¹⁰⁴ and EMCDDA¹⁰⁵ – will also be sought continuously by CEPOL.

Overview

Based on European Commission financing decisions, CEPOL's Executive Director signed a Delegation Agreement on the EU/MENA Counterterrorism Training Partnership 2 (CEPOL CT2) project with the European Commission Service for Foreign Policy Instruments (FPI) and a Grant Agreement on the Financial Investigation in Service Training Programme, Western Balkan (CEPOL FI) project with Directorate-General of Neighbourhood and Enlargement Negotiation (DG NEAR) on 21 December 2017. CEPOL concluded these projects successfully in 2020. These projects were supported by other JHA agencies substantially: Europol provided experts for 8 training activities and organised study visits to Europol and to partner countries during the CEPOL FI project.

During the past years CEPOL has been engaged in dialogues with respective Commission Services concerning the implementation of projects in the European Southern and Eastern Neighbourhood Policy areas, and the Western Balkans.

As a result of this, CEPOL will implement the project “Enhancing Information Exchange and Criminal Justice Responses to Terrorism in the Middle East and North Africa” (CT INFLOW) with a budget of EUR 7,500,000 and a duration of 48 months, starting as of 1 April 2020. The specific objective is to support partner countries in Africa and the Middle East (and possibly other countries and international organisations, such as AFRIPOL, League of Arab States if funding allows) in line with the EU political dialogues to improve the best practices for the exchange of information, cross-border investigations and prosecutions, in particular

¹⁰¹ Legal basis: [Regulation \(EU\) 2015/2219](#) of the EP and of the Council on the European Union Agency for Law Enforcement Training (CEPOL) [...], Art. 3(1), 4(3), 4(4), 34

¹⁰² Currently: European Agenda on Security, European Global Strategy

¹⁰³ Eurojust express willingness to contribute to CEPOL capacity building projects' training activities in specific crime areas (migrant smuggling, criminal finances, cyber-related crime and counterterrorism) in geographical areas of concern (Western Balkans, MENA). CEPOL shall communicate the details of these courses in advance to Eurojust, and such contribution is preceded by a case-by-case assessment, and is contingent upon available resources.

¹⁰⁴ EASO offered potential support from big data perspectives, as well as the exploration of further synergies within the Agencies Network Scientific Advice (EU-ANSA)

¹⁰⁵ EMCDDA is more and more involved in capacity building projects – such as EU for Monitoring Drugs (EU4MD) in European Neighbourhood Policy (ENP) East and South partner countries, thus EMCDDA expressed an interest to investigate joint training initiatives in these countries

of foreign terrorist fighters and individuals suspected of planning or carrying out terrorist offences. The project is funded by the European Union under the Instrument contributing to Stability and Peace (IcSP).

A second project is EUROMED Police with a budget of EUR 7,000,000 and a duration of 48 months, shall be implemented as of on 1 April 2020. The specific objectives are: a) to enhance the operational capacities of the South Partner Countries (SPC) to fight serious and organized crime, b) to strengthen strategic cooperation between national law enforcement authorities in SPC, as well as between SPC and EU MS and EU Agencies. The project is funded by European Union under the European Neighbourhood Instrument (ENI).

A third project entitled Training and Operational Partnership against Organised Crime (TOPCOP), covering the six jurisdictions of the Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine), shall be implemented by the Agency starting on 1 July 2020. This project is funded by the European Neighbourhood Instrument and managed by DG NEAR, and aims at assisting partner countries meet their European partnership objectives in the relevant sector. The implementation period is 48 months. The envisaged budget is EUR 6,000,000.

A fourth project is Western Balkans Project against Crime and Terrorism (WB PaCT), funded by the Instrument of Pre-Accession II managed by DG NEAR, covering six jurisdictions of the Western Balkans region: Albania, Bosnia and Hercegovina, Kosovo*, Montenegro, North Macedonia and Serbia. The implementation period is 36 months, with a starting date of 16 October 2020 and a budget of EUR 3,000,000.

These projects will implemented with the support from and contribution of the Commission services, but also of other JHA agencies, in particular that of Europol:

- EUROMED Police: development of a regional threat assessment and ad hoc assistance under component 2, focusing on the fine-tuning of the Euromed Threat Assessment with the National Coordinators – with existing Europol staff and 1 additional staff member at Europol financed from CEPOL project budget;
- TOPCOP: under component 1 providing expertise on threat analysis to enhance the capacities of the authorities of partner countries to fight SOC (esp. building up law enforcement and threat analysis capacities) and under component 2 strengthen the strategic and operational cooperation between national and EU authorities/agencies (with a dedicated fund for financial support) and direct support provide with 1 additional staff member at Europol financed from CEPOL project budget
- WB PaCT: direct support with 1 additional staff member at Europol financed from CEPOL project budget.

Project funding and details related to the implementation – such as type and list of activities, results (expected outcomes), outputs and detailed KPIs – fall under the remit of the respective Grant, Delegation or Contribution Agreements and are defined therein. The list of Objectives under this Activity is therefore identical to the list of confirmed projects.

Goal 3: CEPOL will be an efficient organisation promoting continuous improvement in order to meet stakeholders' satisfaction and regulatory requirements

Activity 3.1 Governance, Administration and Stakeholder Relations¹⁰⁶

Overview

In 2022 horizontal and support activities will – as is to be expected – fully support operational activities in all aspects. In order to be able to do so at a qualitative and quantitative level similar to the expected operational output, it will be necessary to significantly increase the resources allocated. Both human resources (at qualitative and quantitative level: more posts at higher grades) and financial resources (to cover additional staff costs and additional costs in running the organisation, especially ICT) will have to be increased.

Between 2018-2020 there have been several meetings with Hungarian authorities on new CEPOL premises. Despite the understanding from the Hungarian authorities on the fact that CEPOL has reached the limits of the use of its headquarters, there has been no progress made on the identification of a suitable building (project) for CEPOL to move to in the near to mid-term future.

Annex III: Financial Resources 2022-2024

As the Financial Investigation In-Service Training Programme, Western Balkan (CEPOL FI) and EU/MENA Counterterrorism Training Partnership 2 (CEPOL CT2) projects concluded in 2020, during the past years CEPOL has been engaged in dialogues with respective Commission Services concerning the implementation of new projects in the European Southern and Eastern Neighbourhood Policy areas, and the Western Balkans, financed by Contribution Agreements.

As a result of this, CEPOL will implement the project “Enhancing Information Exchange and Criminal Justice Responses to Terrorism in the Middle East and North Africa” (CT INFLOW) with a budget of EUR 7.500.000 and a duration of 48 months, starting as of 1 April 2020. The specific objective is to support partner countries in Africa and the Middle East (and possibly other countries and international organisations, such as AFRIPOL, League of Arab States if funding allows) in line with the EU political dialogues to improve the best practices for the exchange of information, cross-border investigations and prosecutions, in particular of foreign terrorist fighters and individuals suspected of planning or carrying out terrorist offences. The project is funded by the European Union under the Instrument contributing to Stability and Peace (IcSP).

A second project is EUROMED Police with a budget of EUR 7,000,000 and a duration of 48 months, shall be implemented as of on 1 April 2020. The specific objectives are: a) to enhance the operational capacities of the South Partner Countries (SPC) to fight serious and organized crime, b) to strengthen strategic cooperation between national law enforcement authorities in SPC, as well as between SPC and EU MS and EU Agencies. The project is funded by European Union under the European Neighbourhood Instrument (ENI).

A third project entitled Training and Operational Partnership against Organised Crime (TOPCOP), covering the six jurisdictions of the Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine), shall be implemented by the Agency starting on 1 July 2020. This project is funded by the European Neighbourhood Instrument and managed by DG NEAR, and aims at assisting partner countries meet their European partnership objectives in the relevant sector. The implementation period is 48 months. The envisaged budget is EUR 6,000,000.

A fourth project is Western Balkans Project against Crime and Terrorism (WB PaCT), funded by the Instrument of Pre-Accession II managed by DG NEAR, covering six jurisdictions of the Western Balkans region: Albania, Bosnia and Hercegovina, Kosovo*, Montenegro, North Macedonia and Serbia. The implementation period is 36 months, with a starting date of 16 October 2020 and a budget of EUR 3,000,000.

