The European Police College (CEPOL) is the European agency tasked with organising training for senior police officers in Member States of the European Union. CEPOL brings together senior police officers across Europe to encourage cross-border cooperation in the fight against crime and maintenance of public security and law and order.

CEPOL began operating as an EU agency on 1 January 2006 (Council Decision 2005/681/JHA of 17 September 2005). CEPOL has an annual budget of approximately 8.4 million euro funded by the European Communities. CEPOL operates as a network where the activities – courses, seminars, conferences and meetings – are implemented in and by Member States, mainly by the national senior police training colleges.

The current seat of the Agency is Budapest, Hungary.

CEPOL organises between 70–100 courses, seminars and conferences per year on key topics relevant to police forces in Europe, as well as carrying out specialised projects such as the CEPOL exchange programme for senior officers.

CEPOL also focuses on developing common curricula to harmonise training programmes, combating cross-border crime through specialist training; disseminating good practice and research findings; providing training for trainers; providing training for police authorities in candidate countries; and providing a state-of-the-art electronic network for sharing knowledge and best practice.

A.3. WHAT IS PROCUREMENT?

Procurement covers public contracts as well as procurement procedures. Public contracts are defined as purchases by a public authority of services, goods or works. A procurement procedure is the structured way that leads to the award of a public contract.

The purpose is:

- (i) to guarantee the widest possible participation of economic operators,
- (ii) to ensure the transparency of operations, and
- (iii) to obtain the desired quality of services, supplies and works at the best possible price.

Offers submitted in the context of a procurement procedure are referred to as “tenders”.

An economic operator who has submitted a tender is referred to as “tenderer”.

An economic operator who has been awarded the contract is referred to as “contractor”.

CEPOL procurement is governed by the Regulation (EU, EURATOM) 2015/1929 of the European Parliament and of the Council of 28 October 2015 amending Regulation (EU, EURATOM) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and Commission Delegated Regulation (EU) 2015/2462 of 30 October 2015 amending Delegated Regulation (EU) No 1268/2012 on the rules of application of Regulation (EU, EURATOM) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union.

A.4. CONFIDENTIALITY & PUBLIC ACCESS TO DOCUMENTS

In the general implementation of its activities and for the processing of tendering procedures in particular, CEPOL observes the following rules:

- Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 and Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data, and;
- Council Regulation (EC) No 1049/2001 of 30 May 2001 regarding public access to European Parliament, Council and Commission documents.

A.5 PARTICIPATION IN THE PROCUREMENT PROCEDURE

This procurement procedure is open to any natural or legal person wishing to bid for the assignment and established in any of the European Union Member States, Norway, Iceland, or Liechtenstein.

This procurement procedure is also open to all natural and legal persons established in FYROM, Albania, Montenegro and Serbia, which have been granted access to tendering procedures of the Union institutions.

In addition, tenderers must not be in any situation of exclusion under the exclusion criteria (see section indicated in section B.6.1. of these tender specifications) and must be authorised to perform the contract under national law in the country of their establishment/incorporation (see section indicated in section B.6.2.3. of these tender specifications).

Please note that any attempt by a tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or CEPOL during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of his tender and may result in administrative penalties.

A.6. CAN A CONSORTIUM SUBMIT A TENDER? IS SUBCONTRACTING ALLOWED?

Consortia of economic operators are authorised to submit tenders (joint offers) in compliance with the terms and conditions specified in Section E.1.

The tenderer may subcontract the tasks specified in Section B.1 (Technical specifications) to other economic operators in compliance with the terms and conditions for subcontracting specified in Section E.2.

B.1.2. THE CONTEXT OF THIS PROCUREMENT AND BACKGROUND INFORMATION

Any visual material has to be also prepared for use on YouTube.

Production of audio-visual material may involve travel and shooting on location. The contractor will be responsible for the travel arrangements required under the framework contract.

The tenderers must be able to provide all the services described above.

B.1.3.e. Ordering procedure

When and as needed CEPOL will order the multimedia support services by sending order forms to the contractor.

The order forms will include the description of the item, the quantity, the unit price, the delivery date(s) and address(es) and other specific requirements. A model order form can be found on the last page of Annex I – Model framework contract.

CEPOL will send 2 original signed order forms by post or courier to the contractor and a scanned copy by email to the contractor's designated contact point's email address or functional email address. The contractor will have to return one signed and dated original order form to CEPOL together with the invoice at the latest.

