## Foreword

The Single Programming Document (SPD) 2020 spans a three-year period, from 2020 to 2022. The CEPOL strategy, which has been revised as from 2020, drives the identification of activities and setting targets for the aforementioned period. A non-substantial revision and alignment of the strategy is foreseen as from 2021, while a major strategy update is planned to be carried out upon a new mandate or the availability of results of the Commission's independent evaluation.

The SPD 2020 includes also a detailed description of the resources that need to be allocated for each area in order for CEPOL to fulfil its programme of work. In this respect, the Agency continues to pursue the resources it deems necessary to achieve its objectives as they stem from the provisions of its legal mandate, and by its effort to respond effectively to emerging challenges in the Justice and Home Affairs policy area - with an obvious emphasis on those policies which influence European law enforcement training.

The European Agenda on Security<sup>1</sup> embeds law enforcement training in the European Union security architecture as a key supporting action crucial to protecting Union citizens. In line with its mandate, CEPOL will support all key priority areas deriving from the Agendas<sup>2</sup> on Security and Migration<sup>3</sup>. On the other hand, the European Law Enforcement Training Scheme (LETS) places great emphasis on structuring training in line with the principle of subsidiarity, while at the same time maintaining a strong degree of integration and inter-dependency between the Member States, CEPOL, and the wider JHA family.

While training of law enforcement officers is a shared responsibility of the EU Member States and the Union institutions, CEPOL strives to provide Law Enforcement Officials of the EU and Third countries with the necessary skills, knowledge and competencies to successfully tackle the European security threats.

With the EU Strategic Training Needs Assessment (EU-STNA) CEPOL is supporting the decision-making process in the law enforcement training at Union level, while the Operational Training Needs Analysis (OTNA) seeks to assist the realization of strategic goals through the implementation of specific training activities.

CEPOL's legal basis also entrusts the Agency, as part of its core business, with an enhanced external action portfolio to ensure consistency of the EU internal and external action in the sphere of law enforcement training. This area represents a key element of support, by the agency, to the political priorities of the European Union with regard to the Union's external policies. This shall continue to be crucial as from 2020 onwards as European security is ever more interdependent from regional and global developments.

The whole package of measures supporting the enhanced use of large-scale IT systems (including training on the Entry/Exit and Travel Information Systems) – as well as update of the currently available ones – require additional efforts on the side of the Agency to ensure law enforcement officials are aware and able to use those instruments enabling them to better tackle the challenges of terrorism, organised crime, and irregular migration. The introduction of new actors in the Justice and Home Affairs landscape such as the European Public Prosecutor's office will significantly add to the training needs of European law enforcement.

<sup>2</sup> It should also be noted that 85% of the entire training and learning offered by the agency will address operational priorities stemming from the Security and Migration Agendas.

The COVID-19 crisis in Q2 2020 had a massive impact on CEPOL operations – not only in 2020 but extending well over into 2021, including an inability to implement residential (on-site) activities for a significant part of the year, and a consequent shift to e-learning. Thus this SPD was revised substantially in 2020 to respond adequately to the challenges posed by COVID-19.

While CEPOL had to cancel the vast majority of the planned residential training activities it has shifted in a dynamic way towards a strongly enlarged portfolio of online training options / services. Additionally CEPOL has provided to several Member States relevant support to deal with the challenges caused by the pandemic by providing its online tools for the support of national training activities.

## Section I – General Context

Three and a half years after the entry into force of its new legal mandate, and nearly fourteen years since the inception of CEPOL as an EU Agency, CEPOL will be entering 2020 as a matured organisation and a recognised world-class partner in the development and provision of training for the law enforcement community. In 2020 CEPOL's 5-year evaluation – as laid down in the founding regulation – will take place. This evaluation will be performed by the Commission; recommendations shall be implemented as from 2021.

The area of freedom, security and justice has been going through a significant transformation. Cybercrime is increasing rapidly, while irregular migration and terrorism persist as threats to internal security. In addition, the digital transformation of the justice and home affairs domain will continue in the coming years with application of new large-scale IT systems and implementation of the interoperability framework.

At the same time CEPOL will continue to strive to offer its target audience relevant training opportunities with the use of state-of-the-art tools, incorporating in its training & learning portfolio the latest methodologies and practices.

The key documents for identifying the needs and training gaps in the law enforcement community, at the time of drafting these lines, are the EU Internal Security Strategy for 2015-2020, the Commission Communications on the European Agendas on Security and Migration, the EU Global Strategy for the Common Foreign and Security Policy, Europol's Serious and Organised Crime Threat Assessment (SOCTA 2017), the EU Strategic Training Needs Assessment 2018-2021 (EU-STNA) by CEPOL and the EU Policy Cycle 2018-2021, in conjunction with Frontex Risk Analysis for 2017, the European Union Counterterrorism Strategy<sup>6</sup> and the Cybersecurity Strategy<sup>7</sup>.

Additionally, CEPOL will be following all other developments in the JHA policy area, such as law enforcement and judicial cooperation with the aim to coordinate activities with other agencies, develop and implement new training activities. In particular, it can be anticipated that new legislation, particularly in the areas of interoperability, entry/exits system, the European travel information system as well as the introduction of the EU cyber security agency and the European Public Prosecutor's office will require the support of training measures requiring CEPOL's active role.

CEPOL plays an important role in the family of JHA agencies and other international organizations, as demonstrated by its comprehensive external partnerships in place:

The level of cooperation with the JHA agencies and other international organisations active in the policy area is expected to be deepened even further, which will also imply an increasing number of joint activities. In addition, CEPOL is committed to follow the wider work done at EU level in JHA policy area and disseminate information about these activities, especially in specialised law enforcement networks<sup>12</sup>

It is anticipated that one of the key themes of the CEPOL regulation- notably, CEPOL's role in assessing strategic and operational training needs and translating them into concrete training activities reflecting Europe's strategic security priorities and law enforcement's operational needs- will have paved the way to a more qualitative delivery based on evidence and a thorough participative and consultative process that maintains the Member States front and centre of CEPOL's supportive mandate.

The development of a new business model for the Agency with a pilot phase in 2020 will be an important step for the delivery of custom made, sustainable training to specific law enforcement segments in a manner that maximises the synergies between CEPOL and its key partners in the Member States and beyond.

To respond to the challenges posed by COVID-19 pandemic, in 2020 CEPOL significantly amended its Work Programme 2020. This revision was based on 3 new strategic goals: (1) to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension, (2) to become the EU's law enforcement e-learning support hub, (3) to enhance further digitalisation of CEPOL. Where possible, the amended plan of activities and resources is included in addition to the original plan for the purposes of comparability and traceability.

<sup>10</sup> Particular areas of cooperation: (i) contribution to EU policy cycle activities, (ii) support for courses on joint investigation teams and counterterrorism, (iii) support for training activities in the Western Balkans and MENA

<sup>11</sup> Formalised CEPOL-Europol Agreement in force; particular areas of cooperation: (i) joint residential (on-site) and online training activities, (ii) Europol input to CEPOL trainings, (iii) support for capacity building activities in third countries where applicable

<sup>12</sup> Such as the ATLAS network of European special intervention units, ENLETS (European Network for Law Enforcement Technology Services) and Radicalisation Awareness Network (RAN)

CEPOL shifted in a dynamic way towards an enlarged portfolio of online training services / options.

This was complemented by direct support to Member States in the pandemic crisis by utilising CEPOL platforms for national activities.

## Section II – Multiannual Programming 2020-2022

### *II.1 Multiannual objectives 2020-2022*

This part of the Single Programming Document describes the medium-term strategic objectives of the Agency and explains how the progress in their achievement is monitored. The main tenets of CEPOL's multiannual programming are that the Agency must be able to respond to the training needs of the European law enforcement community, and that CEPOL training activities should stem from a structured process built upon strategic and specific Training Needs Analysis, taking into due account the requirements deriving from EU policy documents.

CEPOL's multiannual programming sets strategic goals for 2022 and it aims to serve as a blueprint for the development of the agency's annual action plans. It is complemented by corresponding Key Performance Indicators and Strategic Areas of Interventions 2020-2022 which also corresponds to the Work Programme Activities as of 2020 on.

Its structure and terminology have been aligned with the guidelines for programming developed by the European Commission<sup>13</sup> which, in turn, also reflect Article 32 of the CEPOL Financial Regulation<sup>14</sup> that sets out programming requirements for the agency.

### Justification

#### Title 1 – Expenditure related to persons working with CEPOL

The original request is made on the assumption that full staffing – as requested already for the budget years 2017, 2018 and 2019 - will be accomplished by 2020 (40 TA<sup>27</sup>, 19 CA and 6 SNE). Such increased level of staff is necessary for the appropriate completion of additional tasks assigned within CEPOL's mandate as enhanced per 1 July 2016 and to ensure direct and timely delivery of EU level training to tackle the most pressing European security priorities. However, the draft budget shows only an increase of the establishment plan with 1 posts, directly related to the interoperability package. It should be clear that these resources are insufficient to deliver in full on the earlier planned volume of activities.