Procurement envelope for 2022 to be added at a later stage.

Descriptive information and justification on:

- Budget outturn: EUR 212 578
- Cancellation of commitment appropriations: EUR 9 252
- Cancellation of payment appropriations for the year and payment appropriations carried over: CEPOL has non-differentiated appropriations, therefore the cancellation of commitment and payment appropriation represents the same value. Carry over of payment appropriations was EUR 985 306.

A. Recruitment policy

CEPOL will update its Recruitment Guide (in force since February 2017¹⁴⁷) to ensure alignment with the newly adopted model decision on the engagement of Contract Agents under article 3(a) of the Staff Regulations (CA3a). This Implementing Rules contains – similar to the Implementing Rules on engagement of Temporary Agents under article 2(f) of the Staff Regulations (TA2f) – an annex outlining the framework for recruitment of CAs.

B. Appraisal and reclassification / promotions

Each member of the CEPOL staff has an agreed individual activity plan, which is drawn up at the beginning of the year laying down the objectives and the indicators of the staff member in relation to the Work Programme. An individual's appraisal is then scheduled according to their start date and end of probation for bi-annual review on the basis of the performance indicators of the activity plan.

E. Schooling

No agreement is in place with a European School.

¹⁶² Only including statutory staff & SNEs financed from CEPOL budget (i.e. excluding external staff of project activities financed externally)

As per Art. 12(8) of the Headquarters Agreement¹⁶³, Hungary shall cooperate with CEPOL to establish schooling facilities for children of the statutory staff similar to the European Schools. Nevertheless, currently there is no European School in Budapest or at a reasonable distance from Budapest. Also, there is no European section in a national school. Based on the current information, this situation is not foreseen to change in the coming years.

Contribution agreements signed with the EC on type I European schools	Yes		No	x
Contribution agreements signed with the EC on type II European schools	Yes		No	x
Number of service contracts in place with international schools:	0			

Description of any other solutions or actions in place:

This would lead to the situation where staff members of CEPOL are disadvantaged for not being able to avail their children with education in their mother tongue compared to staff members of other EU institutions and bodies where there is a European school close to their place of employment.

It would also be extremely difficult to promote geographical balance among the staff of the agency if there would not be a facility to provide schooling of the children of staff in a different language than Hungarian.

Based on these considerations, the CEPOL Management Board decided that CEPOL shall pay the school fees. As a consequence, the school shall be considered as non-fee paying and the staff member concerned shall not receive the education allowance provided for in Article 3 of Annex VII of the Staff Regulations. The costs covered by CEPOL shall be:

- The registration and attendance fees
- The transportation costs.

All other costs are excluded, in conformity with Commission decision C(2004)131-53-2004 on general implementing provisions for the grant of the education allowance.

Annex VI: Environment management

The revised SPD guidelines¹⁶⁴ require Agencies to compile a document on Environment management. To demonstrate this, **CEPOL summarised its measures already in place, high-level commitments and planned environment management initiatives & actions** – taking in consideration the responsibilities of the Agency as a public administration body, but also keeping in mind the impact of environmental initiatives on the Agency's already limited human and financial resources.

CEPOL's environment management achievements

CEPOL is committed to fulfil its obligations in and undertake efforts to **the protection of its natural and social environment**, and – as its resources allow – proactively advance towards sustainability.

As of October 2020, **CEPOL already has in place various successful, environment-focused measures:**

1. Printers are by default set to two-sided printing and are in eco (power-saving) mode when unused;
2. Stringent computer power & sleep settings are set (screen off after 5-10 min, sleep after 15-30 min);
3. Collection of used batteries is made possible through a designated container in line with the Hungarian regulations¹⁶⁵;
4. Several processes were converted into being mostly or fully paperless/electronic, thus reducing paper consumption & waste generation:
 - e-Procurement submission system for open procedures and e-Tendering,
 - e-Recruitment,
 - e-HR management,
 - e-Invoicing,
 - electronic travel booking;
5. Calls for procurement tenders of relevant goods and services include “Environmental and social contribution” among the technical evaluation criteria (e.g. decommissioned furniture disposal/re-use, recycling policy, donations);
6. Corridor and restroom lights are equipped with motion sensors and timers, therefore they do not consume electricity when not in use;
7. Equipment and software for online training activities, online conferences and webinars have been widely introduced and installed to encourage virtual conferences to reduce travel need (in 2019 1 in every 2 training activity was provided online);
8. Security is asked to check and address lights kept on, irregularly set heating and cooling and doors/windows left open during winter in offices after working hours;
9. CEPOL staff is encouraged to commute to work via public transport or cycling – a private bicycle parking space have been designated with bike pump and adjacent changing facilities and showers;
10. CEPOL Headquarters was renovated and remodelled by the host Member State with the view to ensure the highest possible energy efficiency (e.g. insulation, new doors and windows, state-of-the-art building engineering, machinery, heating and cooling devices);

Nevertheless, it needs to be added that **CEPOL has a somewhat limited leverage** on many of the environment-related issues due various reasons:

1. CEPOL Headquarters building was put at the disposal of CEPOL free of any charges by the host Member State (see Annex VII: Building policy): the premises are owned by the Hungarian State. Hungary also covers utility fees, maintenance of the building, security and reception services. As a consequence, CEPOL does not directly employ maintenance, facility management and security personnel, and all environmental management issues related to building & facility operations are beyond the control of CEPOL. Nevertheless – as explained above & below – CEPOL has taken and will take all necessary steps in cooperation with the host authorities to ensure that the CEPOL building is cost-effective and eco-friendly.

¹⁶⁴ [Communication C\(2020\) 2297 final](#) of 20.4.2020 on the strengthening of the governance of Union Bodies under Article 70 of the Financial Regulation 2018/1046 and on the guidelines for the SPD and the CAAR

¹⁶⁵ [445/2012. \(XII. 29.\) Korm. rendelet](#) az elem- és akkumulátorhulladékkal kapcsolatos hulladékgazdálkodási tevékenységekről, 20.§

2. Other buildings used by CEPOL are either similarly managed by the host Member State, or are rented office space in office buildings – where the environment management responsibilities and tasks lie with the property owner or manager.
3. By their very nature, CEPOL core business activities (training of law enforcement officials) have direct environmental impact:
 - As of 2020, the vast majority of CEPOL training services are provided via e-learning – exacerbated further by the COVID-19 events;
 - Around half of on-site activities (as planned for 2021) are hosted by institutions of the Member States (Framework Partners, via grant agreements) – without the involvement of CEPOL physical facilities;
 - CEPOL only acts as a manager and facilitator of CEP exchanges – while exchanges take place physically in Member States' relevant law enforcement bodies.
4. CEPOL is one of the smallest EU agencies with 33 establishment plan (TA) posts & 26 external staff (CA/SNE), close to 12 interims and €10.6M budget as of 2021, therefore the impact of administrative operations is marginal, and at the same time, the Agency lacks disposable human and financial resources to implement environment-related initiatives.

Pledge to UN SDGs

On the highest level, **CEPOL pledges to respect and act upon the** United Nation's [2030 Agenda for Sustainable Development](#), and the **17 Sustainable Development Goals (SDGs)** therein:

Materiality assessment

CEPOL launched a materiality assessment¹⁶⁶ based on a customised version of the widely used Five Capitals Model for sustainability¹⁶⁷, with the aim to map the organisation better, engage stakeholders, identify opportunities and risks, and in the long term enable CEPOL to take into account sustainability in its planning and reporting.

¹⁶⁶ A prioritisation of sustainability-related topics based on sustainability reports of [EIB \(2018\)](#) and [EUIPO \(2016\)](#), who develop their reports in accordance with GRI Standards on Sustainability Reporting

¹⁶⁷ Developed by Forum for the Future in the 1990s, see: <https://www.forumforthefuture.org/the-five-capitals>

Sustainability issue areas (capitals) were collectively evaluated on two scales: impact on CEPOL (internal dimension) and impact on stakeholders (external dimension).

As a first step, CEPOL management internally assessed the impact of the 5 issue areas (capitals), with the ambition to have this this initial assessment refined twofold in the future:

- Identify and define 3-5 concrete sustainability issues (topics) per issue areas (capitals) for assessment, e.g. for Human – staff engagement, diversity;
- Launch internal (staff) and external stakeholder surveys to evaluate these issues along the two scales.