Please note the delivery time shall start counting from the next working date following the date the scanned copy of the order form (signed by CEPOL) is sent to the contractor by email.

CEPOL will mainly order the multimedia support services in one the following ways:

- a) Quarterly or annual ordering for the scheduled services

In this case CEPOL will send an order form covering the multimedia support services for CEPOL events and training activities spread over a calendar quarter or over a year. For example, CEPOL will send an order form in September 2016 whereby multimedia support services will have to be delivered by the contractor to different destinations in the European Union member states during October – December 2016. Once all the deliveries corresponding to a calendar quarter are completed, the contractor shall send one invoice for the whole quarter for payment to CEPOL. The invoice cannot be paid by CEPOL before all the deliveries under corresponding to the quarter in question are completed.

As a minimum requirement, the tenderers must accept the quarterly ordering. Acceptance of the annual ordering will be considered advantageous in the evaluation of tenders (please see Section B.7.1 Technical evaluation below).

b) Ad-hoc ordering

In this case, whenever needed, CEPOL will send an order form to the contractor, normally for delivery to one address (usually CEPOL headquarters in Budapest, Hungary). Once the delivery is completed, the contractor can send the invoice corresponding to the order form for payment to CEPOL.

For more details with regards to the payment arrangements please see Article I.6 of the model framework contract in Annex I.

B.1.3.f. Project management and meeting requirements

The contractor shall designate one project manager to act as a single point of contact for all CEPOL needs in respect of this Framework Supply Contract.

The designated project manager must be able to communicate fluently in English.

As this is a minimum requirement, tenderer's inability to comply with it will lead to the rejection of their tenders. Tenderers must state in the technical proposals their ability to comply with the above requirement.

After the signature of the framework contract, the contractor shall communicate to CEPOL the email address to which the order forms shall be sent.

Quality of the products and reliability of service must remain consistent throughout the duration of contract.

The contractor should commit to one kick-off meeting immediately after signature of the contract and, thereafter, quarterly contract review meeting at CEPOL's Headquarter in Budapest. These contract review meeting will be used to assess the performance, evaluate products, reassess needs and improve cooperation.

Any travel, accommodation and subsistence costs of the contractor's personnel participating during the execution of the services including the kick-off and the contract review meetings shall be borne by the contractor. For the purpose of the calculation of these costs the contractor shall estimate the following events per year:

- photo coverage, editing and printing for 30 two-day events;
- video filming and editing for 30 two-day events.

The events usually take place at CEPOL's headquarters in Budapest, Hungary.

B.1.3.g. Invoicing requirements

The invoice shall include as a minimum the following additional information (in addition to the to the name of supplier, invoice number and date of issue):

- the reference number of the framework contract
- the reference number of the order form
- the CPL number (provided by CEPOL on the order form)
- list of the items
- the unit price per each item
- the total price net of VAT
- if any VAT is applicable, the amount must be shown separately.

The invoice must be accompanied by a copy of proof(s) of delivery.

The invoice must be issued in the currency of contract, i.e. in Euros.

The payments will be made in accordance with the Articles I.6 of the Model Framework Contract (see **Annex I**).

B.1.4. VARIANTS

Variants are alternatives to any technical or financial aspects, or to any contractual conditions described in invitation to tenders.

Variants are not permitted in this invitation to tender.

CEPOL will disregard any variants described in an offer, and reserves the right to reject such offers without further evaluation on the grounds that they do not comply with the tendering specifications.

B.1.5. DIVISION INTO LOTS

This procurement procedure is not divided into lots. The tenderer must be able to provide all services requested.

B.2. CONTRACT

B.2.1. TYPE OF CONTRACT

CEPOL wishes to conclude a framework service contract with a single economic operator for the supply of services specified in the Section B.1.3. of the Tender Specifications.

A framework contract is a legal agreement between two parties - in this case, CEPOL and the Contractor. It acts as the basis for possible future purchase of services by CEPOL. The framework contract contains, inter alia, a description of the scope of services that can be purchased by CEPOL, methodology, timing and prices to be respected by the Contractor. It is a contract of a fixed duration but with no fixed value, only a maximum total value. The framework contract itself is not an order for services or supplies and does not constitute a financial commitment.

Signature of the framework service contract imposes no obligation on CEPOL to purchase any minimum quantity of supplies. Only implementation of the framework contract through order forms is binding on CEPOL. The procedure of issuing order forms is described in section **B.1.3.e. Ordering procedure** of these tender specifications.