<sup>26</sup> Commitment and Payment appropriations are the same

<sup>27</sup> Cf. 2020 draft EU budget authorised 33 TAs

## Title 2 – Buildings, Equipment and Miscellaneous expenditure

In 2018 CEPOL has made a request to the Hungarian authorities to explore the possibilities for a new building for CEPOL that would enable the agency to better fulfil its tasks and obligations as well as better accommodate the additional staff; both for staff requested as for staff engaged in the capacity building projects. The current building has been designed for 53 staff members, current staffing levels (including the two projects that are actively implemented in 2018) are at 72. Taking in consideration the CEPOL request for additional human resources (see above) the staff numbers would increase to approximately 150 (including staff for extra budget activities). The Hungarian authorities are positively considering this request but a decision has not been taken yet. CEPOL is actively seeking short, medium and long-term solutions which might have budgetary impact as early as in 2020.

## Title 3 – Operational expenditure

The operational activities performed by CEPOL up to 2020 must be reinforced and complemented by important other activities such as:

- Expand the scope and enhance the availability of EU level training. Training on serious and organised crime, counterterrorism (except cyber) needs to be further sustained. Needs increase substantially, driven by SOCTA and EMPACT work. Volume of officials to be trained shall be expanded to satisfy the demand of law enforcement officials other than police, and can be estimated at 1.5M officials in the EU. It is the aim to train up to 15k officials per year on SOC priorities (except cyber). Establishment of a new CEPOL business model for delivery of custom made training to specific law enforcement segments and regionalisation of training opportunities.
- Cybercrime, cyber related crime, electronic evidence and digital competence: Cyber TNA demonstrates that over 70% of MS do not regularly train on cyber in MS. Rotation of staff, lack of access to the expertise and trainers as well as high cost of cyber training is one of the reasons. Cyber, being a distinctly cross-border crime where in one case over 20 jurisdictions can be involved, requires training at EU level and beyond. In the area of digital forensics common training standards are necessary to facilitate the path to evidence admissibility in EU MS. The maintenance, development and improvement of the EU law enforcement cyber-training facility - CEPOL Cybercrime Academy for law enforcement is necessary - it shall operate in close cooperation with Europol / EC3, ENISA, ECTEG, EDA, private sector etc.
- Training on information exchange and specialist law enforcement techniques, with the updated SIS, travel intelligence, Prüm, operational agencies - tools designed to support cross border cooperation calls for significant increase in raising knowledge on these tools and supporting specialist networks. Here CEPOL needs to be prepared for the training of the Interoperability package.
- Training needs assessment and training coordination at EU level. Identification of needs for skill development (STNA, OTNA, thematic micro-TNAs). These analytical products that are developed on the basis of threats, technological and societal developments provide the necessary evidence where EU level training will add value. Future oriented needs assessments are imperative in all areas, but even more crucial and resource-consuming in those driven by technology such as cyber.
- Development of EU training standards, Certification of training and trainers
- Language training to facilitate cross border cooperation inside the EU and with the Candidate + ENP countries
- Research in the area of Law Enforcement education

- External aspects of Internal security, particularly capacity building in ENP countries: 1) provide custom made training activities for ENP countries, 2) providing subsidised learning opportunities organised by CEPOL - joint ENP-EU activities.
- Sustainability of training initiatives funded by EU, aiming to ensure continuity to training initiatives developed using EU funds - take over the project outcomes, ensure their further maintenance, implementation and the development
- Further development of training environment, e.g. technologies, methodologies: enforcing the technological solutions for education and learning such as LEEd platform (to replace e-Net), capacity to build interactive online learning solutions. Innovation in law enforcement training, including technological aspects, should become an integral part of CEPOL's delivery. Online learning is the most suitable tool to ensure access to education to wider audiences, it works really well where high number of officials needs to raise awareness, but also it offers alternatives for specialist learning such as creating learning opportunities - simulations of hostile environments, simulations of crisis situations
- Due to COVID-19, a significant reallocation of financial resources in Work Programme 2020 has been carried out throughout 2020 to support a temporary shift from residential (on-site) to e-learning / online services. This trend will likely be carried forward into 2021.

## Human resources

Based on the conclusions of CEPOL's five-year external evaluation, the 35<sup>th</sup> Governing Board on May 2016 recommended that the Agency pursues twelve additional (new) posts to be able to deliver the increased demand of training in an efficient and effective manner. As three posts were granted to CEPOL for the year 2017, the Agency sought to request the remaining nine posts via its 2018 staff request. Instead of nine posts, one was allocated to the agency. As for 2019, none of the additionally requested eight posts have been granted to the Agency. For 2020, again the Agency did not receive any of the additional posts requested since 2016. The one additional post in the 2020 establishment plan is based on the adopted interoperability package. However, the allocation of 1 post to cover with all training needs related to the interoperability package is a significant underestimation of the workload related to the expectation.

As CEPOL has to implement effectively its mandate that came into application in July 2016, the agency will pursue the necessary resources for full engagement with the all law enforcement sectors, implement its research agenda, and ensure quality, transferability and mobility of CEPOL training and education through standardisation and certification. It is clear that the agency suffers, across all departments, from a lack of human resources which make it extremely difficult for CEPOL to evolve and implement fully its mandate.

For that purpose CEPOL will request an increase in human resources for 2021 that includes the posts not granted in 2021 and follow its original schedule for following years.

Based on the currently available information from the Commission (so far followed by the Council and Parliament), only one post was allocated to the Agency for new tasks (interoperability), which is on the top of the originally requested and not yet approved 8 posts for 2020.

Staff Category	Staff Population in draft EU budget 2020	Staff Population envisaged in 2021	Staff Population envisaged in 2022
Temporary Agents	33	33	33+5
Contract Agents	19	19+1 <sup>28</sup>	19+1
SNEs	3 <sup>2930</sup>	6 <sup>31</sup>	6

Due to the planned high business volume in the field of cyber activities in response to the needs of Member States and the EU, the assignment of a CA post to cyber activities of CEPOL became necessary. Upon a job market analysis, a CA FG IV post was identified to be required to deliver the necessary quality and quantity of the cyber portfolio. As a permanent and structural upgrade, the reallocation of an existing CA FG III post to FG IV has been carried out as per MB Decision 03/2020/MB of 4 March 2020. Detailed human resources data is provided in Tables in Annex III.

Human resources are highly impacted by the consequences of COVID-19, particularly the temporary shift from residential (on-site) to e-learning /online activities and allocation of human resources to assist Member States in providing e-learning assistance in 2020.

*Resource outlook over the years 2020 to 2022***A) New Tasks:**

The regulation of the European Parliament and of the Council on establishing a framework for interoperability between EU information systems (borders and visa) aims to ensure that centrally coordinated EU level training improves coherent implementation of training courses at national level and as a consequence ensures correct and successful implementation and use of interoperability components will take place. CEPOL — as the EU Agency for Law Enforcement Training — is well-positioned to deliver central EU level training. CEPOL shall coordinate, manage, organise and update the courses and the cost for delivering a number of training sessions per year and prepare the online course(s). The training effort is concentrated on the periods immediately preceding go-live. A continuous effort remains necessary beyond the go-live as the interoperable components are maintained and the trainers do not permanently remain the same persons, based on the experience of delivering existing training on Schengen information system. The EU-STNA 2022-2025 will be launched in 2020 in line with the EU Policy Cycle and will require additional resources.

**B) Growth of existing tasks**

The legal basis that came into force on 1 July 2016 cannot be implemented with the current staffing. Careful analysis shows that the CEPOL establishment plan as set for 2020 has to increase with at least 8 positions to be able to – at a minimal level – meet these expectations.

The legal mandate tasks CEPOL to support Union missions and capacity-building in third countries by managing dedicated Union External Assistance funds (Art. 4(4)(d)). It also stipulates that CEPOL may benefit from Union funding in the form of ad-hoc grants (Art 17(4)).

CEPOL will continue to be the beneficiary of CEPOL CT 2 (based on a grant from the European Commission Service for Foreign Policy Instruments, FPI), which started in 2018. CEPOL FI project will also continue until the end of Q1 2020.

In addition, preparations are ongoing for four capacity building projects in third countries to start in 2020:

1. CT INFLOW (Enhancing Information Exchange and Criminal Justice Responses to Terrorism in the Middle East and North Africa – Euromed follow-up): budget of EUR 7.5 million, duration of 48 months, starting as of 1 April 2020, EU funded under the Instrument contributing to Stability and Peace (IcSP), covering the European Neighbourhood South.
2. EUROMED Police (Enhancing operational capacities of the South Partner Countries (SPC) to fight serious and organised crime and strengthening strategic cooperation): budget of EUR 7 million, a duration of 48 months, starting as of 1 April 2020, EU funded under the European Neighbourhood Instrument (ENI), covering the South Partner Countries (SPC).
3. TOPCOP (Training and Operational Partnership against Organised Crime): budget of EUR 6 million, duration of 48 months, starting as of 1 July 2020, EU funded by the European Neighbourhood Instrument and managed by DG NEAR, covering the Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine).
4. WB PaCT (Western Balkans Project against Crime and Terrorism): budget of EUR 3 million, indicative duration of 36 months, aimed start on 15 October 2020, EU funded under the Instrument of Pre-Accession II managed by DG NEAR.