Based on this exercise, environment issue area ranked the lowest along both the internal and external dimensions. This correlates with the fact that CEPOL operations are either environment-neutral or their management is largely beyond CEPOL's control.

Environmental impacts of CEPOL activities

CEPOL activities have direct and indirect impacts on the environment. CEPOL's impact on the environment fall under the following categories:

- Use of electricity, energy for heating and cooling, water, paper and stationery;
- Generation of waste and CO₂ emissions from travel.

CEPOL does not need to consider on land use with regards to biodiversity as the premises has no urban green space, nor accessible rooftop to be considered for significant improvement of its biodiversity (as per the EMAS regulation¹⁶⁸).

CEPOL occasionally evaluates its activities in order to optimise and improve environmental outputs, while limiting the use of resources and minimising negative impacts on the environment.

Environment management initiatives and planned actions for 2022-2024

1. Green public procurement

Calls for procurement tenders of relevant goods and services include "Environmental and social contribution" among the technical evaluation criteria (e.g. decommissioned furniture disposal/re-use, recycling policy, donations).

CEPOL plans to further improve its procurement by implementing green public procurement by the end of 2022, provided that sufficient (human and financial) resources are allocated for this purpose.

Specific, robust environmental criteria and "environmental considerations" shall continue to be included in the calls for procurement tenders of relevant goods, and services. Tenderers will have to comply with these criteria and considerations to qualify for a contract. It is planned to become a standard CEPOL practice to build environmental considerations into procurement for relevant goods and services.

Details of the green public procurement will be finalised by the Procurement Sector.

2. Carbon footprint management of travel

Besides staff missions, CEPOL arranges travels for participants and experts of training activities, including on-site activities and exchanges. This amounted to over 3,000 travels in 2019. It must be noted, however, that as a consequence of COVID-19 staff missions abroad and travels related to training activities highly decreased.

CEPOL plans to compile regular reports on travel-related emissions starting from 2021.

CEPOL plans to amend its travel policy to encourage environmentally friendlier itineraries by the end of 2021.

CEPOL will further investigate the possibility to display in Symphony tool information on each travel option's carbon footprint.

CEPOL will further investigate the introduction of a carbon dioxide offsetting scheme.

Emissions related to travel of training participants, experts and CEPOL staff (missions) will be reported by CEPOL's travel agent supplier / partner, on a regular basis (preferably quarterly). The amount of CO₂

¹⁶⁸ [Commission Regulation \(EU\) 2018/2026](#) of 19 December 2018 amending Annex IV to Regulation (EC) No 1221/2009 on EMAS
Page 109 of 139

emission then can be monetised using emission calculators. This information will be reported in this Annex during the annual revision.¹⁶⁹

CEPOL Travel Team will encourage – by amending its travel policy and by the choice of their route recommendations – training participants and CEPOL staff to select air travel options with smaller carbon footprint (e.g. more direct flight routes, less connections) and train transportation where convenient connections are available. In addition, travel policy and related internal communications will repeatedly emphasise to CEPOL staff that online meeting forms should be preferred and picked over travel intensive face-to-face meetings whenever feasible and expedient.

CEPOL has already contacted its travel agent partner about a possibility to display information on each suggested travel itinerary's carbon footprint in its online booking system, Symphony. Due to COVID-19, the development of such a feature in Symphony has been put on hold by the partner company, but might resume in the future. With this information staff members booking for themselves and Travel Team booking for training participants will have a better understanding of different travel options' carbon dioxide implications and will be able to take this information into consideration when choosing itinerary. CEPOL will remain in negotiations with the travel agent partner about this feature and include further information in this Annex about the feasibility and scheduling as soon as possible.

Pending economic/financial feasibility and human resource capacity, a CEPOL will explore the possibility of introducing a carbon dioxide offsetting scheme and CEPOL will strive for limiting the carbon footprint of its training-related travels and missions. As of Q4 2020, CEPOL's travel agent partner has put on hold negotiations with CO₂ offsetting scheme providers due to COVID-19, but the project might resume in the future when CEPOL intends to continue discussions on the feasibility and details. The carbon offsetting scheme is foreseen to be managed by the CEPOL's travel agent partner, and the offsets are used to support environment protection initiatives. Certifications are to be issued periodically to confirm the offsetting of emissions.

Details of the carbon footprint management will be handled by the Travel and Logistics Sector.

3. Further reduction of paper consumption

CEPOL plans to implement new IT tools to supplant paper-based workflows by the end of 2022.

CEPOL plans to further reduce the printouts of publications, as well as move towards a print on demand approach by the end of 2021.

CEPOL plans to introduce eco-friendly / partially recycled A4 printing paper as a default printing medium in 2021.

CEPOL plans to add a printing disclaimer to email signatures in 2020.

CEPOL will advance further digitalisation of the Agency, including the replacement of paper-based processes with electronic workflows – in cooperation with DG DIGIT – such as:

- Speedwell: web-based electronic workflow for payments (interface with ABAC)
- Bluebell: budgetary planning and monitoring tool and electronic workflow (interface with ABAC)
- Ares: document management and archiving system
- New SYSPER module(s): HR & travel management system
- Microsoft Office 365

CEPOL will continue to regularly revise the list of documents that are to be printed, and also continue to reduce the number of printed (paper-based) publications through close management of the communication

¹⁶⁹ Tickets for low-cost airlines are not booked via Amadeus, consequently emission data related to bookings made via airline homepages will likely not be reported.

& publication plan. CEPOL will increase the use of print on demand of its publications/materials and web publishing.

CEPOL will start to procure eco-friendly / partially recycled A4 printing paper as part of its office supplies contract, which is planned to feed in the copy machines default paper tray. Consequently – unless selected otherwise by the user – default printing tasks will be printed on eco-friendly A4 printing paper.

CEPOL will include a disclaimer in the email signatures to warn against printing: “Think before you print”.

CEPOL will raise awareness among its staff to on further possibilities of moving towards paperless office.

Details of the digitalisation initiatives are to be managed by the Corporate Services Department, while the revision of paper-based publications will be done by the Communications Team.

4. Waste sorting and recycling

CEPOL plans to implement selective recycling and procure the necessary equipment starting in 2021.

CEPOL plans to replace / phase out additional waste generating arrangements, such as plastic cups at water dispensers and glass-bottled water starting in 2021.

CEPOL will negotiate with the host Member State authorities (NOK-ITC) and the cleaning staff provided by them to enable the implementation of a fully selective waste collection – in line with the possibilities of municipal waste management arrangements of Budapest.

CEPOL will procure and distribute appropriate recycling bins (containers for selective garbage collecting) for (1) plastic/aluminium and (2) paper waste in CEPOL Headquarters building, to be placed on the corridors.

CEPOL will – upon the possibility of contract amendment or renewal – revise practices that lead to an excess generation of plastic or glass waste: plastic cups provided at the water dispensers to be replaced to paper / degradable cups, non-recyclable glass bottled water provided at training activities at meetings to be replaced by paper, degradable or reusable cups.

CEPOL will raise awareness among its staff about recycling rules and these new recycling arrangements.

Details of the recycling will be finalised by the Corporate Services Department.

5. Consumption of resources (utilities)

CEPOL plans to obtain and analyse information related to the consumption of electricity, gas and water starting in 2021.

CEPOL will negotiate with the host Member State authorities (NOK-ITC) and the facility management staff provided by them on the feasibility obtaining basic consumption information of the main public utilities (electricity, gas and water) consumption in CEPOL Headquarters building. Based on this information, CEPOL will analyse consumption patterns to identify any possible areas of intervention.

Information on electricity, gas and water consumption will be included in this Annex during the annual revision.

Details of information related to consumption of resources will be finalised by the Corporate Services Department.

6. Reduction of carbon footprint related to staff commuting

CEPOL will further investigate possibilities to reduce carbon footprint as a consequence of commuting.

In 2021 CEPOL will further investigate the means to encourage the reduction of car-based commuting of its staff. The overarching objective is to reduce carbon emissions caused by staff commuting, which may be achieved by various means – such as the use of public transport, steps to encourage the use of e-scooters, bicycles, car sharing and electronic cars.