B.2.2. MODEL CONTRACT AND ACCEPTANCE OF THE TERMS AND CONDITIONS

The model framework contract and order form are attached to these Tender Specifications as **Annex I**.

In particular, the model contract indicates the method and the conditions for payments to the contractor.

The resulting contract with the successful tenderer will be based on this model contract.

Submission of a tender implies acceptance of all the terms and conditions set out in this invitation to tender and in the model contract and, where appropriate, waiver of the tenderer's own general or specific terms and conditions. It is binding on the tenderer to whom the contract is awarded for the duration of the contract.

CEPOL reserves the right to decline without further comment any tender that does not accept its model contract.

B.2.3. CONTRACT PRICES AND PRICE REVISION

Prices for the supply of goods and provision of the services shall be as indicated in the tenderer's financial proposal.

Price revision

The prices indicated in the financial proposal shall be fixed and not subject to revision during the first year of duration of the framework contract.

Afterwards the prices may be revised, strictly in accordance with ARTICLE I.5.2. – PRICES of the Model Framework Contract (**Annex I**).

B.2.4. DURATION OF THE CONTRACT

The duration of the framework contract shall not exceed an initial fixed term of 12 months. The contract may be renewed up to three times, each time for a period of provision of services of 12 months. The maximum duration of contract shall not exceed 48 months.

Implementation of the framework contract may not start before the date on which the contract enters into force.

The specific contracts or order forms shall be signed before the framework contract expires.

The framework contract shall continue to apply to such specific contracts order forms after its expiry, but no later than 6 months.

B.2.5. VOLUME OF THE CONTRACT

The maximum contract value over the maximum possible duration of 48 months shall not exceed 180,000 EUR.

B.2.6 PAYMENT

The payment arrangements are described in Article I.6 of the attached model contract (see Annex I).

B.2.7. CONTRACT IMPLEMENTATION TIMETABLE

The estimated timeframe for signature of the contract is April 2016.

B.3. THE CONTENT OF THE TECHNICAL PROPOSAL

The technical proposal must be consistent with the Technical Specifications (see Section B.1). In preparing the technical proposal the tenderers should bear in mind the award criteria against which it will be evaluated (see Section B.7)

The tenderers must use the **Technical Proposal Form** (see **Annex II**) in preparing their technical proposals.

The technical proposal will become an integral part of the contract that will be concluded following the award.

Every page of the technical proposal must be signed by an authorised representative of the tenderer.

B.4. THE CONTENT OF THE FINANCIAL PROPOSAL

The tenderers must use the **Financial Proposal Form (see Annex III)** in preparing their financial proposals.

Each page of the financial proposal must be signed by an authorised representative of the tenderer.

NOTES FOR THE FINANCIAL PROPOSAL

- The tenderers must specify prices for all items listed in the Financial Proposal Form. Failure to do so will lead to the rejection of the tender.
- All prices must be quoted in **Euro (EUR)**.
- All prices must be free of all duties, taxes and other charges (including VAT), as CEPOL is, as a rule, exempt from all taxes and duties, and in certain circumstances is entitled to a refund for indirect tax incurred such as value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Union. Tenderers must therefore give prices which are exclusive of any taxes and duties. Where applicable, any amount of VAT must be indicated separately.

B.7. ASSESMENT OF THE TENDERS: EVALUATION OF THE AWARD CRITERIA

Once the tenderer has demonstrated the eligibility and appropriate capacity to perform the contract on the grounds of the exclusion and selection criteria, the tender will be assessed on the basis of the award criteria.

B.7.1 TECHNICAL EVALUATION

Tenders will be first checked for compliance with all the minimum (mandatory) requirements mentioned in the Section B.1. (please see Part 1 of the Technical Proposal Form). Only tenders which meet all the minimum requirements will be considered for further technical evaluation against specific criteria.