### C) Efficiency gains

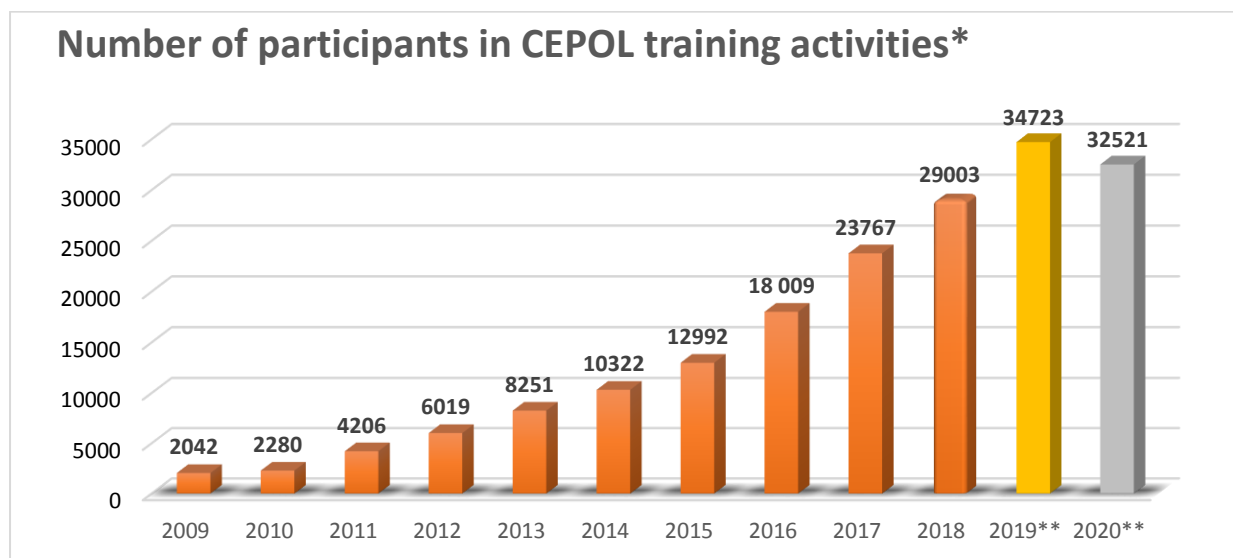

Successive evaluations of CEPOL have found the agency to be both efficient and effective. Increase of participants in the period 2009 to 2018 has been achieved with a very limited increase in resources allocated to the Agency.

The last few years CEPOL has become a recognised partner among policy makers and practitioners. As a result, the demand for CEPOL training has been constantly increasing. To accommodate these legitimate training needs, the agency is investigating all options to deliver as much as possible within the given resource framework. However, the limits of internal resource reshuffling and further efficiency gains have been reached. Besides the additional operational tasks stemming from the CEPOL Regulation that entered into force on 1 July 2016 – see growth of existing tasks above – it should also be mentioned that all services (support as well as operations) are extremely lean and have led in the previous years to serious risk with regards to business continuity as well as legality and regularity. E.g. there are only 2 positions in HR, 2 in ICT, 2 in Procurement and 1 in Legal officers. Other high priority areas, such as Residential (On-site) and Online training activities, Research and Science, Policy Cycle priorities are understaffed; other areas such as Security, Asset management DPO, Logistics, Document management & Archiving have no dedicated staff at all and are – at best – taken up by other staff members as part of their regular activities. Also the grading of these and other staff members is (too) low compared to both their responsibilities and to grading for similar responsibilities in other EU Agencies.

CEPOL monitors the efficiency and effectiveness of the agency through the use of Key Performance Indicators. The use of KPIs enables CEPOL's Management to assess the performance of the agency and to ensure that the required qualitative and quantitative targets are met and maintained.

The Agency's performance indicators demonstrate that CEPOL exceeded its activity implementation targets, whilst constantly achieving outstanding levels of satisfaction with its activities (satisfaction rate in 2018 - 94%). The quality of CEPOL's output depends on the agency's ability to work effectively, and the achievements of the last years are built upon the agency's ongoing drive to operate effectively and efficiently. Further evidence of the agency's enhanced efficiency is the reduction in the unit price of its training. In 2017 the number of participants increased by 32% compared to 2016, while in 2018 by 22% compared to 2017; all this has been achieved with operating budgets which remained largely unchanged.

### Participation in CEPOL activities 2009-2020\*

\* Participation includes residential (on-site) activities, online activities (webinars, online courses, online modules, Virtual Training Centre, webinar series), the CEPOL Exchange Programme, CT2 MENA Programme and the Financial Investigations – Western Balkan Programme

\*\* 2019 figures include 611 participants trained during activities carried forward from 2018, 2020 figures are planned lower due to COVID 19

#### D) Negative priorities/decrease of existing tasks

CEPOL's resources for 2020 as indicated in the Draft Budget 2020 by the Commission are insufficient for the Agency to deliver fully on the mandate which entered into force on 1 July 2016. For eight years in a row, the outreach of CEPOL has increased: number of participants has grown from ca 18,000 in 2016 to ca 29,000 in 2018, which represents an increase of 61% already in the last 3 years and reflects exploding demand and necessity for the trainings that the Agency delivers. Due to insufficient resources, this demand could be only followed by increasing the online learning component, which did not entirely satisfied the need of the stakeholders. The number of tasks assigned to the Agency and its stakeholder expectations continue growing, which CEPOL was not/will not be able to satisfy due to the discrepancy between the enhanced mandate and the available limited financial and human resources, just to name a few.

Consequences for CEPOL's work programme for 2020 include the following:

- addressing whole law enforcement community as per CEPOL's mandate will be not possible, so far it is only possible to a limited extent (e.g. outreach to customs is disproportionally low, e.g. taking the Exchange Programme as an example: 72% participants in 2018 came from the police forces vs 6% from the customs authorities);
- Residential (on-site) activities will be scaled down. In 2020 due to the COVID-19 crisis alone, majority of residential activities had to be cancelled. Similar cancellation of activities for 2021 cannot be excluded;
- 54 valid and legitimate training requests of the Member States had to be refused in the phase of training needs analysis and will not be implemented in 2020, among those - courses on law enforcement leadership, facilitated illegal immigration, hate crimes, disaster victim identification, money laundering, Train-the-Trainers SIRENE and other politically crucial topics;
- Without sufficient resources the Agency will not be able to meet the demand in CEPOL Exchange Programme (CEP). In 2019 CEPOL received a record high number of applications (ca 1000) to the Exchange Programme, however, (even with the contribution from partner

agencies' budget for exchanges, e.g. Frontex), it will be able to accommodate only 30% of this demand with its own human resources; high demand is also expected in 2020;

- Without sufficient resources the Agency will not meet the demand in cybercrime activities addressing emerging developments in this area, e.g. course 'Bitcoins and cryptocurrencies' received 73 nominations, but could host only 33 participants, declining 55% of the applicants due to the limited resources;
- Additionally CEPOL will be not able to correspond to the growing demand for training in light of the new IT systems, as well as the reinforced Schengen Information System, that is the main tool for law enforcement authorities to exchange information, where the Agency did not get any resources to ensure that the Member States can successfully be trained in the use of the new tools;
- The interoperability package of EU information systems for security, border and migration management foresees only 40,000 EUR for training preparation and delivery by CEPOL (additionally to 104,000 EUR for staff expenditure) in 2020. This amount can cover an implementation of 1 generic residential (on-site) activity prepared based on a template and is categorically insufficient to develop new thorough training material describing the complexity of the interoperability package and its impact. The quality of such a training, its further dissemination by the trainers, and subsequent application of the received knowledge by the end users would be at stake, hence not reaching the initial goal of the legislative proposal and leading to a significant weakness in the security systems of the Union. In order to avoid this situation, the importance of training and the resources necessary for its development should be reassessed;
- Without sufficient resources several areas where training shall be delivered in accordance with the EU Strategic Training Needs Assessment will not be addressed by CEPOL in the domains like Corruption, Excise fraud, Fundamental rights;
- In 2019, a newly established CEPOL Cybercrime Academy (CCA) has become fully operational, this highly demanded development was possible only because of additional funding of 1.2 million euros that was received by the Agency from the European Commission in December 2018. In order to further maintain the state of the art equipment, develop it further to be competitive with the in the cybercrime training realm and meet the expectations of the European and international stakeholders, CEPOL will need to reallocate its budget towards this project, deprioritising other, however not less important, thematic priorities. The agency also is not able to attract new cybercrime experts to conduct an increased number of activities;
- Without sufficient resources, it will be very difficult to make meaningful advancements in the field of certification, accreditation and mutual recognition of law enforcement training in Member States and the recognition by Member States of training provided at Union level.

In addition to the consequences of the discrepancy between the budget request of the Agency and the amount foreseen in the draft budget as adopted by the Commission, CEPOL faces additional challenges. These challenges are caused, inter alia, by increased costs outside of CEPOL's control, such as the increasing costs of travel for participants in our training activities.