CEPOL will analyse analogous schemes at EIT, Commission and Frontex and evaluate the feasibility of providing public transport passes to staff (or retrospectively reimbursing staff for these passes) to further encourage staff to use public transport and thereby reduce their carbon footprint.

Details of information related to consumption of resources will be finalised by the Corporate Services Department.

Building projects in planning phase

As the CEPOL staff numbers (including staff contracted for projects granted to CEPOL, interim staff as well as staff made available by the Hungarian authorities, such as receptionists, security, building maintenance and cleaning) has surpassed the maximum as originally foreseen for the building. Initial discussions with the Hungarian authorities on possible measures to increase the capacity of the building were initiated at the end of 2017, and continued in 2018 and 2019.

In 2018, CEPOL has rented office space close to its Headquarters to accommodate (operational) staff related to the externally financed projects. The expenditure related to the rental is entirely financed through the projects, which are sharing the costs proportionally.

As from 2019 our Hungarian partner (the International Training Centre of the Hungarian Police, NOK-ITC) has made available space for the CEPOL Cybercrime Academy (CCA). This space contains 1 to 4 classrooms and a server room. The space is made available for free, based on a MoU between the NOK-ITC and CEPOL.

CEPOL is also renting an office in Brussels for the liaison bureau as a pilot project.

Building projects submitted to the European Parliament and the Council

CEPOL Management has set up a channel of communication with the Hungarian authorities to investigate the possibilities for a new headquarters with additional functionalities and capacity compared to the current building.

At this moment it is not possible to quantify if and how much of a financial contribution from CEPOL's own budget would be necessary for the realisation of any of the offers currently on the table or possible other options that have not yet been discussed.

Annex VIII: Privileges and immunities

CEPOL's privileges and immunities are regulated by the Headquarters Agreement between the Government of Hungary and the European Police College (CEPOL) of 18 August 2014¹⁷², in particular Articles 5-18.

Agency privileges	Privileges granted to staff	
	Protocol of privileges and immunities / diplomatic status	Education / day care
<p>The premises and building of CEPOL are be inviolable, exempt from search, requisition, confiscation or expropriation or any form of seizure. The property and assets are not subject of any administrative or legal measure of constraint without the authorisation of the CJEU. The archives and all official documents are inviolable. (Art. 5)</p> <p>CEPOL, its assets, revenues and other property, shall be exempt from all direct national, regional or municipal taxes. This applies not only to property and assets owned by the Agency, but also to property and assets that are rented by the Agency or otherwise made available to it. CEPOL is be exempt from excise duties, sales charges, and other indirect taxes when it is making purchases for official use of movable and immovable property or services on which such duties or taxes are normally chargeable. Exemption (incl. for the incurred VAT) is provided by tax refund, similarly to diplomatic missions. CEPOL is exempt from all customs duties, prohibitions and restrictions on imports and exports in respect of articles intended for its official use. (Art. 6)</p> <p>CEPOL is entitled to display its flag & emblem, flags of the EU, Hungary and Budapest on its premises and vehicles. Annex IX: Evaluations

Internal monitoring and evaluation system

Key Performance Indicators (KPIs) are used to evaluate the overall and long-term success of CEPOL, (performance) Indicators are in place to evaluate the success of a particular objectives of an activity in which CEPOL is engaged. These indicators were devised in accordance with the revised SPD guidelines developed by the European Commission¹⁷⁴, and are defined on two hierarchical levels:

- Multiannual, called Key Performance Indicators (KPIs) – in Section II – Multiannual Programming 2022-2024
- Annual, called Indicators – in Section III – Work Programme 2022

All KPIs and Indicators are assigned guideline-compliant targets, source of the data is indicated and they are linked to the Agency's strategic goals and objectives. The most important types of indicators used for CEPOL operations are the number of [training] activities, number of participants [involved in training] and satisfaction with CEPOL training in line with Kirkpatrick's methodology

The evaluation of training activities is an essential task for CEPOL to monitor and maintain the quality of training and its impact. CEPOL's evaluation system is based on the Kirkpatrick model, with a methodology specifically adapted to CEPOL's structure and environment. The methodology was last updated in 2016 and includes the following steps of Kirkpatrick's model:

- Level 1: immediately after on-site activities, webinars, and the CEPOL Exchange Programme exchanges and study visits;
- Level 2: assessment of acquired knowledge – testing – applied for selected on-site activities and online courses);
- Level 3: post-course evaluations take place after on-site activities only. Post-course evaluations are carried out on both participants and their line managers approximately six months after an on-site activity has finished.

CEPOL training evaluation methodology¹⁷⁵ presents a modernised evaluation system validating new evaluation templates and outlining the framework of the gradual introduction of testing.

External monitoring and evaluation, action plans deriving from ex-post evaluations and follow-up of recommendations

The way CEPOL operate is evaluated every five years by an independent external evaluator for its utility, relevance, effectiveness and efficiency and its working practices. The main aim of the evaluation is primarily the improvement of the quality of training.

In 2015 CEPOL underwent its second five year evaluation. The external evaluator has assessed the Agency as being efficient and effective. This conclusion is supported by evidence of an increased number of activities implemented by CEPOL over the evaluation period, against a relatively stable number of resources put at its disposal for the same period. Moreover, a comprehensive set of recommendations is also put forward by this study. The Governing Board in its meeting on May 2016 has adopted the last five-year external evaluation and has issued 17 recommendations regarding CEPOL's working practices.

The plan elaborated by the Executive Director identified 32 actions addressing all the MB's 17 recommendations.

One of the pending activities related to further development of e-net (LEEd platform) was addressed in April 2020.

¹⁷⁴ [Communication C\(2020\) 2297 final](#) of 20.4.2020 on the strengthening of the governance of Union Bodies under Article 70 of the Financial Regulation 2018/1046 and on the guidelines for the SPD and the CAAR

¹⁷⁵ [Governing Board Decision 12/2016/GB](#) of 25 May 2016

Overall, since the adoption of the action plan: 32 activities have been completed (of which 7 activities are no longer considered relevant as they have been overtaken by events and will be addressed in a broader context connected to EQF176 and further ISO certification of CEPOL services).

Having in view that EQF and further ISO certification are long term developments scheduled in the Single Programming Document (multi-annual section and work programme), further progress achieved shall be reported via regular established channels (progress report to MB and Consolidated Annual Report), therefore the related action points have been closed in the context of the 5 years evaluation action plan. Since the new CEPOL regulation (2015/2219)¹⁷⁷ came into force, the first five year evaluation and review is foreseen as per Article 32 of CEPOL regulation in 2021. This evaluation will be budgeted and carried out by the European Commission.

All CEPOL's evaluation reports are available on its website by following the link: <https://www.cepola.europa.eu/who-we-are/key-documents/evaluation-reports>

At the end of 2016, the Agency's Management System has been assessed by an independent accredited body Lloyd's Register (LRQA), and found in full compliance with the ISO 9001:2015 requirements. The Agency's Management System has been assessed by an independent accredited body Lloyd's Register (LRQA), and found in full compliance with the ISO 9001:2015 requirements.

The certificate was originally issued on 2 February 2017 and its scope was extended on 4 February 2019 to e-Learning services: "Management of the Law Enforcement Residential Activities, Exchange Programme and Online Courses, Modules and Webinars: support, develop, implement and coordinate training for law enforcement officials".

At the end on the 3 years certification cycle, CEPOL successfully passed the recertification audit in January 2020.

Following certification audit implemented in May 2019, CEPOL has been granted ISO 29993:2017 certificate for providing learning services outside formal education for on-site courses on key selected topics. The certificate is valid for 3 years and a surveillance audit is implemented every year to check that ISO requirements are maintained. This audit has been launched as a pilot project, following that the ISO 29993:2017 quality framework for training to be progressively extended to other training activities and further certification to be obtained.

Terminology¹⁷⁸

The following terms are used in the SPD – in accordance with the Commission guideline on evaluation:

Activity is a coherent area of action with objectives and resources. It is the basic building block for the structure of the annual Work Programme, distinguishing between operational activities – directly related to the mission and core tasks of the agency, and horizontal/ cross-cutting activities - carried out to support operational activities and staff. Various other terms are in use in the agencies that hold the same meaning as activity and can be used as long as it is in line with the definition of activity.