The technical evaluation will be carried out by establishing an overall technical score for each tender, which takes into account the individual scores for the following specific criteria:

Criterion	Maximum obtainable points
1. Quality of the delivering of multimedia services <i>1.1. Quality of the proposed approach (i.e. steps to take, description of the proposal - content, structure, etc.). (5 points)</i> <i>1.2. Description of the proposed organisation/timeline (including time per task, i.e. graphic design for a brochure, video filming and editing, editing of photographs, etc.). (5 points)</i> <i>1.3. Description of how the success of the products will be measured. (5 points)</i>	15
2. Scenario 1: Creation of a Prezi presentation <i>Description of a case study for the scenario 1 proposed in Annex X. This criterion will be evaluated on the basis of the following questions:</i>	30

<p>2.1. Does the case study cover all the requested tasks and work? (7.5 points)</p> <p>2.2. Is the proposed approach relevant to achieve the desired objectives? (7.5 points)</p> <p>2.3. Does the description of the work organisation (i.e. the project team composition, the roles and responsibilities of the team members, the availability assurance of key personnel that will execute the planned activities + back-ups, the timeline – including time per task and milestones -, the tools to collaborate with CEPOL – emails, intranet, etc. – and the follow-up of the progresses/implementation of the tasks – progress tracker, etc.) fulfil CEPOL’s needs?(7.5 points)</p> <p>2.4. TOTAL	100

Points will be allocated according to the following system (except for the Criterion 4: Delivery time):

Points awarded²	Definition
0%	No evidence / total failure: The tender totally fails to address the criterion under examination, or cannot be assessed due to missing evidence.
20%	Very poor: The criterion under examination is addressed in an incomplete and unsatisfactory manner; serious concerns.
40%	Poor: The criterion under examination is partly addressed but with a few major gaps or issues.
60%	Satisfactory: The criterion under examination is generally addressed with only a few minor issues (up to 3 minor issues).
70%	Fair: The criterion under examination is fully addressed and the tender responds to all requirements of CEPOL with no issues being identified.
80%	Good: The criterion under examination is fully addressed, the tender responds to all requirements of CEPOL and it offers some added value.
90%	Very good: The criterion under examination is fully addressed, the tender responds to all requirements of CEPOL and it offers good added value.
100%	Excellent: The criterion under examination is fully addressed and the tender offers excellent added value.

Total technical score

The total technical score for each tender will be calculated as the sum of the individual scores for the specific criteria. The maximum obtainable score is 100 points.

Thresholds

² 100% equals the maximum number of points achievable per question

In order to guarantee for a minimum level of quality, tenders that do not reach a minimum of 60% of the possible overall score for the technical evaluation will be eliminated from further evaluation (i.e. 60 points minimum, out of the overall total of 100 points).

In addition, tenders that do not reach a minimum score of 50% for each criterion of the technical evaluation (except for the Criterion 4: Delivery time) will be considered of insufficient quality and will be eliminated from further evaluation.

B.7.2. FINANCIAL EVALUATION

The financial evaluation will be carried out on the basis of a predefined price simulation scenario, reflecting volume estimates for the supplies which may potentially be purchased by CEPOL during the entire duration of the framework contract. On the basis of this scenario CEPOL will calculate an estimated total price.

The price simulation scenario will not become part of the framework contract, will not be binding on CEPOL and will be used solely for the purpose of evaluating the financial proposals. Only the prices specified by the tenderer in his Financial Proposal (Annex III) will become part of the contract.

The price simulation scenario can be found in **section B.4 “THE CONTENT OF THE FINANCIAL PROPOSAL”**.

The tender providing the lowest total price will receive a financial score of xxx points.

The financial score for the other tenders will be calculated by using the following formula:

Financial score = Lowest total price among all tenders /total price of the tender being evaluated x 1500.

B.7.3. AWARD OF THE CONTRACT

The contract will be awarded to the most economically advantageous tender which will be established by weighing technical quality against price on a **65/35 basis**.

The final score will be calculated using the following formula:

Final score = Technical score x 65%+ Financial score x 35%

The tender obtaining the highest final score will be deemed to be the most economically advantageous tender.

- **CEPOL reserves the right to decline without further comment any proposal that does not accept its model contract.**

C.2. LANGUAGE OF YOUR TENDER

The tenders may be submitted in any of the official languages of the European Union.

Since CEPOL's working language is English, CEPOL would highly appreciate to receive tenders written in English, although this does not constitute a selection or an award criterion and will be ignored for the purpose of assessing the tenders.

C.3. HOW TO PACKAGE YOUR TENDER?

Tenders must be submitted using the double envelope system – i.e. one outer envelope and one inner envelope - in order to guarantee the confidentiality and integrity of data.

Both the **outer and the inner envelopes** must carry the following information:

H-1066 HUNGARY

Tenders sent by other means (e.g. by e-mail or fax) or dispatched later than the deadline indicated in Section B.8 will be rejected.