#### E) Redeployment:

CEPOL uses the instrument of redeployment as a general rule in case where vacancies come into existence: before publishing a vacancy a business case is drafted by the responsible line manager. This business case includes *inter alia* a job summary and key accountabilities. The business case is routed via both the head of Corporate Services and the head of the Operations department for comments/approval before the Executive Director (ED) will approve (in which case the recruitment procedure will start) or not (in which case the ED will make comments indicating what shall be done with the vacancy).

Redeployment can also happen in case staff returns from leave on personal grounds and the original position is no longer available. In such case, management and staff member will discuss the best possible place in the organisation, taking in consideration the needs of the agency and the skills/qualities of the staff member.

As CEPOL is at present operating at a deficit of required posts, any more significant redeployments would mean that elsewhere in the organisation significant deficits of staffing would be created.

### *Conclusions on evolution of resources*

In order to implement the consequences from the operational and administrative considerations outlined above, it will be necessary for CEPOL to obtain a significant increase in resources - which nevertheless would represent a modest effort when compared to the magnitude of resources attributed to other EU agencies in the JHA family.

## Section III – Work Programme 2020

### *Executive summary*

This section outlines the specific objectives that aim to contribute to the realisation of CEPOL's strategic objectives. These are encompassed under activity areas and they include expected outputs, results and indicators.

In 2020 the following programming principles shall continue to apply:

- (1) CEPOL will continue to support key EU security threats as mandated by the Institutions, and shall continue to cover the spectrum of the EU policy cycle, while striving to cover the whole panoply of thematic competences attributed to the agency by its legal basis;
- (2) CEPOL's programming will be informed by Strategic and Operational Training Needs assessments and analyses;
- (3) The number of activities delivered directly by the agency shall potentially grow along the trend observed in recent years, in response to emerging threats and growing institutional demand;
- (4) Further efforts will be made to enhance the multi-disciplinary nature of CEPOL activities by encouraging the participation of wider law enforcement professional target groups;
- (5) Further efforts will be made to go towards enhancing the value of CEPOL's training activities by means of certification and accreditation.
- (6) Challenges that arose due to the COVID-19 crisis will be addressed by re-focusing the Work Programme to enable (1) to enhance further CEPOL's cybercrime-related services, with a special focus on the Cybercrime Academy and related e-learning dimension, (2) becoming the EU's law enforcement e-learning support hub, (3) enhancing further digitalisation of CEPOL.

The action of CEPOL in 2020 shall follow the below thread:

- (1) Enhanced use of evidence-based training needs assessment for the definition and design of CEPOL's portfolio;
- (2) Evaluation of the EU-STNA 2018-2021, review of the EU-STNA methodology based on the recommendations of the evaluation and launch of EU-STNA 2022-2025;
- (3) Further attention to the issue of quality management, with a view to offer ever-increasing qualitative learning to the law enforcement community in Europe and beyond, particularly by working on the issues of certification, accreditation, evaluation and blended learning;
- (4) Continued attention to covering the entire spectrum of Serious Organised Crime focussing on EMPACT priorities, with enhanced delivery in the area of Cybercrime;
- (5) Continued high attention to the issue of Counterterrorism in coordination with Europol's European Counterterrorism Centre and Member States' Counterterrorism units;
- (6) Redefined attention to the Union Missions and Public Order;
- (7) Expand its operations in the area of the Western Balkans to support countries with an EU accession perspective, and continue to support partnerships with third countries by allowing participation to CEPOL activities via external projects ;
- (8) Continue to be in line with the standards expected from an EU public administration entity in line with the principle of service orientation, efficiency, modernisation and sound management.
- (9) Commits to the protection of human rights and fundamental freedoms by increasing law enforcement officials' awareness and skills in addressing specific fundamental rights challenges, and also by generally contributing to the development of a fair and human rights-compliant law enforcement culture.

**Assumptions for 2020<sup>51</sup>**

As at this point in time planning for 2020 depends on many variable, the following assumptions have been made when drafting the planning for 2020:

Human resources:

- 33 Temporary Agent posts

Operational facts:

- CEPOL will not be granted the requested 12 million EUR budget and 59 FTE (excluding interims)
- CEPOL CT 2 will continue to run in and CEPOL FI 2 is extended to March 2020, therefore are planned with resources

Operational assumptions:

- Evaluation of the EU-STNA and subsequent methodology review will be conducted
- New EU-STNA 2022-2025 will be launched
- Operational Training Needs Analyses will be conducted in 4 new thematic areas
- EQF Expert Group will recommend to implement EQF to all training activities provided by CEPOL
- Alternative, future looking business model (maybe based on CKC pilot phase) will be implemented

<sup>51</sup> Applicable during the planning phase in year N-1 and year N

## ***Goal 5: CEPOL is an efficient and effective organisation promoting digital development<sup>83</sup>***

### *Activity 5.1 Governance, Administration and Stakeholder Relations*

#### ***Overview***

In 2020 horizontal and support activities will – as is to be expected – fully support operational activities in all aspects. In order to be able to do at a qualitative and quantitative level similar to the expected operational output, it will be necessary to significantly increase the resources allocated. Both human resources (at qualitative and quantitative level: more post at a higher grade) and financial resources (to cover additional staff costs and additional cost in running the organisation, especially ICT) will have to be increased.

Besides upgrading of positions that are – on the basis of current grading - significantly undervalued (e.g. highest graded Procurement Officer is an AST3/AST4 position), it will be necessary to add human resources to a variety of fields such as, but not limited to, ICT (to support the increased (cyber) activities), Legal (to be able to deal with the increased workload related to e.g. GDPR), RELEX (increased need for stakeholder management with the Member States, 3<sup>rd</sup> States as well as EU and international organisations), Security (implementation of a security regime dealing with EU Classified Information) and Document management/archiving (CEPOL will be obliged to deal with obligation stemming from the Council Regulation on Archiving) or Communications – to achieve this, the preparations for ARES implementation will start in 2020.

#### *New developments*

- ISO 9001 certification will be maintained via certificate renewal audit and options for extending the certification to other processes will be explored

## Training activities offered for grants and related online activities implemented by CEPOL

Due to the COVID-19 situation, Framework Partners were offered a possibility to organise an online course on the same subject instead of a cancelled residential (on-site) activity that was subject to a Grant Agreement between a Framework Partner and CEPOL. Online courses, however, cannot be implemented under the same Grant Agreement for the organisation of a face-to-face / residential activity, therefore the original Grant Agreements with Framework Partners that are

<sup>119</sup> Converted online format due to COVID-19 as per MB Decision 25/2020/MB

not able to implement residential activities were cancelled. Framework Partners were informed that an online course can be implemented, keeping in mind that CEPOL cannot outsource this activity. Some activities falling under a cancelled grant agreement were taken over by CEPOL to be implemented in-house.

### *3. Evaluation of the applications*

The assessment of the eligibility of the submitted applications was performed by an independent Opening Committee while the evaluation of the applications were carried out an independent Evaluation Committee, appointed by the Executive Director of CEPOL. The Evaluation Committee was assisted by a member of CEPOL staff providing purely administrative support and having no voting rights. No observers were admitted during the assessment of eligibility and evaluation process.

#### Opening Committee:

The Opening Committee examined the eligibility of the applications in comparison with the set criteria

#### Evaluation Committee:

The Evaluation Committee screened the applications in comparison with the awarding criteria

### *4. Budget available and form of financing*

The **total maximum budget** earmarked for the financing of projects financed under the present Call was **EUR 1,707,880.00** (one million seven hundred and seven thousand eight hundred and eighty Euros). CEPOL will finance no more than 95% of the total eligible costs of an activity.

In addition to the 59 activities, 6 residential (on-site) activities were also offered for grant applications as reserve activities with the total value of EUR **175,440.00** (one hundred and seventy-five thousand four hundred and forty Euros). These reserve activities will be implemented via grants only if financial resources are available in 2020.

## *5. Eligible applications*

### **5.1 ADMISSIBILITY REQUIREMENTS**

- Applications **dispatched or delivered in hand by 18 October 2019** to the correct address
- Applications must be submitted in writing, using the following documents: application form, financial proposal form, declaration on honour forms, and if applicable, the originals or copies of partnership form.
- Applications must be submitted using the double envelope system in order to guarantee the confidentiality and integrity of data.
- Applications must be submitted in English

### **5.2 Eligible applicants**

**Participation in the Call are restricted to the Framework Partners of CEPOL<sup>122</sup>** for the period 2017-2020. Framework Partners applied either individually or in a consortium of Framework Partners. It is noted that consortia were encouraged to apply for implementing the sets of activities.

In the event of an individual submission, the submission of the application and all the other required documents were performed by the Framework Partner or a mandated supervisory entity as long as the latter was indicated in the Framework Partnership Agreement signed in the Call for Framework Partners.

In the event that an application was submitted by a consortium, dully filled and signed Partnership Forms were required<sup>123</sup>. The leader of the consortium was responsible for the submission of the application and all the other required documents. Partners could not withdraw their participation from a consortium from the moment the grant was awarded to the consortium and the grant agreement has been signed. Withdrawal was possible at any other stage prior to the signature of the grant agreement.