Objective describes what the agency wants to achieve either in the short or long term.

Indicator is a characteristic or attribute that is measured regularly in order to assess to what extent an objective has been met.

Baseline is the point of reference against which achievement or progress towards objectives is measured.

Milestone is an intermediate target set, expressed in quantitative or qualitative terms, measuring progress towards the achievement of long term objectives.

Target is the ultimate desired situation, quantified and timed.

Inputs are the human and financial resources used and the time required to produce outputs.

Actions are the work carried out over a certain period of time, consuming resources and producing outputs in accordance with the objectives set.

Outputs are what is directly produced or supplied through the EU/Commission/agency intervention. They often relate to the expected deliverables of the intervention and are identified based on its operational objectives.

Results are the direct effects of intervention(s) on the target groups.

Impacts are the indirect or long-term effects of an intervention on the EU or global society that are, at least partly, expected to be influenced by EU/Commission/agency's interventions.

Annex X: Strategy for the organisational management and internal control systems

Organisational management

CEPOL is headed by an Executive Director, who is accountable to the Management Board. The Management Board is made up of representatives from EU Member States¹⁷⁹ and the EU Commission. The Chair of the Management Board is a representative of one of the three Member States that have jointly prepared the Council of the European Union's 18-month programme. The Management Board meets at least two times per year. In addition, CEPOL has dedicated National Units (CNUs) in every Member State to provide information and assistance to law enforcement officials who wish to participate in CEPOL's activities. CNUs also support CEPOL's operations.

The Management Board oversees the Agency's governance, risk management and internal control practices. This happens through the use of appropriate working arrangements (progress reports, incl. reporting on performance indicators and audit recommendations, annual activity report – CAAR, internal/external audit reports, etc.) and communication channels between the Board and management of the agency.

The CEPOL internal organisational structure (Annex I: Organisation chart of the Agency for year 2022) is composed of two departments, coordinated by the Head of Operations and Head of Corporate Services respectively, and three units under the supervision of a head of unit (Head of Training and Research Unit, Head of International Cooperation, Head of Finance, Procurement and Travel).

The Executive Director – supported by managers, internal control and legal functions – oversees the internal control systems within each department/unit/function. At the level of units, all managers are accountable for the achievement of objectives, both operational and internal control, and report in accordance with the applicable reporting arrangements within the Agency. Units are primarily responsible for managing risk and controls on a day-to-day basis. This means that they execute the primary controls and take overall responsibility for the achievement of operational objectives and for the sound implementation of internal control.

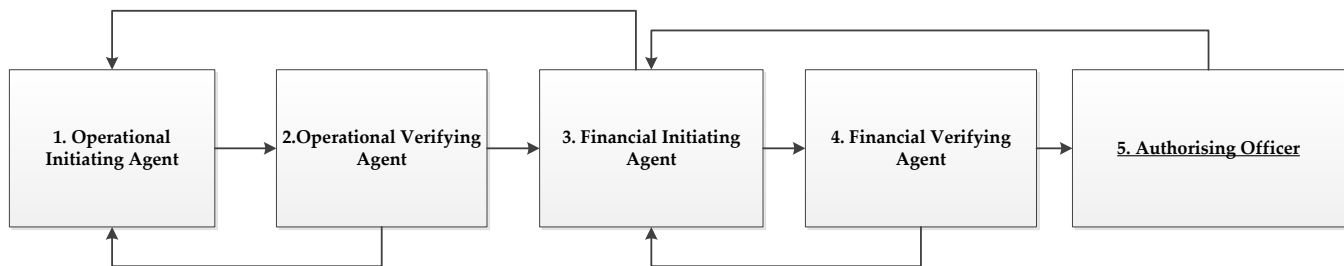

CEPOL shall implement the following documentation and practices to continuously monitor the performance of the internal control system and achievement of objectives: regular review meetings and periodical reports (e.g. Operations / Corporate Services monthly reports, Agency progress report, Consolidated Annual Activity Report, weekly/monthly budget implementation reports, individual activity reports, exception register report, risk register), as well as *ex ante* controls on financial transactions and targeted *ex post* controls.

The Executive Director of CEPOL is also the Authorising Officer. CEPOL implements delegation of authority via Executive Director's decision on financial workflow, which is kept updated on continuous basis, whenever changes occur in the staff having a role in the financial circuit.

The financial workflow implemented in CEPOL is a partially decentralised model and follows the four eyes principle. Each financial transaction needs to be verified after initiation before it is authorised, as provided in the below financial workflow chart.

¹⁷⁹ Denmark is not considered a Member State in relation to CEPOL in accordance with Protocol 22 on the position of Denmark in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU.

Financial Workflow

The implementation of *ex ante* controls (verifications in the financial circuits, exceptions recording) covering 100% of the Agency's budget, remains the primary means of ensuring sound financial management and legality and regularity of transactions.

The member of CEPOL staff responsible for verification of an operation (“verifier”), exercises *ex ante* control of each transaction by checking its legal correctness and conformity with the principle of sound financial management. The operational functions of the verification include: verification of its justifications, necessity, and conformity with the project documents, contracts, agreements and other relevant documents. The financial functions of the verification include: the verification of procedural and financial aspects of the transactions, their legal correctness and consistency.

In their capacity as Authorising Officers by Delegation, each Head of Department provides a Declaration of Assurance on the appropriate allocation of resources and their use for their intended purpose and in accordance with the principles of sound financial management, as well as on the adequacy of the control procedures in place. The declaration covers both the state of internal control in the department and the completeness and reliability of management reporting, serving to ground the Executive Director’s Declaration of Assurance provided in the context of annual activity report.

The internal control function shall also produce a statement that to the best of his/her knowledge the information on internal control systems provided in the annual activity report is accurate and exhaustive.

As provided in CEPOL’s Financial Regulation (chapter 7, art.78), CEPOL has an internal auditing function which is performed in compliance with the relevant international standards, by the Commissions’ internal auditor, represented by the Internal Audit Service (IAS).

The internal auditor advises CEPOL on dealing with risks, by issuing independent opinions on the quality of management and control systems and by issuing recommendations for improving the conditions of implementation of operations and promoting sound financial management.

By undergoing regular audits, CEPOL ensures ongoing improvement and is transparent to its stakeholders and end users. Annual audits implemented by the external auditor (European Court of Auditors), also allows the Agency to demonstrate that it has an effective internal control and management system.

CEPOL shall systematically examine the observations and recommendations issued by the internal auditor, the European Court of Auditors as well as the remarks received from the European Parliament during discharge procedure and shall take action in a timely manner, including status reporting to the relevant stakeholders via regular and annual reports.

Internal Control Framework

Article 74(2) in the EU Financial Regulation¹⁸⁰, respectively Article 44(2) of the CEPOL Financial Regulation¹⁸¹, provides that the Authorising Officer shall put in place the organisational structure and the internal control systems suited to the performance of the duties of Authorising Officer, in accordance with the minimum standards or principles adopted by the Management Board, on the basis of the Internal Control Framework laid down by the Commission for its own departments, and having due regard to the risks associated with the management environment.

In line with this requirement, the Management Board adopted Decision 26/2018/MB on the revised CEPOL's Internal Control Framework (ICF)¹⁸², which is largely based on the European Commission's framework¹⁸³.

The new ICF is based on the five internal control components: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication and (5) monitoring activities. They are the building blocks that underpin the framework's structure and support the Agency in its efforts to achieve its objectives. The five components are interrelated and must be present and effective at all levels of the organisation for internal control over operations to be considered effective.

This framework supplements the CEPOL Financial Regulation and other applicable rules and regulations with a view to align CEPOL standards to the highest international standards.

Internal control applies to all activities, irrespective of whether they are financial or non-financial. It is a process that helps an organisation to achieve its objectives and sustain operational and financial performance, respecting rules and regulations. It supports sound decision making, taking into account risks to the achievement of objectives and reducing them to acceptable levels through cost-effective controls.

The internal control framework of CEPOL is designed to provide reasonable assurance regarding the achievement of the five objectives set in the Article 30 of the Financial Regulation: "(1) effectiveness, efficiency and economy of operations; (2) reliability of reporting; (3) safeguarding of assets and information; (4) prevention, detection, correction and follow-up of fraud and irregularities, and (5) adequate management of the risks relating to the legality and regularity of the underlying transactions, taking into account the multiannual character of programmes as well as the nature of the payments concerned".

