

### CLARIFICATION no. 3

#### Procurement procedure CEPOL/PR/OP/2015/004 – Supply of CEPOL promotional products

##### Question 1

On page 11 of the tender specifications document, it states that CEPOL will order a minimum quantity of 10 units per each promotional product included in the order form.

If the minimum order quantity production of an item is for example 100 units, we presume it is the responsibility of the tenderer to manufacture 100 units to then only supply 10 units if that is what CEPOL may order? CEPOL will not commit to ordering the supplier's minimum order quantity per item?

##### Answer 1

Yes, that is correct. When placing an order, CEPOL will order a minimum quantity of 10 units per promotional product. CEPOL does not commit to order any minimum quantities imposed by the contractor.

Please note that the Financial Proposal Form (Annex III to the tender specifications) provides the possibility to quote the unit prices for different order quantities.