---

<sup>122</sup> See list of Partners on the website of CEPOL on the basis of the Decision of the Director of CEPOL on the “Call for Framework Partners to implement CEPOL training activities and learning products in 2017-2020” (02/2016/DIR) adopted on 22 January 2016.

<sup>123</sup> At the time of application scanned copies were acceptable, but original Partnership Forms must be received by the Agency before a grant agreement was signed.

### 5.3 Eligible activities

The type of activities eligible under this Call refers to the activities as described in the Training Catalogue 2020.

### 5.4 Declaration of honour

Applicants signed a declaration on honour certifying that they are not in one of the situations referred to in articles 106 and 107 of the EU Financial Regulation.

## 6. Selection criteria

The selection criteria assessed the applicant's ability to complete the proposed action or work programme (i.e. the financial and operational capacity of the applicants). Applicants have the professional competencies as well as appropriate qualifications necessary to complete the proposed action. In this respect, applicants had to submit a declaration on honour

## 7. Award criteria

The awarding criteria allow the evaluation of the quality of the proposals in relation to the objectives of the call. Received applications were assessed on the basis of the following criteria:

1. Activity concept	– maximum points 20
2. Content details	– maximum points 40
3. European dimension	– maximum points 10
4. Learning environment	– maximum points 20
5. Cost effectiveness	– maximum points 10
<b>Total</b>	<b>– maximum points 100</b>

The evaluation was done in two stages: firstly, the Evaluation Committee evaluated the first four criteria listed under the awarding criteria.

Only applications that reached the threshold of 70 points (out of 90) were then evaluated for cost effectiveness. In the context of assessing the cost effectiveness, applications below the threshold of at least 5 (out of 10) points were rejected.

Budget flexibility clause: An application was considered valid with a financial bid of maximum 10 % higher than the indicated maximum budget of the activity if the extra costs above the maximum budget were exclusively attributable to the introduction of an innovative educational element that could not be covered within the regular budget of the activity. The budget flexibility clause was established in order to ensure that applicants with innovative but costly improvement ideas are not excluded from the grant application mechanism. Please note that this budget flexibility

component cannot be used to cover regular costs (e.g. accommodation, meals, networking event). In case of the use of budget flexibility clause the applicant had to attach a note to the financial proposal providing a detailed explanation about the nature of the innovative educational element and its costs estimate. Applications with this budget flexibility element – if the required explanation was provided in sufficient detail – were awarded 5 points for the financial bid and were not disqualified.

The points for the financial bid were awarded as follows:

- 5 points: 0%-5% less than the maximum budget available or flexibility clause (see above) ;
- 7 points: 5%-15% less than the maximum budget available;
- 10 points: more than 15% less than the maximum budget available.

For sets of activities, the above-mentioned two-stage evaluation is to be done by taking into account the average result for all activities within the set and the total budget for all activities respectively.

An application was proposed for a grant by the Evaluation Committee provided the application:

- has reached the threshold of at least 75 points **and**
- has the highest rating within a group of applicants for the specific activity/ies.

Due to the planned high business volume in the field of cyber activities in response to the needs of Member States and the EU, the assignment of a CA post to cyber activities of CEPOL became necessary. Upon a job market analysis, a CA FG IV post was identified to be required to deliver the necessary quality and quantity of the cyber portfolio. As a permanent and structural upgrade, the reallocation of an existing CA FG III post to FG IV has been carried out as per MB Decision 03/2020/MB of 4 March 2020.

The entries in the tables above are based on the project plans developed for the different projects. However, it has to be noted that, if CEPOL is not successful with the recruitment of Contract Agents or in case of resignation of recruited CAs, a switch to SNEs/interims will be implemented. This will be

necessary in order not to jeopardise the successful implementation of the projects. Similar has happened in 2016/2017 with the CT MENA project. This project foresaw the recruitment of 4 contract agents but on 1 October 2017 the project was manned by 2 contract agents, 2 SNEs and interim staff member.

## *Annex IV – Human resources qualitative 2020-2022*

### **Recruitment Policy**

CEPOL will update its Recruitment Guide (in force since February 2017<sup>151</sup>) to ensure alignment with the newly adopted model decision on the engagement of Contract Agents under article 3(a) of the Staff Regulations (CA3a). This Implementing Rules contains – similar to the Implementing Rules on engagement of Temporary Agents under article 2(f) of the Staff Regulations (TA2f) – an annex outlining the framework for recruitment of CAs.

### *Type of key functions*

As CEPOL is a lean organisation, all positions have to be considered as key functions. The table below gives an example of some positions and their grades.

<sup>151</sup> Decision 09/2017/DIR of 12 February 2017

In 2019, CEPOL adopted the Implementing Rules on types of posts and post titles. Any future vacancies will follow the nomenclature as laid down in this decision.

### *Selection procedure*

All Temporary Agents and Contract Agents are recruited via formal selection procedures according to the CEPOL Recruitment Guide. CEPOL's current external selection procedure which is applicable to both temporary agents and contract agents is based on the following principles:

- Development of a business case to decide on the need to fill a position or to re-allocate a position that will come available.
- Development of the vacancy notice and (amended) job description.
- Publication of a vacancy notice on CEPOL's website and on the EPSO website, indicating eligibility and selection criteria, indicating type and duration of contract as well as the recruitment grade.
- Appointing a selection panel; a representative from HR will in all panels be present as secretary and to ensure compliance with the recruitment policy. When justified by the level (panel members need to be employed at the same or a higher grade) or the required expertise of a post, one or more external members to the recruitment panel can be appointed. For each recruitment procedure, the Staff Committee is invited to nominate one staff member to represent the Staff Committee; this is not necessarily a member of the Staff Committee itself.
- Pre-selection of candidates by the selection panel on the basis of required documents, permitting the evaluation of defined application eligibility and selection criteria.
- Interview of candidates by the selection panel on the basis of pre-determined competency based questions covering the specific competencies in the area of expertise, knowledge of European Institutions, general aptitudes and language abilities as outlined in the published vacancy notice. A written assessment test is set for each.
- The selection panel proposes a list of suitable candidates in a report sent to the Executive Director acting as Authority authorised to conclude contracts respectively.
- The Executive Director acting as Authority authorised to conclude contracts makes the final selection from a list of suitable candidates.

### *Entry grades*

CEPOL applies Management Board decision 06/2019/MB of 22 May 2019 on types of post and post titles. However, a number of posts at CEPOL have been established before this decision and it will therefore not be possible to fully apply this decision with immediate effect. Background for

this is that until 2016, CEPOL did not have a reclassification instrument in its HR tool box. With the first reclassification exercise in 2016 it also became clear that only a limited number of Temporary Agents can provide proof of a third language ability at level B2 as laid down in the reclassification decision. In the establishment plan for 2016 and following years, the Agency started to create room in the grading to align the entry grades with the Commission decision.

AST	Assistants	AD	Experts, Managers, Directors		
		16

8		8			
7	Assistant	7			
6	(Assistant, Support Officer etc.)	6			
5		5

3					
2					
1					

Wherever possible CEPOL will have to recruit – especially in operational positions, due to competition with Frontex and Europol – in grades above the standard entry grade. This is especially the situation for operational positions where CEPOL aims to attract staff with 10 to 15 years' experience. In order to attract staff from Western and Northern European countries we would have to offer at least AD8 as with lower grades these candidates would earn less at CEPOL than in their home organisation.

Managers provide operational or administrative management in support of the implementation of the CEPOL mandate. They are responsible and accountable for the delivery of expected outputs in respect of the CEPOL Strategy and associated planning and the Annual Work Programme whilst ensuring sound financial management and supervision of their respective departments/units as applicable. To date the post of the Executive Director is graded at AD14, Heads of Department posts at AD12 and Heads of Unit at AD 10.

Administrators are staff requiring specific expertise and/or having a particular function contributing to the delivery of tasks, projects or coordinate complex sets of activities and financial and human resources under the authority of a Senior or Middle Manager. Typically and in comparison with other EU agencies and the European Commission these non-entry-level posts would be filled by Temporary Agents with a grade AD6 – AD8. However, at CEPOL due to historical reasons officers having high level specialisation in various fields have a grade AD5.

Assistants provide support in the implementation of the Annual Work Programme, drafting of documents and assistance in the implementation of policies and procedures in following the instructions of line management. An Assistant may also provide specialised assistance in financial or human resource management activities. Assistants play a supporting or service role in operational, administrative tasks under the supervision of a Senior Assistant and or a higher level function.

### *Length of contracts*

As a general rule CEPOL issues initial contracts to Temporary Agents for a 5 year period. These initial contracts can be renewed once for a fixed term up to 5 years; any subsequent renewal will be for an indefinite period.

CEPOL has adopted the model decision on the engagement and recruitment of Contract Agents according to Article 3a of the Staff Regulation. At CEPOL, Contract Agents are used in mainly two different types of activities:

- 1) Contract Agents provide support to operational and administrative activities;
- 2) Contract Agents implement externally financed capacity building projects.