CEPOL does not have a dedicated managerial position in charge of risk management and internal control. This is a shared management responsibility, where the Executive Director is supported by each Head of Departments (Operations and Corporate Services). At officer level, the process is assisted by the internal control and quality management function.

Internal control principle 16 states that the Agency shall carry out continuous and specific assessments to ascertain whether the internal control systems and their components are present and functioning.

Before assessing the presence and functioning of the internal control principles and components, CEPOL shall define the basis for the assessment of its internal control system.

In 2019, CEPOL defined the indicators to be used for assessing the implementation of the new ICF, based on the indicative list provided by the Commission. Targets are numerical (single value) or logical/binary (e.g. "Yes/No") for compliance indicators.

A separate assessment to ascertain whether the components of internal control are present and functioning is implemented once per year with results reported in the annual activity report.

In addition to the ICF, CEPOL is following the Quality Management System Standard ISO 9001:2015, since February 2017, when the certification has been obtained. The continuous improvement of processes and

procedures is embedded in CEPOL's Quality Management System, which is regularly scrutinised via surveillance audits by an independent auditor.

Antifraud strategy

In order to support the ethical and organisational values, CEPOL adopted and implements the following key documentation: Code of Administrative Behaviour (Decision of the Executive Director 26/2019/DIR), CEPOL's Anti-Fraud Sub-Strategy ([GB Decision 33/2017/GB](#)), Policy on Management of Conflict of Interest ([GB Decision 32/2014/GB](#)) and guidelines on whistleblowing ([MB Decision 03/2019/MB](#)).

The objective of the renewed CEPOL Anti-fraud Strategy as latest adopted by the Management Board (then Governing Board) via [GB Decision 33/2017/GB](#) is to 'Maintain a high level of ethics and fraud awareness within the Agency'. The implementation of the strategy is monitored via dedicated action plan. In this context, CEPOL schedules regular refresher training session on ethics and integrity for all staff.

MB members, staff members, SNEs, interims, shall all sign a declaration of conflict of interest. Every staff member shall produce a certificate of good conduct or lack of criminal record before taking up duty.

Risk Assessment

CEPOL's Internal Control Framework defines the risk assessment as a dynamic and iterative process for identifying and assessing risks, which could affect the achievement of objectives, and for determining how such risks should be managed.

The following principles are defined under component 2 'Risk Assessment':

- Principle 6: The Agency specifies objectives with sufficient clarity to enable the identification and assessment of risks relating to objectives
- Principle 7: The Agency identifies risks to the achievement of its objectives across the organisation and analyses risks as a basis for determining how the risks should be managed
- Principle 8: The Agency considers the potential for fraud in assessing risks to the achievement of objectives
- Principle 9: The Agency identifies and assesses changes that could significantly impact the internal control system.

Although CEPOL as a whole is generally dealing with low risks, a risk assessment is part of the annual programming cycle. A Risk Register and mitigating action are in place which are regularly monitored via management meetings.

The result of the JHA agencies peer review exercise conducted on yearly basis is also considered in the continuous risk assessment exercise.

Annex XII: Strategy for cooperation with third countries and/or international organisations (CEPOL External and Stakeholder Relations Sub-strategy)

General/policy context

CEPOL is an Agency of the European Union. Therefore, each and every activity of CEPOL needs to implement a policy of the EU. Having said that, CEPOL's cooperation with third countries, international organisations and other external stakeholders has to be in line with the general policy lines on the external action of the European Union, implementing the objectives thereof, within the scope of CEPOL's mandate.

CEPOL's external action should thus be guided by the relevant high-level policy documents of the European Union, in particular:

- 'A Global Strategy for the European Union's Foreign and Security Policy', published in 2016¹⁸⁷.
- Conclusions of the Council and of the Representatives of the Governments of the Member States, meeting within the Council, on the establishment of a Civilian CSDP Compact, adopted on 19 November 2018¹⁸⁸.
- The European Agenda on Security, adopted by the European Commission on 28 April 2015¹⁸⁹.

The way how consistency with the above-mentioned documents should be achieved is specified by the Working Arrangement between DG HOME and CEPOL, signed on 13 November 2016. The European Commission (via CEPOL's partner DG, DG HOME) is thus providing the necessary guidance to ensure such consistency, where necessary, coordinating with the European External Action Service.

The legal basis for CEPOL's cooperation with the above-mentioned actors has remained unchanged, i.e. it is the CEPOL regulation¹⁹⁰, more specifically, Articles 3.1.d), 4.4 and 34.

The environment, in which CEPOL's external action needs to be positioned, is a volatile one, affected by manifold challenges. Terrorism, organised crime and cybercrime continue to pose significant challenges. Beyond cybercrime, the digitalisation of our societies require law enforcement to be equipped with proper digital skills. Member States have been concerned with security aspects of irregular migration flows towards the EU. The recent outbreak of the COVID pandemic may need to alter many aspects of our everyday life even in the long run – nevertheless, its economic implications may have serious consequences on capacities of law enforcement. Most of these developments affect (albeit in different ways) both the EU and third countries. Security of the EU and security of the countries in its neighbourhood and beyond are intertwined to such an extent that it is right to speak more of a continuum of internal and external security of the Union, than a simple nexus between the two, as it was the case a few years ago. CEPOL needs to take this all into account with all aspects of its external action.

In the past years, during the implementation period of CEPOL's previous Sub-Strategy on External Relations, one could notice a growing interest towards CEPOL from third countries. Such interest mostly came from countries in the neighbourhood of the EU, but more and more countries, law enforcement agencies and training institutions reach out to CEPOL to inquire on possibilities for cooperation from all around the globe. CEPOL managed to position itself as a reliable partner with a unique, appealing training offer and expertise and became more and more a brand in law enforcement training, standing for quality and trust. To keep up this level of acknowledgement and whenever possible, to develop it further, needs to be our ambition for the years to come as well.

¹⁹⁰ Regulation (EU) 2015/2219 of the European Parliament and of the Council of 25 November 2015 on the European Union Agency for Law Enforcement Training (CEPOL) and replacing and repealing Council Decision 2005/681/JHA, OJ L 319, 4.12.2015, p. 1–20

On the other hand, the European institutions became more and more aware of CEPOL's potential and the good results delivered and often try to use CEPOL as an important part of the EU's approach towards countries or regions, together with other EU Agencies. CEPOL has a significant advantage compared to other Agencies, namely that training is a relatively "soft" part of security cooperation, where the readiness of the given partner to cooperate may be reached more easily. Thus, CEPOL often appears as the first EU agency having whatsoever security cooperation with a certain partner, generating trust and paving the way for cooperation of other agencies. While this achievement has generated good reputation for the Agency among the players in Brussels, we may expect an increase of requests towards CEPOL to act in such a context. To comply with such requests, potentially aiming at quick wins and rapid actions, may pose a challenge for CEPOL, especially if no additional resources are provided for those.

This takes us to another, maybe the most important factor: the very limited budgetary and human resources of the Agency create a limitation to increase external action both in volume and in impact. While dedicated funding in the form of capacity building projects have been substantially increased in the last years resulting in CEPOL having the largest external capacity building project portfolio among JHA Agencies¹⁹¹, other aspects of external action and stakeholder management are implemented by CEPOL's core budget and staff. The Agency has made considerable efforts that led to the creation of the Brussels Liaison Office in late 2019- however, still only 2 FTEs¹⁹² are covering everything that is not project-based cooperation.

In the course of CEPOL's cooperation with third countries, we need to preserve the "CEPOL brand" as established so far. This is to say that CEPOL involvement in third countries needs to have a dedicated added value and should make a genuine difference, compared to other training providers, which is recognisable to external partners. This is particularly relevant for capacity building projects, stipulating that CEPOL should only implement projects if the promise of our "brand" may be kept in terms of quality. In this spirit, while CEPOL does not see any rivalry with other training providers and should always seek for the best synergies possible with other training providers active on the market, teaming up with other organisations (e.g. INTERPOL, UNODC, OSCE) may be supported without putting this "brand" in prejudice.