N.B. The tenderer shall note that, in case of tenders dispatched through registered mail or courier service, if the proof of dispatch is duly provided to CEPOL as explained in Section C.4.1.a below, tenders will be accepted even if – due to unexpected delays – they arrive after the date of the opening session.

If no proof of dispatch is provided to CEPOL and the tenders arrive after the opening session takes place, tenders will be rejected.

C.4.1. IMPORTANT NOTE: PROOF OF DISPATCH

C.4.1.a. REGISTERED MAIL AND COURIER SERVICE

The tenderer shall dispatch its tender to the postal or courier service by the deadline indicated in **Section B.8** at the latest.

As a proof of dispatch, date and time of dispatch shall be clearly indicated by the postal or courier service on the outer envelope of the tender.

In addition, the tenderer shall obtain a receipt of delivery issued by the postal or courier service clearly indicating the date and time of dispatch. By the deadline indicated in **Section**

B.8, the tenderer must send a copy of this receipt to CEPOL by e-mail (tenders@cepol.europa.eu) or by fax (+3618038032), specifying the title and reference number of this procurement procedure, together with the name, email address and telephone number of the tenderer.

C.4.1.b. HAND DELIVERY

The tenderer shall hand in its tender to the CEPOL official taking delivery by the deadline indicated in **Section B.8** at the latest.

As a proof of dispatch, the tenderer shall obtain a receipt, signed and dated by the CEPOL official taking delivery, clearly indicating the date and time when the CEPOL official took delivery of the tender.

In order to ensure punctual hand delivery, the tenderer is strongly advised to take into account the time needed for security checks when entering the CEPOL premises and for the actual handover of its tender to the CEPOL official in charge of taking delivery.

CEPOL may not be held liable for any delays incurred by the tenderer when in CEPOL's premises; the tenderer alone is responsible for ensuring that its tender is delivered on time.

C.5. CONTACTS BETWEEN CEPOL AND TENDERERS

Contacts between CEPOL and the tenderer may only take place in exceptional circumstances, under the following conditions:

C.5.1. BEFORE THE DEADLINE FOR DISPATCHING TENDERS

C.5.1.1. REQUESTS FOR CLARIFICATIONS

Should the tenderer discover any discrepancies in the Tender Specifications or be in any doubt as to their meaning, the tenderer should notify CEPOL.

The tenderer may also request additional information and/or clarifications on the procurement procedure, the Tender Specifications or the nature of the contract.

Such requests shall be made in writing only; no telephone queries will be accepted.

The requests shall indicate the tender reference number and title, and shall be sent by e-mail, fax or mail to:

European Police College (CEPOL)

Ó utca 27.

Budapest

H-1066 HUNGARY

Fax: +3618038032

E-mail: tenders@cepol.europa.eu

All queries shall be sent to CEPOL no later than the deadline indicated in **Section B.8**. Tenderers shall note that CEPOL is not bound to reply to requests for additional clarifications made less than 5 working days before the deadline for dispatching tenders.

C.5.1.2. AMENDMENT OF THE TENDER SPECIFICATIONS

At any time prior to the deadline for dispatching tenders, CEPOL may modify the Tender Specifications by amendment.

In order to allow tenderers reasonable time in which to take the amendment into account in preparing their tenders, CEPOL, at its discretion, may extend the deadline for dispatching tenders.

N.B. The information concerning requests for clarifications and/or amendments of the Tender Specifications will be made available electronically on the CEPOL web site (<https://www.cepol.europa.eu/who-we-are/working-with-cepol/procurement>) as soon as possible, but no later than 6 calendar days before the deadline for dispatching tenders.

CEPOL web site will be updated regularly. It is the tenderer's responsibility to check for updates and modifications during the tendering period.

Clarifications and/or amendments will be regarded as an integral part of the Tender Specifications.

C.5.2. AFTER THE DEADLINE FOR DISPATCHING TENDERS

If, after the deadline for dispatching tenders, a clarification is needed by CEPOL or if obvious clerical errors in the tender need to be corrected, CEPOL may contact the tenderer, although such contacts may not lead to any alterations of the terms of the submitted tender.

SECTION D – HOW WILL TENDERS BE EVALUATED?

D.1. PUBLIC OPENING SESSION

Tenders are opened by an opening committee, whose members are appointed by CEPOL on a personal basis under guarantee of impartiality and confidentiality.