In principle the 2<sup>nd</sup> function should be performed by Temporary Agents. However, engaging TAs would entail an amendment of the establishment plan to be approved by the Budgetary Authorities and the delay in this process would also lead to significant delays in the start and implementation of the project. The size of CEPOL is here a clear factor as (much) bigger agencies can 'play' around with assigning TAs on temporary basis to an externally funded project while amending their establishment plan.

Recruitment for Contract Agents follows the same process as outlined under temporary agents; after a successful procedure the selected candidate will be offered an initial contract for 5 years, renewable once for a fixed term of maximum 5 years. Any subsequent contract renewals will be for indefinite period. Candidates recruited for the externally funded projects will be offered a contract that is linked to the duration of the project for which they will be engaged. It is made very clear that their engagement is linked to the project and that there is no obligation from CEPOL's side to continue employment after the project is finalised.

The model decision on the implementing rule for reclassification of Temporary Agents 2(f) has been adopted by the CEPOL Governing Board on 25 May 2016<sup>152</sup>. CEPOL aims at maximising the number of staff to be reclassified in each given year; however, at present the main obstacle is that only a limited number of staff are eligible for reclassification as most staff lack evidence on the ability to work in a 3<sup>rd</sup> Union language.

The model decision on the implementing rule for reclassification of Contract Agents 3(a) has been adopted by the CEPOL Governing Board on 25 May 2016<sup>153</sup>. In 2016 only a limited number of staff members were eligible for reclassification. A large majority of staff members didn't have

<sup>152</sup> 14/2016/GB (25 May 2016)

<sup>153</sup> 15/2016/GB (25 May 2016)

sufficient years of seniority in the grade. CEPOL's GB has approved in October 2015 the model decision on the Implementing Rules for appraisal of Temporary Agents and Contract Agents under articles 43 and 44 of the Staff Regulations.

Each member of the CEPOL staff has an agreed individual activity plan including training possibilities which is drawn up at the beginning of the year laying down the objectives and the indicators of the staff member in relation to the Work Programme. An individual's appraisal is then scheduled according to their start date and end of probation for bi-annual review on the basis of the performance indicators of the activity plan.

## **Mobility policy**

### *Internal mobility*

On 16 October 2015 the CEPOL Governing Board adopted the general implementing provisions on the procedure governing the engagement and use of temporary staff<sup>154</sup>. This decision clearly states the different options for filling a post, including internal mobility. As from this date, vacancies for temporary agents have been opened internally for staff member in the grade bracket of the vacancy. So far, no staff members have used this tool for internal mobility.

### *Mobility between Agencies*

The same decision as mentioned above also lays down an option for interagency publication of a post. CEPOL is consistently opening Temporary Agent positions also for the interagency job market. Yet as a result of the relative low grades as mentioned before and the negative correction coefficient, CEPOL has not received applications from the interagency job market.

However, we have received 'external' applications from candidates currently working for other Agencies but in a grade outside the bracket in which the position has been opened. Some of these have been successful, but they cannot be counted in the statistics related to the interagency job market.

### *Mobility between the Agencies and the institutions*

CEPOL has been successful in recruiting experienced staff from other agencies and institutions. Approximately 40% of staff recruited in 2018 – review joined from other agencies or institutions. Another 20 percent was already engaged by CEPOL as interim or SNE. On the other hand, it should be noted 80% of staff leaving (5 out of 6) – review have found employment with other institutions or Agencies.

---

<sup>154</sup> 26/2015/GB of 16 October 2015

## Gender and geographical balance

At present (1 October 2020) there is a reasonable gender balance in CEPOL. The ratio between man and women employed by CEPOL is 39 / 62 including staff working on projects. This difference is largely related to contract agents where the ratio is 13 / 31 and Interim staff (13 / 5) (men / women) .

Women are well represented at all grades including at management level. The CEPOL management team (Executive Director, Heads of Departments, Heads of Units) consists of 3 women and 3 men.

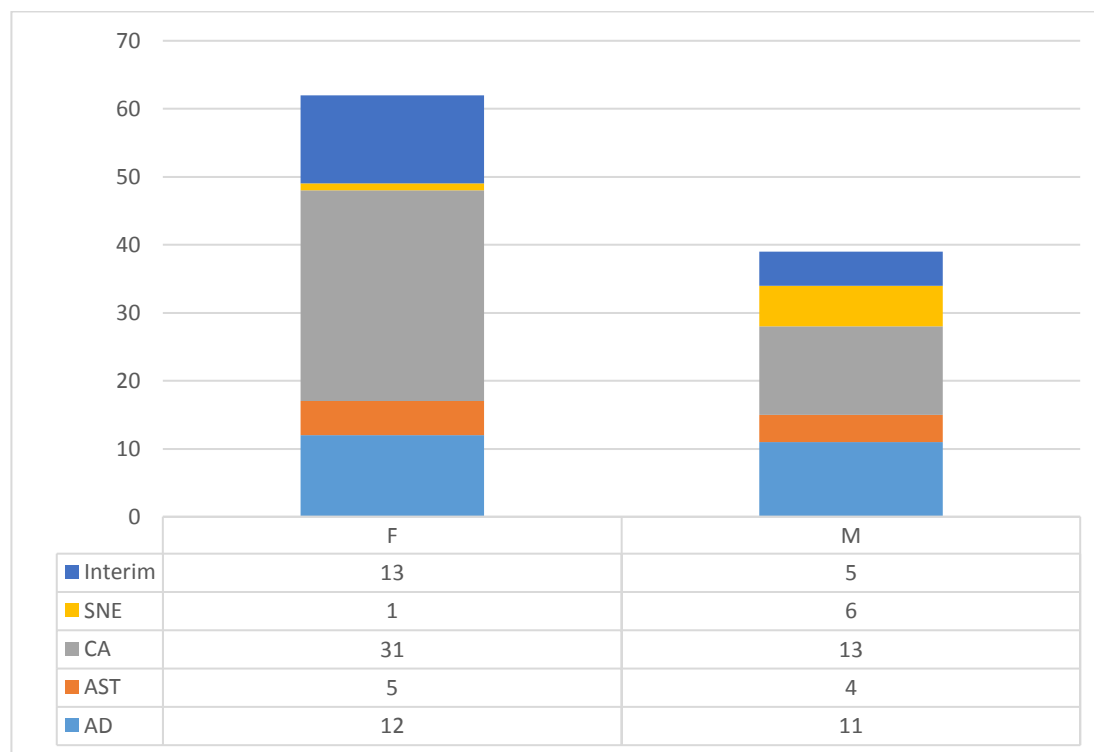

Figure 1 - Gender balance (01/10/2020)

As expected, an overrepresentation of the Host Member State nationals started to develop in recent years. At present (1 October 2020) there are 34 Hungarians working for the agency (excluding interims): 41%. Other nationalities (20 other nationalities are present in CEPOL) are relative equally distributed with a maximum of 11 (Romanian) nationals from one Member State.

Currently (on 01/10/2020) CEPOL doesn't employ staff from Cyprus, Czechia, France, Ireland, Luxembourg, Malta and Slovenia.

CEPOL's recruitment is based on a fair and open competition regardless of race, political, philosophical or religious beliefs, sex or sexual orientation, disability or age and without reference to marital status or family situation. Selection committee members do not see nationality, gender and age of candidates during the short-listing of candidates. CEPOL strives to ensure geographical balance in all its recruitment selection panels.