Last but not least, one prominent field of CEPOL's external action, which is also explicitly mentioned in the Agency's mandate, is the training related to CSDP-missions. While CEPOL has invested a lot into this topic (e.g. by setting up one of its first CEPOL Knowledge Centres for this), there have been significant developments on the European level, most notably by the adoption and implementation of the above-mentioned Civilian CSDP Compact and the establishment of the EU Civilian Training Group (EUCTG)¹⁹³ among the structures of the Foreign Affairs Council. Taking into account its limited resources, while this part of the mandate shall also be implemented on an appropriate level and CEPOL will continue supporting the EUCTG to the greatest extent possible, the current Strategy would thus not set any CSDP-related objectives *per se*, acknowledging the existence of another dedicated EU structure for this area.

Institutional and legal context

In line with Article 34 of CEPOL mandate, CEPOL may establish and maintain cooperative relations with Union bodies, in accordance with their objectives, with authorities and training institutes of third countries, with international organisations and with private parties. CEPOL is also entitled to manage dedicated Union External Assistance funds to assist third countries in building their capacity in relevant law enforcement policy areas, in line with the established priorities of the Union. While pursuing its cooperation with third countries and/or international organisations, CEPOL remains within its mandate and the institutional framework, and does not appear as representing the European Union.

One of CEPOL's main activities is to develop and to provide training for law enforcement officials from third countries, in particular from countries that are candidates for accession to the Union and the countries under the European Neighbourhood Policy. Since 2015, under the new CEPOL mandate CEPOL has successfully

¹⁹¹ 4 major capacity building projects with a total budget of cca. EUR 25 M from 2020 to 2024.

concluded several comprehensive projects and training activities in third countries covered by EU neighbourhood policies, such as:

- Financial Investigation In-Service Training Programme for Western Balkan (IPA II) (CEPOL FI) 2017-2020
- EU/MENA Counter-terrorism Training Partnership 1-2 (CEPOL CT & CT2) 2015-2017 and 2017-2020 respectively

Such projects are executed based on delegation, grant or contribution agreements concluded with the European Commission's services (such as DG NEAR, DG DEVCO, FPI). The financing decisions externally financed projects rest with the European Commission. Consequently, the details of the running projects (overview, objectives, indicators, results and outputs, resources, etc.) are defined in the relevant agreement with the Commission services and are included in the Single Programming Documents¹⁹⁴ and its financial and human resources annexes – but not explained in details in Annex XII: Strategy for cooperation with third countries and/or international organisations (CEPOL External and Stakeholder Relations Sub-strategy).

CEPOL also plays an important role in the family of JHA and other EU agencies and among international organisations, as demonstrated by its comprehensive external partnerships in place:

Implementation and results of the External Relations Sub-strategy 2016-2020

The External Relations Sub-strategy 2016-2020, as adopted in the form of the Decision 22/2016/GB, has brought along many substantial achievement during its implementation period. Overall, it may be considered as partially implemented. CEPOL's reputation has significantly increased and we have experienced a growing interest from countries outside Europe towards our Agency. However, this has remained limited mostly to the neighbourhood of the EU. Cooperation with INTERPOL was intensified and its formal basis renewed by the adoption of a new Working Arrangement. On the other hand, for a number of reasons, CEPOL decided not to affiliate to INTERPOL's Global Academy. The basic limitation that prevented CEPOL from a full implementation of the Sub-Strategy has remained the lack of resources. This circumstance has posed an obstacle so far towards creating any substantial training offer funded by CEPL's core budget for third countries other than e-learning. However, the Agency has built up a remarkable portfolio of dedicated capacity-building projects, providing an opportunity to bypass the above-mentioned limitation in most cases, at least to some extent.

CEP fully funded for Candidate Countries, potential Candidate Countries and Eastern Partners. ➤ Unlimited access to e-learning subject to WA and appointment of LEED manager. ➤ However, incentive schemes are overlapping, CEPOL's standard training offer is not tailor-made to third countries' training needs. Actually, no proper training needs assessment is done for third countries. ➤ Different levels of access to different forms of training for the same countries, as outlined above. ➤ No coordination with potential external donors who could fund self-payer participation at on-site courses. ➤ Hesitation of FPs to include third country participants. ➤ Limitations of the current setup of on-site courses, difficulties in the workflow around grants. ➤ Since 2016: 7 WAs concluded with 3rd countries, 7 with organisations.

			<p>➤ From 2016 until the end of August 2020, CEPOL on-site activities involved 990 non-EU participants. Out of this figure, countries involved covered now with Working Arrangements are: Albania, Armenia, Bosnia and Herzegovina, Georgia, Iceland, Kosovo*, Liechtenstein, Moldova, Montenegro, Norway, Russia, Serbia, Switzerland, Turkey, Ukraine. Based on ad hoc decisions or under capacity-building projects, there were also participants from other countries included in this number- a total of 248 persons. Regarding figures on e-learning and exchanges, see below.</p>
1.3 CEPOL shall continue to work closely with the EU institutions and Agencies to maximise its impact in External Action	CEPOL training shall progressively encourage the involvement of EU institutional partners	<i>CEPOL's activities shall feature the role of an EU (institutional) partner as Supporter in the relevant areas of expertise.</i>	<p>Implemented</p> <p>➤ From 2016 until the end of August 2020, 410 CEPOL on-site activities were supported by EU institutions, agencies and alike.</p> <p>➤ CEPOL webinars involved 259 presenters from EU institutions, agencies and alike from 2016 until the end of August 2020. In addition, in 2019-2020, there were 30 contributors from these partners to CEPOL's on-line courses. [</p>
1.4 CEPOL training shall embrace Academia as well as the Private and Non-Governmental sector	CEPOL shall work closely with Academia, Civil Society and Non-Governmental Organisations to deliver qualitative training	<i>CEPOL activities will feature the participation of Academia, the NGO and Civil Society sector, as well as private enterprise at their own costs or by additional funding, in the relevant areas of expertise</i>	<p>Implemented</p> <p>➤ From 2016 until the end of August 2020, 87 CEPOL on-site activities were supported by academia, private sector and NGOs.</p>

Strategic objectives 2021-2025 under CEPOL External and Stakeholder Relations Sub-Strategy

1. Geographically focused training

While having the ambition and the potential to be active in the field of law enforcement training on global level, if such involvement would serve the policy interests of external action of the European Union, for reasons of efficacy and the existing limitations in size and resources, comprehensive access to CEPOL's training offer¹⁹⁹, based on a structured and permanent cooperation with third countries shall be limited to Schengen Associated Countries, countries with European perspective or under the European Neighbourhood Policy and potentially the Strategic Partners of the European Union. CEPOL currently covers all Schengen Associated Countries and all countries with European perspective with Working Arrangements, just as 4 out of 6 countries of the Eastern Partnership. There is no Working Arrangement concluded with any country of the Southern Neighbourhood, although the draft with Tunisia is relatively well-advanced. There is one Strategic Partner covered with a Working Arrangement²⁰⁰.

CEPOL should thus continue to cover the above-mentioned geographical area with structured, permanent cooperation via Working Arrangements. Existing WAs should be implemented and where necessary, updated (e.g. with regard to the new EU data protection rules). CEPOL should make efforts to conclude WAs with countries within these regions currently lacking one. In case of the Southern Neighbourhood, such process should pay particular attention to security considerations. The possibility to fully cooperate to the extent possible with Strategic Partners should continue to prevail, however, such initiatives should be triggered by the general political developments between the EU and the Strategic Partners.

CEPOL should also remain open for initiatives of cooperation for countries beyond this scope. However, for practical reasons it does not seem to be appropriate to offer full access to the portfolio for such access to e-learning and other "light" forms of cooperation (e.g. exchange of materials, research products, one-off study visits) and/or be implemented by supporting other international/regional LE training providers. Any exception to such approach may only be based to substantial political interest of the EU, articulated by the appropriate structures from Brussels.

2. Streamlined existing forms of participation of priority third countries

With the decision on geographical focus as outlined under the previous objective, the existing forms of participation in CEPOL's standard activities should be streamlined for the priority third countries²⁰¹.