D.1.1. FORMAL OPENING REQUIREMENTS

The main aim of the opening session is to check whether the tenders received are compliant with the following formal requirements:

1. the tender was not dispatched later than the dispatch deadline indicated in **Section B.8**,
2. the inner envelope containing the tender is sealed as specified in **Section C.3**, in order to guarantee the confidentiality and integrity of data,
3. the tender contains information and documentation indicated in **Section C.1**,
4. the Technical and Financial proposals are signed on the front page and initialled on each page, as indicated in **Section C.1**,
5. the tender is submitted in the number of copies required in **Section C.3**.

If tenders are not compliant with requirements no. 1 and 2, they will be rejected.

D.1.2. MODALITIES TO ATTEND THE PUBLIC OPENING SESSION

The public opening session will take place at CEPOL's premises on the date and time indicated **Section B.8**.

One representative per tenderer is allowed to attend the opening session as an observer.

Should a tenderer wish to be present, it shall inform CEPOL of the name of its representative by email (tenders@cepol.europa.eu) or by fax (+3618038032), not later than the date and time indicated in **Section B.8**.

For security reasons the tenderers who do not register within the given deadline will not be allowed to attend the opening session.

D.2. TENDER EVALUATION SESSION

Tenders complying with the formal opening requirements checked during the opening session are evaluated in four stages by an evaluation committee, whose members are appointed by CEPOL on a personal basis under guarantee of impartiality and confidentiality.

- (i) The evaluation committee first checks the eligibility of the tenderer to participate in the procurement procedure as defined in **Section B.6.1**.
- (ii) The evaluation committee then checks the capacity of the tenderer to perform the contract against the selection criteria as defined in **Section B.6.2**. If one of the relevant criteria is not positive, its tender may not be further evaluated.
- (iii) The evaluation committee checks if all the minimum requirements listed in **Section B.1** are met. The tenders that do not meet all the minimum requirements shall be rejected.

- (iv) Afterwards, the evaluation committee evaluates the technical and financial proposals against the award criteria and identifies the offer presenting the best value for money as explained in **Section B.7**.

In case of joint offers submitted by consortia and in case of subcontracting, the exclusion, selection and award criteria are assessed in compliance with the terms and conditions specified in **Section E**.

N.B. The evaluation procedure is confidential. The deliberations of the evaluation committee are held in closed session and its recommendations are collective. The members of the evaluation committee are bound to confidentiality.

SECTION E – JOINT OFFERS SUBMITTED BY CONSORTIA AND SUBCONTRACTING: TERMS AND CONDITIONS

Companies can consider two ways of collaborating in a tender: either as joint partners in the tender or through subcontracting. Unless stated otherwise in the contract notice and/or the tendering specifications, both **joint tenders** and **subcontracting** are allowed in response to a call for tenders issued by CEPOL. Tenders may even combine both approaches.

In any case, the file must specify very clearly whether each economic operator involved in the tender is acting as a partner in a joint tender or as a subcontractor (this also applies where the various companies involved belong to the same group, or even where one is the parent company of the others). Please fill in the relevant information in the **Tender Form (see Annex VI)** for this purpose.

The implications of these two modes of collaboration are radically different. So that you can understand them both fully, they are outlined below.

E.1. JOINT OFFERS SUBMITTED BY CONSORTIA

E.1.1. INTRODUCTION

Groups of economic operators (consortia) are authorised to submit tenders (joint offers).

The members of the consortium shall designate one member as consortium leader with full authority to bind the consortium and each of its members (a power of attorney must be included in the tender). The consortium leader shall act as a single point of contact with CEPOL in connection with the present procurement procedure. Each legal entity shall assume joint and several liability towards the contracting authority for the fulfilment of the terms and conditions of the contract.

Any change in the composition of the consortium during the procurement procedure may lead to the rejection of the corresponding tender. Any change in the composition of the consortium after the signature of the contract may lead to the termination of the contract.

CEPOL may not demand that consortia must have a given legal form in order to be allowed to submit a tender. However, the consortium selected may be required to adopt a given legal form after it has been awarded the contract and before the contract is signed, if this change is necessary to the proper performance of the contract.