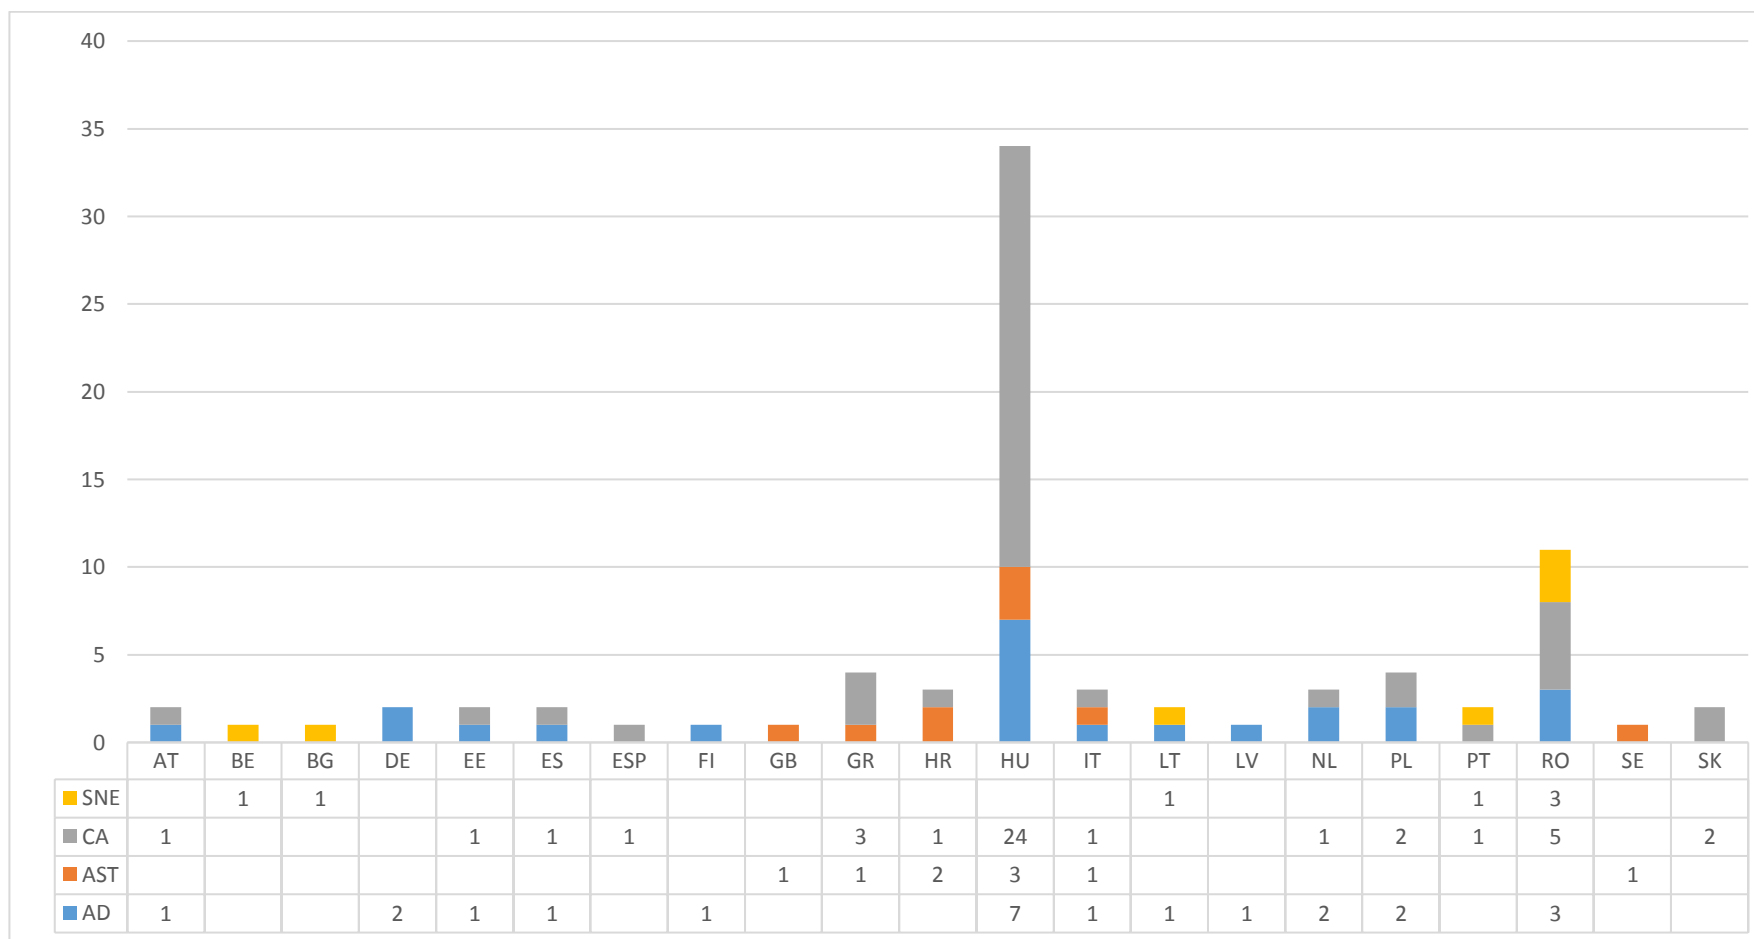

Figure 2 - geographical balance (01/10/2020)

## Schooling

There is no European School in Budapest or at a reasonable distance from Budapest. Also, there is no European section in a national school. On the basis of current information, this situation is not foreseen to change in the coming years.

This would lead to the situation where staff members of CEPOL are disadvantaged for not being able to avail their children with education in their mother tongue compared to staff members of other EU institutions and bodies where there is a European school close to their place of employment.

It would also be extremely difficult to promote geographical balance among the staff of the agency if there would not be a facility to provide schooling of the children of staff in a different language than Hungarian.

Based on these considerations, the CEPOL Management Board decided that CEPOL shall pay the school fees. As a consequence, the school shall be considered as non-fee paying and the staff member concerned shall not receive the education allowance provided for in Article 3 of Annex VII of the Staff Regulations. The costs covered by CEPOL shall be:

- a. The registration and attendance fees
- b. The transportation costs.

All other costs are excluded, in conformity with Commission decision C(2004)131-53-2004 on general implementing provisions for the grant of the education allowance.

## Annex V – Building policy

Hungary also covers utility fees, maintenance of the building, security and reception services. However, CEPOL pays for telephony and internet services.

### Building projects in planning phase

As the CEPOL staff numbers (including staff contracted for projects granted to CEPOL, interim staff as well as staff made available by the Hungarian authorities, such as receptionists, security, building maintenance and cleaning) has surpassed the maximum as originally foreseen for the building. Initial discussions with the Hungarian authorities on possible measures to increase the capacity of the building were initiated at the end of 2017. These discussion have continued in 2018 and 2019; it is expected that in the last trimester of 2019 more clarity will be provided by the Hungarian authorities about their possibilities to offer a more suitable premises to CEPOL, a possible timeframe for this and about the conditions attached to such offer.

In 2018 CEPOL has rented office space close to its Headquarters to accommodate (operational) staff related to the externally financed projects. The expenditure related to the rental is entirely financed through the projects, which are sharing the costs proportionally.

As from 2019 our Hungarian partner (the International Training Centre of the Hungarian Police – NOK-ITC) has made available space for the CEPOL Cybercrime Academy (CCA). This space contains 1 to 4 class rooms and a server room. The space is made available for free based on a MoU between the NOK-ICT and CEPOL.

CEPOL has rented an office in Brussels for the liaison bureau as a pilot project.

*Building projects submitted to the European Parliament and the Council*

CEPOL Management has set up a channel of communication with the Hungarian authorities to investigate the possibilities for a new headquarters with additional functionalities and capacity compared to the current building.

At this moment it is not possible to quantify if and how much of a financial contribution from CEPOL's own budget would be necessary for the realisation of any of the offers currently on the table or possible other options that have not yet been discussed.

## *Annex VI – Privileges and immunities*

### **Agency privileges**

**CEPOL can request the reimbursement of incurred VAT in line with the HQ agreement signed and the applicable Hungarian regulations**

### **Privileges granted to staff**

#### **Protocol of privileges and immunities / diplomatic status**

CEPOL staff, with the exception of Hungarian nationals are issued a special identity card, similar to those issued for members of diplomatic corps of the Member States of the EU in Hungary.

They are entitled to enjoy the privileges and immunities, exemptions and facilities granted by Hungary to members of the diplomatic corps of the Member States of the European Union in Hungary.

The Protocol of privileges and immunities applies to the Executive Director of CEPOL and the staff of the Agency, with the exception of staff seconded from the Member States and Hungarian nationals.

CEPOL staff are entitled to reimbursement of VAT, in accordance with the relevant rules foreseen for resident officials of international organizations in Hungary, up to 300.000 HUF of value of VAT/year during the first 2 years of employment in Hungary.

CEPOL staff – with the exception of Hungarian nationals – are entitled to import from their last country of residence, or from the country of which they are nationals, free of duty and without prohibitions or restrictions, within 12 months from the date of establishment of normal place of residence in the customs territory of the European Union, furniture and personal effect, including motor vehicles, which shall be registered under diplomatic plates.

#### **Education / day care**

There is no European School in Budapest or at a reasonable distance from Budapest. Also, there is no European section in a national school. On the basis of current information, this situation is not foreseen to change in the coming years.

The CEPOL Governing Board decided that CEPOL shall pay the school fees. As a consequence, the school shall be considered as non-fee paying and the staff member concerned shall not receive the education allowance provided for in Article 3 of Annex VII of the Staff Regulations. The costs covered by CEPOL shall be:

- The registration and attendance fees
- The school transportation costs.

All other costs are excluded, in conformity with Commission Decision C (2004)131-53-2004 on general implementing provisions for the grant of the education allowance.

## *Annex: VII – Evaluations*

### *Internal Evaluation*

Key Performance Indicators (KPIs) are used to evaluate the overall success of CEPOL, Performance Indicators (PIs) are in place to evaluate the success of a particular activity in which CEPOL is engaged. All KPIs and PIs are assigned targets, and linked to the Agency's strategic goals and objectives. An important measure is the overall customer satisfaction with training activities provided by CEPOL.

The evaluation of training activities is an essential task for CEPOL to monitor and maintain the quality of training and its impact. CEPOL's evaluation system is based on the Kirkpatrick model, with a methodology specifically adapted to CEPOL's structure and environment. The methodology was last updated in 2016 and includes the following steps of Kirkpatrick's model: level 1 (immediately after residential (on-site) activities, webinars, and the CEPOL Exchange Programme exchanges and study visits), level 2 (assessment of acquired knowledge – testing – applied for selected residential (on-site) activities and online courses) and at level 3 (post-course evaluations take place after residential (on-site) activities only). Post-course evaluations are carried out on both participants and their line managers approximately six months after an residential (on-site) activity has finished.