The current situation, demonstrated by the below table, is somewhat patchy, as it has developed by a series of decisions throughout the years:

Countries	On-site	Exchanges (CEP)	Online
Candidate countries	International travel covered	Fully covered	n/a
Potential candidate countries	No cost covered	Fully covered	n/a
ENP East	No cost covered	Fully covered	n/a
ENP South	No cost covered	No cost covered	n/a

¹⁹⁹ I.e. access to on-site training, e-learning and exchanges.

²⁰⁰ Russia since 2013- however, for political reasons, this has not been implemented since 2014.

²⁰¹ Schengen Associated Countries are not mentioned here. There is general consensus that existing forms of participation for these countries should be preserved, nonetheless, this should be continued on a self-payer basis (just as it has been the case so far), taking into account the economic situation of the countries concerned.

The complexity of this often causes uncertainty even among CEPOL staff on how to deal with colleagues from a particular country. Streamlining the above forms would thus have some benefits internally as well, by simplifying the related processes. On the other hand, broadening the possibilities would certainly be a very positive signal towards the given third countries, while also strengthening CEPOL's position there, which is often a selling point for the Agency regarding considerations among the Brussels structures.

Having said that, subject to the availability of resources, the existence of Working Arrangements with the countries concerned and security considerations, the following options may be explored:

- On-site training: while previous incentive schemes have been abandoned to ease the financial and administrative burden on CEPOL's core budget and staff, the current option to finance international travel for Candidate Countries may be considered to be extended to potential Candidate Countries and ENP (East/South) countries. On top of this or instead of this, self-payer participation from all countries may be stimulated by a proactive outreach towards potential donors who could finance participation.
- The access to CEP could be broadened to ENP South countries.

All of the above does not affect project-based participation of the countries concerned. Furthermore, when it comes to on-site training, the limitations regarding the volume of the learning groups should be respected in order to guarantee the quality of training.

3. Training Needs Assessment process developed for third countries (and preferably for partner organisations)

If CEPOL has the ambition that its training offer may be perceived as unique and having added value for third countries, compared to other training providers, the offer needs to factor in the genuine training needs of these countries. Otherwise the impact of our outreach in these countries may only be limited, as the standard training offer would not be developed in cooperation with third countries and they would only be able to participate in activities that accidentally happen to match their training needs²⁰². Our efforts to obtain the priorities expressed *proprio motu* by the partners themselves (i.e. under the former 5 seat scheme in the format of the Cooperation Plans) have not been successful so far, their declarations being rather generic and not digestible for CEPOL's regular planning process, also because of the time discrepancy between the two processes. The way forward should thus include creating a link between CEPOL's regular planning process currently only covering EU MS and our third country partners, so that the portfolio emerging at the end of the process would also properly reflect the third countries' training needs. This could also facilitate the conclusion of annual/ pluriannual action plans with the countries that would properly operationalise the existing Working Arrangements, determining the details of the partners' participation in CEPOL's standard business. As CEPOL's primary customers are the EU MS, it goes without saying that any such process should not jeopardise that training needs by EU MS are properly addressed by CEPOL, and only remaining resources may be used for the needs of third countries- however, in many cases, especially with the Schengen Associated Countries and countries with European perspective, the training needs are quite similar to those of EU MS, hence, at the end of the day this would require more to enable access to the portfolio that to complement the portfolio with any special activities. Nonetheless, for the training needs assessment/analysis process, EU MS should have a priority in weighing of the needs than the training needs expressed by third countries.

²⁰² Obviously, this is not the case with project-based activities that are determined and developed in close cooperation with the beneficiaries.

4. A mechanism for emergency assistance for third countries developed

CEPOL should be able to design and implement tailor-made training on certain priority topics for a single third country or a group of countries in case of pressing political need. One must admit that such intervention may not be planned among the constraints of the annual subsidy, hence if need emerges, actual financing for such action should come from extraordinary EU subsidy (e.g. emergency assistance from the Internal Security Fund and alike). Nevertheless, during the timeframe of the present Strategy, the internal framework and processes for preparedness to deal with such situations should be elaborated (“rapid reaction”). Experience gained during the COVID-19 pandemics (e.g. the creation of a dedicated task force) may serve as valuable experience for future considerations in this respect.

5. Maintained level of involvement of capacity building activities, high-quality impact continued

In the past years, capacity-building projects have been beneficial for CEPOL, while also creating substantial impact for the project beneficiaries. Since 2015, CEPOL managed to build up the largest project portfolio among JHA Agencies, with 4 major projects of a cumulated budget of 25 M EUR for the period 2020-2024, covering the whole area of countries with European perspective and of the Eastern and Southern Neighbourhood. The excellent work carried out by the projects have facilitated structured cooperation under the framework of Working Arrangements, paved the way towards concluding new Working Arrangements and often paved the ground for other EU Agencies and structures in the partner countries. For the Agency, projects have been a selling point towards the stakeholders in Brussels, while also providing an opportunity to bypass existing limitations of resources to some extent. The volume of the projects made necessary to create a dedicated Unit²⁰³ within the Operations Department as of 2018.

Building on these firm foundations, CEPOL should continue implementing dedicated capacity-building projects during the implementation period of the present Strategy. First priority in this respect should be to implement the 4 capacity-building projects already contracted²⁰⁴. The option of taking additional projects within the current geographical scope remains valid, subject to political guidance by the appropriate EU structures and the absorption capacity of the Agency. More remote regions/countries for launching and implementing capacity-building projects might only be possible in case of pressing political need and subject to the availability of dedicated funding.

In this context, CEPOL should step up its efforts around funds mobilisation/donor relations. The previous practice of contracting should be developed towards a formal structured consultative process with the relevant DGs of the Commission.

Structured cooperation, based on Working Arrangements and project-based cooperation are both indispensable for CEPOL’s external action and their various aspects are often closely related, even intertwined. Hence, the coherence between the two strands of cooperation needs to be ensured. At the moment these two channels are often separated, since projects are specific, thematic and time limited. Efforts should be made to align the two strands to the greatest extent possible.

²⁰³ International Cooperation Unit, previously named Project Management Unit.

²⁰⁴ CT INFLOW and EUROMED Police for the Southern Neighbourhood; TOPCOP for the Eastern Partnership; WB PaCT for the Western Balkans.

6. Stakeholder relations part of the External Relations Sub-Strategy

CEPOL needs a structured approach in its stakeholder relations. As a starting point, the stakeholders of CEPOL should be defined. Currently we have 2 groups that are already regulated (also in legal terms) and the relevant workflows are in place: the Member States (via CNU and MB) and the Framework Partners. As these arrangements shall remain untouched, stakeholders may be considered as anything beyond these groups, including third countries, international organisations, European institutions and agencies, civil society organisations and academia. They should be targeted with information on and offers by CEPOL and their needs or potential should duly be reflected in CEPOL's planning process. As a first step, a mapping of already established and potential stakeholders should be done in cooperation with Operations. As a second step, stakeholders should be categorised according to their importance for CEPOL. As a third step, the appropriate means for stakeholder management should be defined for each of the categories (e.g. for the least important category, it should be sufficient to receive a newsletter and invitations to CEPOL awareness events in Brussels or Budapest, while for the most important category, recurring meetings with the ED/management should be implemented). This may all come together in a table ("Stakeholder Matrix") promoted across the Agency and kept up-to-date by all parts of the organisation (e.g. by logging meetings with stakeholders, requests received, support received via experts and expertise to CEPOL activities, etc).

A particular area where CEPOL's engagement should be strengthened is that of the cooperation with private sector, including research institutes and think tanks. This could also yield the Agency concerning the mobilisation and use of external experts.

7. Exemplary role in and contribution to the cooperation of JHA agencies

The level of cooperation with the JHA agencies and other international organisations active in the policy area is expected to deepen even further, which will also imply an increasing number of joint activities. In addition, CEPOL is committed to follow the wider work done at EU level in JHA policy area and disseminate information about these activities.

CEPOL will chair the JHA Agencies Network in 2022. According to established practice, this will entail 3 regular network meetings, the meeting of the Training Contact Group, and the Directors' meeting (which is usually attended by the Commissioner).

Opening the liaison office in November 2019 further contributes to interagency cooperation with the Liaison Office interacting daily with other JHA liaison officers in Brussels. The agencies organise a regular joint Brussels based meeting on a rotating basis.