E.1.2. DOCUMENTATION / INFORMATION TO BE PROVIDED

Each member of the consortium must provide the following documentation:

- Documentation related to the eligibility of the tenderer, as specified in **Section B.6.1**;
- Documentation related to the economic and financial capacity of the tenderer, as specified in **Section B.6.2.1**;
- Documentation related to the authorisation to perform the contract under national law, as specified in **Section B.6.2.3**;

Documentation related to its technical and professional capacity, as specified in **Section B.6.2.2**, shall relate to the whole consortium

E.1.3. EVALUATION

Joint offers submitted by consortia will be assessed as follows:

- The exclusion criteria (**Section B.6.1**) will be assessed in relation to each member of the consortium individually;
- The selection criteria for the economic and financial capacity (**Section B.6.2.1**) will be assessed as follows:
 - For criteria set as minimum viability standards on financial and economic standing (e.g. by means of appropriate statements from banks or balance sheets), an individual evaluation will be made;
 - For criteria that are deemed to be achieved above a certain level (e.g. overall turnover or turnover with respect to the specific tender), a consolidated assessment – all members of the consortium together – will be made;
- The selection criteria for the technical and professional capacity (**Section B.6.2.2**) will be assessed in relation to the combined capacities of all members of the consortium, as a whole;
- The authorisation to perform the contract under national law will be assessed individually for each legal entity (**Section B.6.2.3**)
- The technical and financial evaluation of the offers (**Section B.7**) will be carried out in relation to the tender.

Since all members of the consortium are jointly and severally liable towards CEPOL for the performance of the contract, statements included in the joint offer saying, for instance:

- that each member of the consortium will be responsible only for a specific part of the contract, or
- that a separate contract should be signed with each member of the consortium if the joint offer is successful,

are incompatible with the principle of joint and several liability.

CEPOL will disregard any such statement contained in a joint offer, and it reserves the right to reject such offers without further evaluation, on the grounds that they do not comply with the Tender Specifications.

N.B. If a member of the consortium does not fulfil one of the exclusion criteria or selection criteria that must be met individually by each legal entity, the whole consortium may be excluded.

E.1.4. CONTRACT IMPLEMENTATION

Once the Contract has entered into force, all members of the consortium shall be jointly and severally liable towards CEPOL for the performance of the Contract, they shall comply with the terms and conditions of the Contract and ensure the proper execution of their respective share of the services.

The Consortium Leader – duly authorised by the other members of the consortium (a power of attorney must be included in the tender) – will be entitled to sign any contractual documents; it shall act as a single point of contact with CEPOL in connection with the services to be provided under the Contract; it shall co-ordinate the provision of the services by the consortium members to CEPOL; it shall guarantee a proper administration of the Contract.

The composition of the consortium and the allocation of tasks among the members of the consortium shall not be altered without prior written information to CEPOL.

E.2. SUBCONTRACTING

E.2.1. INTRODUCTION

The tenderer may subcontract the tasks specified in Section B.1 (Terms of Reference) to other economic operators, as long as the supplies and/or services are provided in accordance with the Tender Specifications and have no impact on the prices proposed in its financial proposal.

E.2.2. DOCUMENTATION / INFORMATION TO BE PROVIDED

The tenderer shall:

- (i) State which tasks it intends to subcontract and clearly indicate the already identified subcontractor(s), their roles, activities and responsibilities;
- (ii) Specify the volume or proportion of the activities likely to be subcontracted;

In addition, if the tenderer intends to subcontract more than 20% of the activities specified in Section B.1 to a one subcontractor, the documentation related to the eligibility, as specified in

Section B.6.1, must be provided for each subcontractor performing a share of more than 20% of the contract:

- Documentation related to the eligibility of the subcontractor(s), as specified in Section B.6.1

If the tenderer relies on the subcontractor(s) in order to meet the selection criteria, as specified in Section B.6.2. the following documentation must be provided for each subcontractor on whose capacities the tenderer relies on:

- Documentation related to the economic and financial capacity, as specified in Section B.6.2.1;
- Documentation related to the technical and professional capacity of the subcontractor (documentation to be provided to the extent of the activities that will be subcontracted), as specified in Section B.6.2.2.
- Documentation related to the authorisation to perform the contract under national law, as specified in Section B.6.2.3;

E.2.3. EVALUATION

In case of subcontracting, the tender will be assessed as follows:

- *(if applicable)* the exclusion criteria (Section B.6.1) will be assessed in relation to each proposed subcontractor individually;
- *(if applicable)* the selection criteria for the economic and financial capacity (Section B.6.2.1) will be assessed as follows:
 - For criteria set as minimum viability standards on financial and economic standing (e.g. by means of appropriate statements from banks or balance sheets), an individual evaluation will be made;
 - For criteria that are deemed to be achieved above a certain level (e.g. overall turnover or turnover with respect to the specific tender), a consolidated assessment – tenderer plus subcontractor(s) – will be made, depending on the extent to which the subcontractor(s) will put their resources at the disposal of the tenderer for the performance of the contract;
- *(if applicable)* the selection criteria for the technical and professional capacity (Section B.6.2.2) will be assessed in relation to the combined capacities of the tenderer and the subcontractor(s), as a whole, depending on the extent to which the subcontractor(s) will put their resources at the disposal of the tenderer for the performance of the contract;
- The technical and financial evaluation of the offers (Section B.7) will be carried out in relation to the tender.