Decision 12/2016/GB on CEPOL training evaluation methodology presents a modernised evaluation system validating new evaluation templates and outlining the framework of the gradual introduction of testing.

### *External Evaluation Updated*

The way CEPOL operate is evaluated every five years by an independent external evaluator for its utility, relevance, effectiveness and efficiency and its working practices. The main aim of the evaluation is primarily the improvement of the quality of training.

In 2015 CEPOL underwent its second five year evaluation. The external evaluator has assessed the Agency as being efficient and effective. This conclusion is supported by evidence of an increased number of activities implemented by CEPOL over the evaluation period, against a relatively stable number of resources put at its disposal for the same period. Moreover, a comprehensive set of recommendations is also put forward by this study. The Governing Board in its meeting on May 2016 has adopted the last five-year external evaluation and has issued 17 recommendations regarding CEPOL's working practices. Implementation of these recommendations are monitored and reported at each Management Board.

Since the new regulation of CEPOL (No 2015/2219) came into force, the first five year evaluation and review is foreseen as per Article 32 of CEPOL regulation in 2021. This evaluation will be budgeted and carried out by the European Commission.

All CEPOL's evaluation reports are available on its website by following the link: <https://www.cepola.europa.eu/who-we-are/key-documents/evaluation-reports>

At the end of 2016, the Agency's Management System has been assessed by an independent accredited body Lloyd's Register (LRQA), and found in full compliance with the ISO 9001:2015 requirements. The Agency's Management System has been assessed by an independent accredited body Lloyd's Register (LRQA), and found in full compliance with the ISO 9001:2015 requirements.

The certificate was originally issued on 2nd February 2017 and its scope was extended on 4th February 2019 to e-Learning services: 'Management of the Law Enforcement Residential Activities, Exchange Programme and Online Courses, Modules and Webinars: support, develop, implement and coordinate training for law enforcement officials'.

The CEPOL's Management System will continue to be audited each year to ensure that compliance with internationally recognised quality management standard ISO 9001:2015 is being maintained.

In 2019 CEPOL will start the preparations to renew the ISO certification, therefore in 2020 we expect to have the same certification to be valid, as in the previous years.

## Annex VIII – Risks

Risk assessment is part of the annual programming cycle, when a detailed Risk Register and corresponding mitigating actions are agreed within the Agency. During the year all processes that are part of a risk assessment are described and managed accordingly by process owners to ensure that mitigating actions are implemented according to plan, risks continue to be relevant and are in line with management's acceptable risk level.

From 2020 on, CEPOL keeps track of risks on two levels:

- Corporate level: overarching risks of organisational importance (affecting all departments/units), which are part of the SPD as an annex and shall be monitored at top management level
- Objective/Process level: risks with limited effect, shall be monitored at head of unit or process owner level (in terms of mitigation action to be taken), not part of the SPD but listed in a separate quality document

For its risk assessment CEPOL uses the principles referred to in the Implementation Guide of the "Risk Management in the Commission", as well follows the template used by JHA agencies.

The following were identified by the Management as critical corporate level risks either due to its nature or because the combination of their impact and likelihood is high:

Ref	Brief risk description	Mitigating actions	Risk type
1	<p><b>Risk encountered due to COVID pandemic, that may jeopardise business continuity and service delivery by CEPOL.</b></p> <ul style="list-style-type: none"> <li>- Non-achievement of KPI targets related to the implementation training activities (both TRU &amp; projects)</li> <li>- Major wave of cancellation of granted activities with Framework Partners for 2020 (and 2021), causing administrative work &amp; underspending</li> <li>- Staff allocation/rostering issues stemming from telework and shift from residential to e-learning activities</li> <li>- Many postponed in-person activities will be clogging up in late 2020, which may be difficult to implement due to limitations of human resources</li> <li>- Significant underspending and not achieving the required budget implementation for 2020 leading to penalty for next year budget</li> </ul>	<p>Threat – Reduce</p> <ul style="list-style-type: none"> <li>- business impact assessment and decision on priority list of critical activities mandatory to continue (documented via disaster recovery and business continuity plan)</li> <li>- activate extended teleworking arrangements, set up the e-workflow, e-signatures, in order to reduce likelihood of staff getting infected and enable business continuity via remotely done work</li> <li>- document via exception notes and ED decisions, justified deviations from normal practice due to pandemic impact on travel (eg recruitment, finance invoicing)</li> <li>- in cooperation with MS assess the training needs and necessary support in the pandemic context and extend the E-learning training offer; to this end purchase additional</li> </ul>	6. 3	<p><b>Short-term changes in stakeholder priorities to perform new tasks. Also major changes to existing processes/practices resulting from internal developments run simultaneously might hold the risk of overstretched staff and ultimately failure and non-compliance.</b></p> <p>Short-term changes in stakeholders priorities where there is an expectation and external pressure to perform and resource new tasks from within the existing budgetary envelope may lead to potential negative impact both on the delivery of other SPD outputs and on the staff well-being. Additionally, many internal developments run at the same time (new business model, new E-platform, new international cooperation projects) with a deficit of staff, might hold the risk of overstretched staff and ultimately failure and non-compliance. The workload impact of the new business model and new international cooperation projects is not known for certain teams (travel, ICT) which may create confusion.</p>	<p>Threat – Reduce</p> <p>Well designed and carefully communicated change management plan (with expected workloads) could help preventing resistance, decrease in productivity and negative health impacts on staff. Scenario planning in the SPD where negative priorities are provisionally identified, may help with the de-prioritisation of some activities in order to on-board the new tasks.</p>	6. 	development opportunities). Small teams are particularly highly dependent and vulnerable to staff fluctuation (CEP, TRU, and ICT). Lack of human resources dedicated to conceptual work which are not involved at the same time in running the daily operations. Systematic and prolonged use of interims brings a risk of (over)dependence on external staff, which may lead to potential loss of knowledge, lack of continuity when interims change. It must be noted that new officers will need to be heavily trained and mentored during their first year of service, which will require further additional efforts from the remaining staff.	on budget availability, introduce on line tools which are present in other EU institutions such as project management software/collaborative platform, budget planning tool, on line paperless financial workflow) to modernise processes and help staff be more efficient; take opportunity of the results of the staff engagement survey to introduce further improvements.	
7	<p><b>LEEd new e-platform fully operational</b></p> <p>Implementation of the new platform LEEd has been completed and the platform went live on 30/04. The ICT System Manager resigned in 2019 followed by resignation of e-learning AST in January 2020, mainly dealing with the project from TRU side. There were delays in fine-tuning the integration of 3rd party tools and in user/ data migration. There could be still unforeseen issues with migrated data which had to be manually corrected. Depending on the amount this can be labour intensive. Some of the reports could not be finalized in time which will also need human interactions in the beginning. LEEd has a new structure and user interface and therefore usage of the system might be challenging for some end-users in the first months. Training and quick guides were provided. Customisation of dashboard will add more functionalities for users f.e recorded webinars, e-journals &amp; e-books.</p> <p>Leed is currently back upped by WIDE but in case LEEd has major malfunctions, no back up plan from CEPOL is in place (once e-NET system is replaced we cannot go back). For time being Maintenance contract for operation and technical support signed. Budget estimated for further development as per presented Business Cases are refused or significantly changed by the MB following the written procedure launched in early July (multi-tenancy/ use of LEED by third countries, event management plug in, advanced search engine, exchange management plug in, etc. ). Preparations of technical specifications internally being delayed.</p>	<p>Threat – Reduce</p> <p>Handover note from the ICT Officer formalised and handover completed. Strict scrutiny and intervention from management to ensure bottlenecks in the project implementation are quickly solved. Keep stakeholders informed on LEEd status, give them technical support and organize regular meetings for discussing upcoming issues and possible enhancements to make LEEd more friendly after GoLive. Hold trainings for different type of users and provide them with online training courses and documentation. Extend eNet maintenance to have a failover possibility. Draft the procurement plan for LEEDs and send for management approval. Back up and in case of disaster recovery solution/ plan provided by ICT team with the aim to sign the contract with service provider shortly.</p>	2. Risks related to planning, processes and systems

Ref	Brief risk description	Mitigating actions	Risk type
8	<p><b>International cooperation projects</b>  <b>Inadequate internal rules and standardised procedures for operating in and with third countries. Unclear rules may also hold the risk of non-compliance.</b></p> <p>Inefficient processes and confusion among (project) staff due to contradictory rules for contracts applicable to international cooperation projects. Some contracts were signed without reference to hotel/meals ceiling (only best option criteria), while the ED decision on projects makes mandatory the IGN rules and implicitly the mission ceilings. Additional challenges brought by the large number of newcomers expected next year.</p>	<p>Clarify applicable rules, in consultation with, and guidance by, relevant stakeholders, including compliance assurance providers; Evaluate use of PRAG; Evaluate issuing/revising specific rules for capacity building in 3rd countries; revise/implement/strengthen internal processes. As projects grow in number, size and complexity and include subcontracting, flexibility should be further explored and rules should be suitable/ fit for purpose</p>	<p>6.