E.2.4. CONTRACT IMPLEMENTATION

Once the contract has entered into force, the successful tenderer shall retain full liability towards CEPOL for the performance of the contract as a whole. CEPOL will not have any direct legal commitment with the subcontractor(s).

During the execution of the contract, the contractor will need CEPOL's express authorisation to replace a subcontractor with another subcontractor and/or to subcontract tasks for which subcontracting was not envisaged in the original tender, in compliance with the provisions on subcontracting foreseen in the contract.

SECTION F – SIGNATURE OF THE CONTRACT WITH THE SUCCESSFUL TENDERER: PROVISION OF DOCUMENTATION

Eligibility documentation (exclusion criteria)

The successful tenderer to whom CEPOL intends to award the contract will have to provide – within a time limit of 10 calendar days and preceding the signature of the contract – specific evidence in order to prove that they are not in a case of exclusion.

The following documentary evidence, confirming the declaration on honour, as referred to in Article 146 (3) of the Rules of Application (Commission Delegated Regulation (EU) 2015/2462 of 30 October 2015 amending Delegated Regulation (EU) No 1268/2012 on the rules of application of Regulation (EU, EURATOM) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union) is listed below and will be accepted in **original only**:

1. For the situations described in point (a), (c), (d) or (f) of **Section B.6.1** of the Tender Specifications, CEPOL shall accept, as satisfactory evidence, a recent extract from the judicial record or, failing that, a recent equivalent document recently issued by a judicial or administrative authority in the country of establishment showing that those requirements are satisfied (eligibility documents 1);
2. For the situation described in points (a) and (b) of **Section B.6.1** of the Tender Specifications, CEPOL shall accept, as satisfactory evidence, a recent certificate issued by the competent authority of the State concerned (eligibility documents 2).

However, where the eligibility documents 1 and 2 are not issued in the country concerned, CEPOL shall accept, as satisfactory evidence for the situations described in points a) to d) and f) of **Section B.6.1** of the Tender Specifications, a sworn or, failing that, a solemn statement made by the successful tenderer before a judicial or administrative authority, a notary or a qualified professional body in its country of origin or provenance, clearly stating that the requested eligibility documents are not issued in the country concerned and that the successful tenderer is not in one of the above-described situations.

Depending on the national legislation of the country in which the successful tenderer is established, these documents must relate to legal persons and/or natural persons. Where considered necessary by CEPOL, the successful tenderer may be requested to provide that documentary evidence for company directors or any person with powers of representation, decision-making or control in relation to the successful tenderer.

However, CEPOL may decide to waive the obligation of the successful tenderer to submit the documentary evidence if such evidence has already been submitted to CEPOL for the purposes of another procurement procedure and provided that the issuing date of the documents does not exceed one year and that they are still valid. In such a case, the successful tenderer shall declare on its honour that the documentary evidence has already been provided

to CEPOL in a previous procurement procedure and confirm that no changes in its situation have occurred.

N.B. In case of joint offers submitted by consortia, the above listed documentary evidence shall be provided by each member of the consortium.

In case of subcontracting, the above listed documentary evidence shall be provided on CEPOL's request.

The successful tenderer shall acknowledge that the notification letter sent by CEPOL to inform him that CEPOL intends to award him the contract does not constitute the award of the contract itself. This will not be completed until the contract has been signed by the successful tenderer and CEPOL.

Please note that the signature of the contract between CEPOL and the successful tenderer will be conditional upon provision of the documentary evidence from the successful tenderer.

Capacity documentation (selection criteria)

On CEPOL's request, the successful tenderer shall submit – within a time limit defined by CEPOL and preceding the signature of the contract – the original certificates / documents to CEPOL for conformity check prior to the signature of the contract.

In such case, please note that the signature of the contract between CEPOL and the successful tenderer will be conditional upon provision of the original certificates / documents from the successful tenderer.
